

U. S. TROOPS RUSH TO MEXICO

WATER AND CEMETERY BILLS REGULARS ORDERED TO PREPARE FOR ROADS AND BRIDGES COMMITTEE

Having to Do With Lowell
are Introduced in the
Legislature

Representative Victor Francis Jewett has filed two bills in the legislature having to do exclusively with Lowell. One of the bills accompanies the petition of Commissioner Andrew J. Barrett for legislation to authorize the city of Lowell to lay pipes in the town of Chelmsford for the purpose of supplying water. The other bill accompanies the petition of Commissioner Lawrence Cummings for legislation relative to the disposition of revenues received on account of public burial grounds in the city of Lowell. Both bills will be heard on Friday; burial grounds bill before the committee on cities and the other before the committee on water supply. The bills read as follows:

An act to authorize the city of Lowell to dig up certain ways and streets in the town of Chelmsford and lay water pipes therein.

Section 1. The city of Lowell is hereby empowered and authorized to dig up and open certain ways and streets in the town of Chelmsford and to make such excavations as may be necessary for the laying of water pipes therein.

Section 2. That the streets contemplated in the first section of this act are described as follows: viz: Brouillette street southerly to Princeton street, thence easterly along said Princeton street to the terminus on Princeton street in the city of Lowell.

Section 3. That the city of Lowell is hereby authorized to lay its water pipes in said streets mentioned in section two of this act.

An act to provide for the exclusive appropriation of all revenues and moneys accruing to the city of Lowell

REP. VICTOR JEWETT

from and on account of public burial grounds.

Section 1. All revenues and all moneys accruing to the city of Lowell from and on account of the public burial grounds shall, when collected or paid into the city treasury, be carried to an account to be known as "The Public Burial Grounds Fund," and all such revenues and moneys shall be exclusively appropriated to the use of public burial grounds.

Section 2. All acts or parts of acts inconsistent herewith are hereby repealed.

Section 3. This act shall take effect upon its passage.

NEW PARCEL POST SUB STATIONS

Postmaster Joseph Legare has given authority to three sub-stations to handle parcel post packages, and he says that others will be named later. The sub-stations appointed today to do parcel post service are as follows: Station No. 1, Dows' drug store, corner of Merrimack and Central streets. Station No. 4, Ray F. Webster's drug store, 415 Bridge street. Station No. 8, Leeds' ticket agency, Merrimack square.

SENSATIONAL CHARGES ARE MADE

In Civil Anti-Trust Suit for Dissolution of the Cleveland Stone Company

CLEVELAND, O., Feb. 12.—Sensational charges are contained in a civil anti-trust suit for the dissolution of the Cleveland Stone Co. and its subsidiaries filed here today by order of Attorney-General Wickham.

To acquire a monopoly in the building, paving, curbing and grinstone business, the stone trust is charged with influencing architects "by a money consideration or by conferring favors" to specify its stone in their building plan; maintaining a separate

organization of its subsidiaries as to enable them to appear as competitors in bidding for contracts; fixing prices of building, paving and curbing stones in the central states and controlling the price of grinstones throughout the United States by agreements with jobbers and rebating.

The combination is alleged to dominate absolutely the market for grinstones in the United States, supplying 80 to 90 per cent. of all grinstones in this country and at least 35 per cent. of all grinstones used in America including importations from abroad.

The Cleveland Stone Co. is charged with striving to monopolize the interstate commerce in building, paving, and curbing stone in the central part of the country.

The Cleveland Stone Co., its subsidiaries and their officers and directors are made defendants by the government's petition in equity.

The petition, signed by Attorney-General Wickham and James A. Fowler, assistant to the attorney-general, was filed by United States Attorney Ulysses Denman.

Very Best the Market Affords

Every article in the great sale of Kitchen Utensils, that opens tomorrow at the Bon Marche, will be first quality in every respect.

Complete equipment for city or out-of-town funerals.

A chapel where services may be held or bodies kept when desired. Advice and information given.

"EXPEDITIONARY SERVICE"

Rebels Advance on National Palace—
Prison Thrown Open and 5000
Criminals Released

PRESIDENT MADERO

GEN. FELIX DIAZ

MEXICO CITY, Feb. 12.—The Belin, the famous old city prison, has been thrown open by the rebels and from 5000 to 6000 desperate criminals let loose.

FIRST BRIGADE ORDERED TO PREPARE FOR "EXPEDITIONARY SERVICE"

WASHINGTON, Feb. 12.—The first brigade of the first division of the army, about 2000 strong, has been ordered prepared for "expeditionary service."

It is composed of the third infantry at Madison barracks and Oswego, the fifth infantry at Rattsburgh and the 29th infantry at Fort Niagara, all in New York state.

This organization has just been brought into existence by part of the scheme in the army reorganization and its responsibility to the call of the foreign service may be regarded as a first practical test of the value of the new system.

The first brigade will entrain for Newport News, Va., only in the event that the preparatory orders issued this morning are followed by others, setting the troops in motion. With 24 hours after such an order it is expected the most distant organizations within the brigade will arrive at Newport News.

UNITED STATES MAKES PLANS FOR

QUICK MOVEMENT OF TROOPS

WASHINGTON, Feb. 12.—Immediately on leaving the White House after last night's Mexican conference, Major-General Wood went directly to the war department, where he remained at his desk until nearly daylight, working out details for the quick movement of troops should the occasion arise. These troops probably will be mobilized at Galveston, Tex., being prepared to embark as soon as the transports had reached that point from Newport News, Va.

The two additional battalions which are to go to Mexico as decided on at the midnight White House conference, between President Taft, Secretaries Knox, Stimson and Meyer and officers of the army and navy will bring the total number of American men of war in Vera Cruz harbor up to three. The dreadnaught Virginia already is steaming to Tampico and the Georgia already is on her way to Vera Cruz. This will make a total of four American battleships on the gulf coast of Mexico.

On the Pacific side the Colorado and South Dakota are already under orders for Mexican ports and other ships may follow them at any moment.

Army Transports to Mexico

Early today the quartermaster general's department report completed its arrangements for sending two army transports from Newport News with an expeditionary force of troops.

will be augmented by the Illinois and New Jersey or perhaps the Rhode Island of the third division of the Atlantic fleet.

Unless there should be fresh demonstrations in Mexico outside the capital which appear to threaten foreign interests—for the American naval commanders are expected to look after Europeans and Asiatics as well as Americans—the force now under way probably will be regarded as sufficient to meet present needs. As was pointed out in the White House statement last night there is nothing the naval force can do at this juncture, except afford refuge to foreigners and maintain order in the coast towns where non-combatants safely gather should the new revolution spread.

"Sleeping on Their Arms"

While preparatory orders have been issued to army officers in charge of the military organizations scattered from northern New York to Georgia which, on paper, form the expeditionary force—a flying wedge—to effect an entrance to any country with which the United States might become involved in hostilities the effect of these orders will be not to start the troops in movement, but to put them "sleeping on their arms" for the signal to take train or ship for the south.

The big army transports at Newport News will be ready to sail by tomorrow morning at the latest. They would take some of the regular troops from Fort Monroe, Baltimore, and Fort Myers near this city, should it be decided that the crisis in Mexico had assumed such proportions as to demand the dispatch of a military force to reinforce the naval contingent already under way. All these measures are merely precautionary because all officials here from President Taft down saw as yet no ground for intervention.

Fighting in the heart of Mexico City endangering thousands of lives is looked upon with apprehension; but army men and students of international law declare this condition may be justifiable if the Madero government finds it necessary to fight for its existence. Although Ambassador Wilson was joined yesterday by the entire diplomatic body in the city of Mexico in his protest against the conduct of hostilities in the streets, it is said here that the only immediate step that can be taken in the interest of safety of the foreign element would be the issuance of an appeal by Mr. Wilson and the other diplomatic representatives to citizens of various powers to withdraw to Vera Cruz, where they would be under the protection of the warships. The military commanders on both sides undoubtedly would interpose no obstacle to the departure of the foreign population and would give them safe conduct to the coast.

OPPOSES INTERVENTION OF THE UNITED STATES IN MEXICO

WASHINGTON, Feb. 12.—Declaration against immediate intervention in Mexico was made today by Senator Cullom, chairman of the senate committee on foreign relations.

"I trust there will be no immediate

(Continued to page eight.)

Came to Lowell Today—
Representative Achin
is a Member

REP. HENRY ACHIN

The legislative committee on roads and bridges came to Lowell this afternoon, arriving here at 3 o'clock and was taken over the route of the state highway proposed by Frank Ricard of this city. Mr. Ricard has charge of the arrangements here. The committee was met at the Middlesex street depot and was switched away in automobiles over the proposed route. The committee asked a number of questions and did a lot of eye surveying, but did not express any opinions, reserving them, presumably for tonight, when a hearing will be held in the old council chamber at city hall, at 7:30.

After going over the route of the proposed highway, and it was a cold ride, too, the visitors were taken to the Yoric club where they will take supper. The first arrangement was to have the visitors taken to city hall directly from the depot, but later it was deemed best to first go over the route and that was probably the better plan.

Representative Henry Achin, Jr., of this city is a member of the committee and Mr. Achin and Representative Jewett have taken a very active part in the measure with the committee and other members of the legislature. Interested because of the fact that the proposed highway would take in the greater part of their district.

The committee on roads and bridges

is composed of the following members of the legislature: Senators Johnson (chairman), Bagley and Fitzgerald; Representatives Collins (house chairman), Morjan, Achin, Thompson, Moulton, Vincent, Dwyer and Burdick (clerk).

EARLY MORNING BLAZE

East Merrimack Street

House Endangered

About 7 o'clock this morning fire was discovered in a dwelling house belonging to the estate of a Mr. Robbins at 412 East Merrimack street, and an alarm was immediately telephoned in to the fire department. The apparatus arrived on the scene a few minutes later and found a stubborn blaze in the kitchen of the house. It had already gained considerable headway when discovered, but was subdued with dispatch by the efficient work of the firemen.

The origin of the blaze is unknown, according to the story told by occupants of the house. Considerable damage was done, but this was covered to a large extent by insurance.

Direct Dealings With Foreign and Domestic Manufacturers

Enables the Bon Marche to sell perfect goods at price of "seconds" in the Great Sale of Kitchen Furnishings, tomorrow.

AN ENJOYABLE AFFAIR

Local Clerks Went to Long Pond

The employees of the Boston Clock & Suit store in Merrimack street and a score or more of their friends spent a most enjoyable evening at Schofield's hall, Long Pond, last night. The affair was organized by Mr. and Mrs. Lemkin, proprietors of the store, who proved to be real entertainers.

The party left the store in the early part of the evening and boarded a special electric car. At first the trip seemed planned to be made in a large sleigh, but on account of the storm this was changed and an electric car was used instead. Upon reaching the hall the party sat down to a bountiful repast at the close of which dancing was started.

The jollification was kept up till a late hour, when the party returned to the city, after expressing their many thanks to Mr. and Mrs. Lemkin for their cordial hospitality.

Dog Carried Shopping Bag

A great many people were interested in a dog that appeared to be out shopping today. The canine in question made his appearance on Merrimack square about noon decorated with a red ribbon attached to his collar and a string bag for parcels firmly clamped in his mouth. His carriage was that of any self-respecting dog seat on an important errand and greatly appealed to the spectators who were blessed with a sense of humor. After idling around the sidewalks as long as his dignity would permit the four-legged shopper entered a store after an obliging old man had opened the door. Whether he carried on any negotiations or not is unknown by the writer but after a short stay he again appeared on the street and repeated the performance in several of the downtown stores. The dog had evidently lost the owner of the bag or had been stricken with the bargain fever for his unsuccessful tours did not seem to dampen his ardor in any appreciable degree. Certain it is that if this system of shopping was inaugurated by all owners of dogs the office of department store detective would soon become obsolete.

\$100,000 Lost by Fire

LITTLE ROCK, Ark., Feb. 12.—Fire destroyed property valued at \$100,000 here today. The H. F. Auten buildings and the Capitol theatre were burned and the Gleason hotel was damaged. Guests in the nearby Merchants hotel and in the Gleason escaped unhurt.

Perfect Goods at Prices of "Seconds"

Over three carloads of aluminum ware, enamel ware, dinner ware, etc., go on sale at about one-half price at Bon Marche tomorrow.

FINE LECTURE HEARD

On Fundamental Conceptions of Education

BY FREDERICK H. HAMILTON,
EX-PRES. OF TUFTSPowers of Observation, Comparison
and Expression Must Be Developed
—Moral Nature Also Important

"Some Fundamental Conceptions of Education" was the subject of a very fine lecture by Frederick H. Hamilton, D. D., formerly president of Tufts college, at the Unitarian church last night.

"Education in the United States," said Dr. Hamilton, "is a word to compare with. Whenever we want something done, we say we must have a campaign of education. Whenever any difficulty in our affairs presents itself, we immediately say that this matter must be governed by education."

"We are all very much interested in the subject of education, and we are all criticizing just at present. All sorts of bills, freak and otherwise, are introduced in the legislature in the alleged interest of education."

"It is by their fruits that educational systems are to be judged, and if we are to judge the educational system of the United States by its fruits and not view it through the microscope of the critics, we must believe that it is a good system. Nevertheless, times change, and we must change with them."

"If we are to improve our system we must bear in mind whatever specific end we have in view, the developing of three powers. First, the power to observe. There are very few persons going through the world really seeing things. The uneducated man sees very little of what he looks at; and he cannot become an educated man until he acquires the power of observation."

"Next, we must develop in the power of comparison. Most of our intellectual operations are based upon the power of comparison. He must learn to differentiate. We are apt to lose sight of that, to content ourselves with memory exercises and the acquisition of facts, without any comparison of those facts with the great world of facts in which they lie. What is the use of giving a boy a lot of facts that he does not think about? What future is there for a boy who is simply a 'hand'?" A hand may be very useful, but a brain is much more useful.

"A third power that we want to develop, is the power of expression. Expression means a good deal more than making speeches or writing newspaper articles. It means anything and everything that puts into concrete form that which we call thought."

"One of the most serious mistakes that we make, is the mistake of supposing that the teaching of expression is the business of but two departments—English and drawing. Why do we confine our teaching of expression to those things that do not half so important that a boy should be taught to write an English theme correctly, as it is that he should be taught to write correctly about anything he has occasion to write about. We want the boy to be able to express his thought; and we do not want him limited to one form of expression."

"The value of vocational education comes not in its being a short cut to the shop, but simply in that it turns Tommy Jones into the shop with the habit of observing, thinking about, and expressing mechanical things."

"We do not make doctors in the medical schools. The doctor has to have his hospital training. We do not make lawyers in the law school. The Institute of Technology does not make it possible for him to become an engineer, by building on the foundation laid in the school. So it is not so much a matter of the curriculum, as it is of the development of the moral nature."

"The development of the moral nature is by no means to be neglected. A man who is simply a thinking machine is liable to be dangerous to a community. There is nothing intrinsic to education itself, that is going to make a man better. It is the development of the moral sense, which must make the developed Tommy Jones a blessing."

"There are only two reasons why the study of Latin and Greek should continue in the schools: First, the vocational reason; and second, because we expect that the boy will gain intellectual power by it. If you want him to get intellectual power, teach him so that he will get intellectual power. Remember that you are not going to make a Latin professor of him. You are going to use that instrument as a means of teaching him accurate observation, careful thinking, clean expression, exactness, and the purpose vitalizes the study of mathematics and animates the study of history; and so on, all through the curriculum."

COMMISSION HELD MEETING YESTERDAY AFTERNOON

And Put the Matter Up to the Municipal Council—Dr. McCarty Says the Commission No Longer Exists

To be or not to be—that is the question," said Dr. J. E. Lamoureux at a meeting of the contagious hospital commission yesterday afternoon, the words suggested themselves to the doctor because of a remark made by another member of the commission, Dr. James J. McCarty, to the effect that

DR. J. E. LAMOREUX, Who Says Contagious Hospital Commission Does Not Exist

the contagious hospital commission no longer exists. Dr. McCarty read from the ordinance creating the commission and from the new charter and pointed out inconsistencies galore. He thought it would be well for the commission to have the city solicitor's opinion in the matter before any further business was transacted. "I think that no commission we are non-existent and I would like to find out about it," said Dr. McCarty.

The meeting was held in Mayor O'Donnell's office and was called at 5 o'clock. Dr. J. E. Lamoureux, secretary, read a number of letters, some of which were addressed to himself and some to the mayor, and having to do with suitable lots of land for a contagious hospital.

The members of the contagious hospital commission are Dr. G. Forrest Martin, chairman; Dr. Joseph E. Lamoureux, secretary; Dr. James J. McCarty, John W. Robinson and Mayor O'Donnell. All the members were present yesterday excepting Mr. Robinson.

BABY A SIGHT WITH ECZEMA

Mother Thought He Couldn't Be Worse. Resinol Acted Like a Charm.

NEWARK, N. J., Sept. 3, 1912.—

"I wish you could have seen my baby before I started to use Resinol Soap and Resinol Ointment, and see him now. He is now one year old, and the eczema started when he was about a month old. I was ashamed to let anyone see him, his little head was a sight. I thought he would never have any hair on his head at all. I used Resinol Soap and Ointment. I thought the child couldn't be any worse. I got the samples all right, and I tell you they acted like a charm. I used Resinol Soap and Resinol Ointment for about two months; I saw a change from the first application. Now he is as pretty as a picture, and his hair has come in beautiful and curly." (Signed) Mrs. M. Whiteley, 707 Hunterdon street.

Is your little one suffering from any such distressing trouble? Then how can you fail to profit by Mrs. Whiteley's experience? Even in such a terrible stubborn case, Resinol brought prompt relief. It is ready to do as Soap and Resinol Ointment, or you can try them free by writing for samples to Dept. S-T, Resinol Chem. Co., Baltimore, Md.

the prodding, over another site? I can see no hope so long as people are of that mind. I will agree on any reasonable proposition."

Mayor O'Donnell: "I will bring the matter to the attention of the municipal council at the next meeting."

At this time Dr. McCarty said he seriously believed that the contagious hospital commission does not exist. The adoption of the charter amendment had destroyed the commission, he believed. He wanted the council to vote to ask the solicitor to render an opinion. The council didn't say so.

Dr. Martin said he had read the charter and thought that the section which referred to inconsistencies in the charter would apply to the holding of office of the board. He believed the board still retained its power of recommendation.

It was then voted that the municipal council be requested either to accept or reject the recommendation made with respect to the site in front of the Chelmsford street hospital.

The commission voted to look over the property of Mrs. Fay in Dewey street.

The meeting finally adjourned subject to the call of the chair.

GIVEN \$1 GAS

Attleboro Gets Reduction of 10 Cents—State Commission's Decision Goes in to Effect March 1

ATTLEBORO, Feb. 12.—Attleboro is to have \$1 gas.

Notice was sent here yesterday by the state gas and electric light commission that on and after March 1 the price charged by the Attleboro gas company shall be one dollar per thousand feet. This is a reduction of 10 cents on the net price.

About two years ago the selectmen of Attleboro decided that the price of gas was too high in this town. The Attleboro gas company was petitioned for a lower rate and after a time the price was lowered from \$1.20 to \$1.10.

This was not satisfactory to the selectmen, who believed that the town should have \$1 gas. The gas company refused to lower the rate and the matter was taken up with the state gas commissioners. Hearings were held and the decision came today.

TO FILL BENCH

Judge DeConroy Reserved the Petition of the Railroad Holding Company—Citation Amount to \$77,157.38

BOSTON, Feb. 12.—Judge DeConroy, in the supreme court yesterday, reserved for the full court the petition of the Boston and Maine railroad holding company against the commonwealth of Massachusetts for an abatement of a franchise or excise tax for the year 1912 amounting to \$77,157.38, which the company claims was \$77,157.38 in excess of what the tax commissioner had a right to assess.

The company claims the commission had no right to assess its entire holdings.

TO WOMEN—Seeking Health and Strength

For those ill peculiar to women Dr. Pierce recommends his "Favorite Prescription" as

"THE ONE REMEDY"

A medicine prepared by regular graduated physician of unusual experience in treating women's diseases—carefully adapted to work in harmony with the most delicate feminine constitution.

All medicine dealers have sold it with satisfaction to customers for the past 40 years. It is now obtainable in liquid or sugar-coated tablet form at the drug store—or send 50 one-cent stamps for a trial box, to Buffalo.

Every woman may write fully and confidentially to Dr. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and may be sure that her care will receive careful, conscientious, confidential consideration, and that experienced medical advice will be given to her absolutely free.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar coated, tiny granules easy to take as candy.

DR. CLAXTON'S TALK TO TEACHERS

U. S. Commr. of Education at High School Hall—Points Out Defects in School System

United States Commissioner Claxton says it is unfair to keep a teacher in one grade all the time and injurious to the children to change so often to new teachers who do not understand them. He favors the idea of having pupils remain with the same teacher until departmental work becomes a necessity.

The local Teachers' Association of which Miss Kennedy of the Varnum school is president, enjoyed a rare treat in the lecture of Dr. Phillander P. Claxton, U. S. commissioner of education, at the high school hall yesterday afternoon.

Dr. Claxton did not take up any one subject for general treatment, but rather discussed several aspects and phases of educational work, pointing out defects and suggesting remedies.

One of the most important things he said was that pupils should remain under the same teacher until it is necessary to start departmental work or at least well into the grammar school course.

In the course of his remarks Dr. Claxton pointed out certain defects which are so radical that to remedy them completely, the whole system would have to be changed.

"Years ago," said the speaker, "we heard much about education being development, growth. We do not use that term so much now, but it is just as important as ever. Education is in a very large and important part of itself, development, growth. Insofar as it is so, it must be the development, the growth of the individual child—not of the average child, or of any other child. We know that there are certain characteristics, powers, capabilities, that the child is born with, and we must respect them. We are understanding, with Froebel, that

The Comfort and Economy of Tourist Sleeping Cars in Traveling to the Pacific Coast

I would like to explain to you, just what a Tourist Sleeping car is, what conveniences and comforts they have, and how you can save money by joining one of our personally conducted parties, which go through to the Pacific coast every week in one of these cars, escorted by a special conductor employed by the "Burlington Route" to look after your comfort.

For many years the Burlington Route Personally Conducted Excursions to California have been widely known for thoroughly good service. The whole idea of these parties is to provide a way for people of moderate means, to make the California trip comfortably and in thoroughly good hands, and at the same time at small expense. Please call at the office or write a postal will do.

PUT OUT BY SOCIALISTS

Brockton Man Favored Commission Gov't

BROCKTON, Feb. 12.—Joseph D. Poltras, considered the "biggest" man in the Socialist party in this section of the state, stands expelled from the party because of his agitation in favor of a commission form of government for this city.

Mr. Poltras has been the socialist candidate for mayor for the past three years, and has succeeded in welding the party together better than any man since the days of ex-Mayor Chas. H. Coulter, who, too, was expelled from the party.

Mr. Poltras has been barred from attending further meetings of the party, but he says as he has violated no rule of the organization, he will continue to attend meetings, even if put out. He also states that as he believes the people desire a change of municipal government, he will continue to act as a member of the committee selected to draft a tentative charter.

MEMORIAL TO SCOTT AND CREW

Who Perished in Antarctic to be Erected in London—Terra Nova Arrived in Port

LONDON, Feb. 12.—The lord mayor of London has decided to open a mansion house fund for the erection of a memorial to Captain Robert F. Scott and his companions who died in the Antarctic.

The duty of providing for dependent relatives of the dead explorers, he considers, should be undertaken by the state.

A generally approved proposal has been put forward that Lord Amundsen's letter to King Haakon of Norway, which was recovered by Captain Scott at the South pole, should be forwarded to his majesty on board a British battleship as symbolizing the qualities of the dead hero and the national pride felt by the British in their life and death.

CHRISTIANS MASSACRED

Turks Ravage Population of Buyuk, Chekmedje

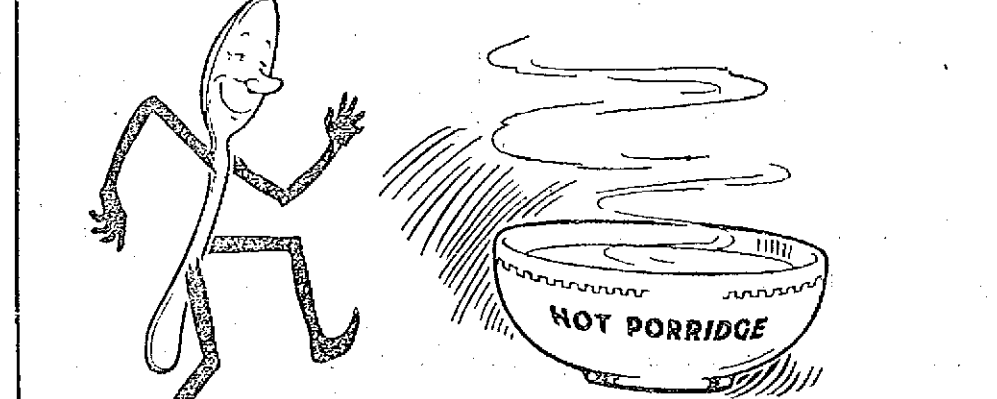

SOFIA, Bulgaria, Feb. 12.—It is reported here today that the Turkish troops drove the whole male Christian population of Buyuk Chekmedje into the schoolhouse there, and then massacred them. Subsequently they killed all the Christian women and children with the exception of the young girls, whom they carried off on board ship. There was no fighting yesterday either in the Gallipoli peninsula or at the Tebratalia lines. The bombardment of Adrianople, however, continues.

PAPE'S! BREAKS A COLD AT ONCE.

First Dose of Pape's Cold Compound Ends Grippe Misery—Tastes Nice—No Quinine

You can surely end Grippe and break up the most severe cold either in head, chest, back, stomach or limbs, by taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

It promptly relieves the most miserable headache, dizziness, sneezing, sore throat, mucous catarrhal discharges, running of the nose, soreness, stiffness and rheumatic twinges.

Take this wonderful Compound as directed, without interference with your usual diet and with the knowledge that there is nothing else in the world which will cure your cold or end Grippe misery so promptly and without any other assistance or had after-effects as a 25-cent package of Pape's Cold Compound, which any druggist can supply—accept no substitute—contains no quinine—belongs in every home. Tastes nice.

3 PER CENT. OF SALARY

Postmaster Camp Asked to Contribute to Fund

WASHINGTON, Feb. 12.—Gordon Campbell of Little Rock, treasurer of the republican state committee of Arkansas, told the Clapp campaign fund investigating committee today that he knew nothing of the charge by Thos. J. Camp, former postmaster at Beebe, Ark., of being removed from office because he refused to contribute to the 1912 campaign fund and declared he had never sent any information to the postoffice department concerning Camp's refusal to contribute.

Campbell pointed out that the post-office inspectors' report against Camp, on the strength of which the latter's resignation was demanded, was signed before he began collecting funds.

Treasurer Campbell told the committee he had collected contributions from other postmasters in Arkansas in 1911, all the letters he sent out being similar to those sent to Camp.

"How was \$30 fixed upon as the amount for Mr. Camp to contribute?" asked Senator Clapp.

"We thought there was no reason why he should not pay us about three per cent. of his salary," said Mr. Campbell.

"Was the amount to be contributed specified in all cases?" he was asked.

"In most cases it was."

50TH BIRTHDAY

Mrs. Stephen Replne of Fisher Street Honored by Relatives and Friends—Many Present from Out-of-Town

The friends of Mrs. Stephen Replne of 14 Fisher street surprised her last evening on the occasion of her 50th birthday anniversary. There were friends from Lynn, Haverhill and Westbury. There were piano solos by Mrs. Pittres, daughter of Mrs. Replne. Refreshments were served and the gathering was a very happy one.

BOSTON, Feb. 12.—The mid winter meeting of the state federation of women's clubs brought in the Arlington street church today the largest gathering of the kind ever assembled in the city.

EXERCISES IN HONOR OF LINCOLN

THE LINCOLN MEMORIAL PAID FOR BY SCHOOL CHILDREN

Held in Local Schools Today—Lincoln Monument Beautifully Decorated

In accordance with the proclamation issued by Gov. Foss, in which he recommends the observance of the day by the people with appropriate exercises, Lincoln day is today being observed in a fitting manner in this city. On every public and large building of the city the American flag floats in the breeze, and the Lincoln monument at Lincoln square, erected by the school children, is appropriately decorated with flags and flowers.

The governor, in his proclamation, says exercises should be held and the teachers spoke interestingly to their pupils of the life of this great emancipator, Abraham Lincoln, while at the Washington school compositions were read, the subject being "The Life of Abraham Lincoln." At the close of which the children repaired to a patriotic singing by a group of scholars under the direction of Mr. Blunt, musical director.

"I earnestly recommend to the young people of Massachusetts the high ideals which animated the great president through his public service; his complete freedom from selfishness and self interest; his deep understanding of human nature; his broad sympathies and his unflinching devotion to the public good."

Copies of the proclamation were sent to all the grammar schools and a number of them it was read today before all the pupils.

At the Lincoln and Varnum schools special programs were carried out, while in the other grammar and parochial schools informal programs were held, each teacher having prepared her numbers.

At the Lincoln school the children with a number of parents and friends, gathered in the school hall at 2:30 o'clock this afternoon and the following program was rendered:

- Salute to the Flag
- Star Spangled Banner
- School children
- Reading of Lincoln day proclamation
- Samuel Bahlgan
- Recitation, "Flag Good By"
- Hessie Kerwin
- Piano selection
- Mildred Denvers
- Recitation, "Barbara Friesthe's Boy"
- Marjorie Arnold
- Declaration, "The Character of Lincoln"
- Rose Cohen
- Recitation, "Our Country"
- Thibe Rosenfeld
- Reading, "Lincoln's Gettysburg Address"
- Pearl Leadbetter
- "America"
- School children

The hall was beautifully decorated for the occasion, and the exercises proved most pleasing and interesting. Miss Ella Prescott accompanied on the piano.

Varnum School

Teachers at the Varnum school arranged individual programs for each class and these were rendered this forenoon. This afternoon at 2:30 o'clock the pupils all gathered in the large assembly hall and the school took part in singing by the scholars, and a very interesting address on "Abraham Lincoln" was delivered by Rev. C. E. Newcomb, pastor of the First Congregational church. The exercises closed with the singing of "America" by the entire gathering.

Edison School

The following program was given at the Edison school:

- Singing, Keller's American Hymn, Class 1912
- Reading, The Story of Abraham Lincoln's Life, selections, Girls
- Singing, "The Battle Hymn of the Republic," Class
- Recitation, Selections from Lincoln's Second Inaugural Address, Class
- Reading, Selections from James Russell Lowell's "Abraham Lincoln," Boys
- Piano solo, selected
- Julia McPhie
- Recitation, "The Gettysburg Address," Class
- Singing, The Red, White and Blue, Class
- Recitation, "Commencement Ode," Class
- Piano solo, "The Fragrant Rose," Bernice Knight
- Singing, "America," Class

St. Michael's School

The Lincoln day program, which was most successfully given at St. Michael's school, was as follows:

- "The Day We Celebrate," chorus, eighth and ninth grade boys
- "Maintain the Honor the Flag," chorus, eighth and ninth grades
- "Let Us Be Like Him," recitation, sixth and seventh grade boys
- "Flag of Our Native Land," chorus, sixth and seventh grade girls
- quotations from Lincoln's writings, fifth grade
- "Take Off Your Hat to the

THOUSANDS HAVE KIDNEY TROUBLE AND DON'T KNOW IT

Weak and unhealthy kidneys are probably responsible for more sickness and suffering than any other disease, therefore, when through neglect or other cause, kidney trouble is permitted to continue, serious results are sure to follow.

Your other organs may need attention—but your kidneys most, because they do most and should have attention first.

If you feel that your kidneys are the cause of your sickness or run down condition, commence taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because as soon as your kidneys begin to improve they will help all the other organs to health.

Prevalency of Kidney Disease

Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost always recognized by patient or physicians, who usually content themselves with doctoring the effects, while the original disease constantly undermines the system.

A Trial Will Convince Anyone

The mild and immediate effect of Swamp-Root, the great kidney, liver and bladder remedy, is soon realized. It stands the highest for its remarkable results in the most distressing cases.

Symptoms of Kidney Trouble

Swamp-Root is not recommended for everything but if you are obliged to pass your water frequently night and day, smarting or irritation in passing, brickdust or sediment in the urine, headache, backache, lame back, dizziness, poor digestion, sleeplessness, nervousness, heart disturbance due to bad kidney trouble, skin eruptions from bad blood, neuralgia, rheumatism, lumbago, bloating, irritability, wornout feeling, lack of ambition, may be loss of flesh, sallow complexion, or Bright's disease may be stealing upon you, which is the worst form of kidney trouble.

Swamp-Root is Pleasant to Take

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at all drug stores.

Sample Bottle Sent Free

EDITORIAL NOTICE

To prove the wonderful merits of Swamp-Root you may have a sample bottle and a book of valuable information, both sent absolutely free by mail. The book contains many of the thousands of letters received from men and women who found Swamp-Root to be just the remedy they needed. The value and success of Swamp-Root is so well known that our readers are advised to send for a sample bottle. Address Dr. Kilmer & Co., Binghamton, N. Y. Be sure to say you read this generous offer in The Lowell Sun. The genuineness of this offer is guaranteed.

CARRYING A REVOLVER

More Threats Against Life of Whitman

NEW YORK, February 12.—Renewed threats against the life of District Attorney Whitman because of his activity against police grafters have caused him, as a matter of protection, to carry a revolver. Permission to go armed has been granted both to him and to an assistant, J. H. Groehl.

The threats against the prosecutor's life were numerous during the trial of Lieut. Becker and the gunmen, but Mr. Whitman regarded them lightly at the time and attributed most of the epithets to cranks.

During the present graft investigation, however, it is understood that

HOUSE RAISES AGE LIMIT

Favors the Protection of
Children Under 18

BOSTON, Feb. 12.—The lower branch of the state legislature held its longest session of the year yesterday afternoon. It was near 5 before the branch adjourned. A couple of roll-calls followed rather warm debate on several measures. William H. Lewis, assistant United States attorney general, will today give an address on Lincoln at about 3 in the house chamber.

After the debate the house yesterday sustained two adverse committee reports and overturned one. By a vote of 110 to 89 the house substituted for the adverse report of the committee on public service the bill providing that applicants for civil service examination shall not be questioned relative to conviction for any crime prior to their reaching the age of 18.

An act passed two years ago over the governor's veto provided that this prohibition should apply up to the age of 16. This year a move was made to raise the age to 18. The committee reported against the measure, but yesterday the house defeated the adverse report.

Representative Edward E. McGrath of Boston made a fight to have substituted for the adverse report of the committee on mercantile affairs his bill providing that all moving picture films shown in Massachusetts shall be censored by the chief of the district police. At present the chief must censor all shown on Sundays. The house was averse to substitution, however, and Representative McGrath's motion was defeated on a roll-call, 77 to 100.

A motion by Representative Burdick of Adams to substitute for the adverse report of the committee on mercantile affairs his bill to prohibit the use of substitutes for leather in the making of shoes was also defeated.

The lower branch, without division, suspended all rules to admit for consideration today the Channing Cox resolutions congratulating the Irish people on the passage of the home rule bill. It is not expected that there will be any debate on the resolutions and that the same will be sent to the senate for concurrence this afternoon.

The house reconsidered its action of Monday whereby it referred to the next general court the bill to place superintendents of fire alarms and wires under the civil service. This was done on motion of Representative Robinson of Chelsea, who then offered in place of the general bill turned down on Monday, a special bill applying only to the city of Chelsea and carrying a referendum to the voters of that city. This special bill was accepted and ordered to a third reading.

The committee on municipal finance reported the bill authorizing the city of New Bedford to borrow \$10,000 for sewer purposes and the city of Brockton \$150,000 for highway purposes.

A bill to increase the salary of E. Gerry Brown, state supervisor of loan agencies, from \$2500 to \$3500 was reported by the committee on public service.

TO HOSPITAL ON SLED

Girl Was Injured in Coast-
ing Accident

BOSTON, Feb. 12.—Caught up in the arms of the riders on the "double-runner" which had run her down on Lawrence street last night, Helen DeLand, a 14-year-old girl, was tenderly placed on the huge racer, and, with a score of willing hands dragging at the rope, pulled to the Whidden hospital at the top of the hill for treatment. Doctors were in readiness when the double-runner reached the hospital and within 15 minutes of the accident the child was on the operating table.

Helen, with a large number of her playmates, was taking advantage of the coasting on Lawrence street last night. She had just coasted down and was walking up the steep incline to enjoy another slide, when an immense double-runner bore down upon her. The riders shrieked a warning for her to get out of the way. Terrified by the racer's onward rush, the child seemed unable to move and remained directly in its path. The man steering the double-runner could not swerve it from its course and it struck her.

Cries of horror went up from the spectators lined on the sidewalks enjoying the fun. The child was dragged along for several yards before the coaster came to a stop. A score of persons rushed forth to lift it from her. Among them was Dr. Melvin H. Nichols. He saw at a glance the left leg had been broken, and that the girl was suffering from severe lacerations.

DIVORCED, WEDS AGAIN

Samuel Warren Lamson of Boston Lost No Time at It—On His Way Here With His Bride

RENO, Nev., Feb. 12.—Eager to be freed from marital bonds which held him to one woman that he might immediately be legally bound to another, Samuel Warren Lamson of Boston has just figured in a double event here.

Coming to Reno last summer, he in due time filed an action for divorce against his wife, Fannie L. Lamson, their home being corner of Francis street and Brookline avenue, Boston. His case came to trial after securing personal service of summons upon her.

at the above address and on Tuesday

last he secured his divorce.

Hardly had the ink dried upon the court document when Lamson applied for a marriage license to wed Mrs. Emma L. Edwards, aged 35, giving her address as Oakland, Calif. The wedding ceremony was performed by a local justice in the presence of two witnesses and they are now journeying to Boston.

His testimony at the divorce trial disclosed that he was originally married in Boston Jan. 14, 1892. He charged that his wife scolded and abused him and cast slurs upon his parents. She made no opposition to the suit.

TALKS TO CREDIT MEN

Lieut. Gov. Walsh Thinks It Is a Handicap to Be a College Man in Government

BOSTON, Feb. 12.—"It is in a way a handicap to be a college man in government, because a college man is apt to forget the point of view of the great masses of people," said Lieut. Gov. David L. Walsh, speaking last evening at the banquet of the Boston Credit Men's association at Young's on

Humanitarianism in Government."

He urged that it is the duty of every business man to consider more than his own private interests and to recognize that this is the age in which the government must look after the interests of her less fortunate citizens.

On motion of W. Q. Wales the association passed a resolution to go on record against the Bourne plan for changing Copley square and favoring the plan favored by the Boston Art club for retaining the triangle in the center and erecting a fountain.

Leroy D. Peavey discussed "Mercantile Losses Due to Bad Accounts." Rev. J. Stanley Durkee of the South Congregational church, Brockton, spoke on "The Faith of a Credit Man," and 1st Vice Pres. A. H. Decatur described the growth and the work of the Credit

SOCIALIST LEADER KILLED

Franz Schummeier Assassinated in

Vienna by Paul Kenschak—Re-

venge Reported Motive

VIENNA, Feb. 12.—Franz Schummeier, a member of the lower house of the Austrian parliament and a socialist leader, was assassinated last night by the Christian socialist and labor leader Paul Kenschak.

Kenschak followed Schummeier from a political meeting to the Northwest railway station, where he shot him. The motive is said to have been revenge.

Property Sold

Cora B. Massie and Edward C. Bascom have purchased the Bascom block, 185-188 Merrimack street. The property is assessed at \$38,550, of which \$18,000 is upon the building, and the assessment stands in the name of Eliza F. Bascom heirs.

QUIZZED BY GRAND JURY

"Big Bill's" Counsel Wit-
ness at Session

BOSTON, Feb. 12.—Daniel H. Coak-

ley, one of the counsel for "Big Bill"

Kellier in the court proceedings which

convicted him of complicity in robbing

the National City bank of Cambridge,

was the principal witness before the

grand jury of Suffolk county yesterday

in the investigation which the district

attorney is conducting in his attempt

to determine who was responsible for

the original grand jury records of the

affair being made public.

Two of the directors of the defunct bank, were called. Among the attorneys summoned were Roland C. Sherman, Harvey H. Pratt and William Shea.

There has been much speculation as to the outcome of the jury deliberation, since it became known that it would take up the declaration of Kellier, that a transcript of the evidence of George W. Coleman, before the Suffolk grand jury, came into his possession or knowledge immediately upon his return from New York and previous to his arrest.

BOXING, GOLF
AND ATHLETICS

Live Bits of Sport

Willie Kolehmainen, the Finnish long distance sensation, is certainly cleaning up for the American contenders. By beating Billy Quail he has proved himself the greatest distance runner in the world's professional ranks. His brother Hannes is a runner also, and the world's record in the five-mile event goes to show. These two brothers are training together over in New York and expect to show better than ever during the coming outdoor season. Hannes has already annexed Bonhag's record which was thought unbeatable.

The high school and the Textile school will play the first game of hockey this afternoon that was ever played between the two schools. The team from the high school looks the stronger on paper as individual players, but what the two teams will do as a unit remains to be seen.

The Yale rowing management has shown very good judgment in deciding to keep an American shell as well as an English racer in her navy. The English style is a much lighter boat than that built by American manufacturers, but is consequently harder to handle, especially in rough water. The American hull shell is managed with a minimum of weight, and is equipped with a heavy center rigging which tends to throw the weight in the center of the boat and lessen the wind pressure. Both shells will be tried out by Yale this year and the boat that proves the more satisfactory will be used in the big races.

Abel Kiviat has muscled his highest form for this season and Norman Tabor has just hit his stride. These two men are probably, with John Paul Jones, the greatest milers in the world today. Jones has not run as yet this winter, but will compete in the Columbia university games on Saturday night. Jones is running anchor man for the Cornell two-mile relay team and his performance will be watched with much interest.

John O'Reilly, the old Holy Cross athlete and present athletic head at Doncaster high, was the starter at the track meet in the annex the other night. While O'Reilly is good, I don't see where anyone could knock him the equal of Matt McCann. McCann gives an athlete who is waiting for the starting gun the greatest confidence. He will never start a race until he sees that each man is set and the only thing that ever registers in his starting are the starting gun from would-be pilferers. John O'Reilly told me that it made him nervous to start a race, but it never seems to bother Matt any.

The wedding in our city of a big league pitcher calls attention to the fact that there are an unusually large number of ball players who are waiting this winter. There are no less than 11 pitchers who have joined the ranks of the bachelors in the last three weeks.

PRESENT DAY PITCHERS

Changes Make Comparison Difficult

There is no satisfactory way of comparing the present day pitchers with those of fifteen or twenty years ago, because of the material changes that have been made in the pitching rules since those days.

Before 1871 the pitching distance was much shorter. There was less strain on the pitcher's arm. There is no question as to the latter fact, for there are men who have pitched at both distances and who know that the amount of physical exertion was not so great at the short distance. In addition to that pitchers in the old days were allowed the freedom of a box from which they could pitch at any angle. They were allowed to take a skip and a jump if they felt like it. Once there was a pitcher who was dubbed "Jumping Jack" Jones because of his agility in the pitcher's box.

So far as effectiveness of delivery is concerned the writer is inclined to believe, after some years of observation, that the new rule is a benefit to the pitcher. It calls for harder work, because it is manifest that it takes more endurance to pitch a ball continuously for a long distance than for a short distance, but time has proved that a curve ball in the hands of a skillful pitcher is more effective over the present distance from the pitcher's plate to the batter's box.

And, by the way, the occasional reference to the pitcher's box is but the kind of old herbage of the term, which was accurate when the pitcher's box actually existed, marked on the field in whitewash.

There were pitchers in those days who changed their position in the box with almost every batter who walked to the plate, and there were very few who did not pitch from two corners and sometimes three corners of the box to the same batter. The pitcher's box was seven feet long, four feet wide and fifty feet from the plate. It is perhaps fortunate for baseball that no one club can boast of two pitchers of the Johnson-Walsh type. Two such pitchers with any sort of backing up would come pretty near to making a runaway race with any of the first division teams in either league. But were it not for the fact that a club, once it signs a player, holds him for his lifetime such a state of affairs might be possible. If the players were free agents, at the end of every season the highest bidder would get the stars, and it stands to reason that a club in a city where it has a population of millions to draw from would be in a position to outbid the smaller cities in the circuit.

7-20-4
10c CIGAR

By far the largest selling brand of 10c cigars in the world. Factory, Manchester, N. H.

Whether this fact will increase the attendance of jowled spectators at the ball games or not is yet to be decided.

Young Teecher, who has just established several new records at Exeter is one of the most likely looking schoolboy sprinters that the East has seen in recent years. This boy is very versatile running every distance in the same style from the short dash up to six hundred yards. Teecher is a Lawrence boy and has run here on several occasions although his performance in Lowell was mediocre. The Lawrence boy's running in the 500 yards at the L. A. A. games last Saturday brought attention from all of the college trainers. If he does not overtake himself and pull a tendon this schoolboy should make a name for himself in college athletics.

Charlie Carter will go to Andover Academy in the fall. Carter has been associated with practically every branch of sport since entering the high school. He played an end on the football team and is probably as good as the average end on the larger prep school teams. With good coaching in the hurdles "Speed" ought to catch on to the track team at Andover as well. His progress down here will be watched with the keenest interest as Carter is one of the most popular boys among his fellows that the school has ever turned out.

The following item appeared in the sporting column of a Boston paper this morning:

I don't think your paper has given accurately the girls' record for basketball as 25 baskets. In the Lowell High v. Melrose High girls game at Lowell, Feb. 4, 1902, Miss Ruth M. Bailey of Lowell threw 33 baskets, 50 points of the 52. Also on Jan. 23, 1905, Miss Bailey threw 40 baskets in three 12-minute periods of a game with Belmont High. Carl D. Burtt, then and now a teacher in the Lowell High school, was the coach of the Lowell team. This may interest you if you care for accuracy.

This is rather putting it up to Mr. Burtt to either prove or disprove the exact number of baskets. That the Lowell girl cared in a game. Records are scarce enough to keep in our own city if we deserve them, and the signed initials tell us nothing of their authenticity. Mr. Burtt was coach of the team and ought to know Miss Bailey's best performance.

They talk about football not being a game for small men but just take a look at the men playing big league ball today. There are very few big leaguers who are not way over the average height and weight. The modern baseball player figure that a big man can stand the pitcher and of course baseball is a business and the club owner is perfectly justified in receiving the greatest possible return for his money even though some players be discriminated against on account of their deficiency in size.

LEAGUE GAMES ROLLED

Many Close Matches on Alleys Last Night

The Heinz-Cartridge, Barzen, Y. M. C. I. and the Manchester Unity bowling leagues were all in full swing on the local alleys last night. Most of the games were close or furnished some spectacular features of interest to the fans. Brown of the Trinitarian Congregational team, Barzen league, put up the highest total of 312. Arnold of the Ajax rollers, Heinz-Cartridge league, was the next in order with a three-string total of 308. McGovern's Pete beat Sullivan's Pete by two pins in a garrison finish by the winners. The summaries of the various games follow:

ATHLETICS

BARRY, WORLD'S CHAMPION SCULLER
MAPS OUT STRENUOUS CAMPAIGN

PHOTO BY AMERICAN PRESS ASSOCIATION

LONDON, Feb. 12.—Ernest Barry, the world's champion professional sculler, has mapped out a strenuous campaign for the coming season. The great oarsman intends to meet all the crackers who have been anxious to try their skill against his. His first match will be with Harry Pearce of Australia on the Thames next July. After this race he

will give Dick Arnet of New Zealand, the man from whom he won the title, a chance to win back his honors. Several good offers have been made to Barry to visit America and tackle some of the stars on the other side of the Atlantic, and it is more than likely he will accept some of them.

BASEBALL BLACK LIST THE COVER UP FIGHTERS

Eleven Clubs That Have Are Few and Far Between These Days

Detroit is one of the five clubs in the big leagues that have no ineligible players on their lists. Eleven clubs—all the teams in the National league and New York, Chicago and St. Louis in the American league—have one or more players who are on the "black list."

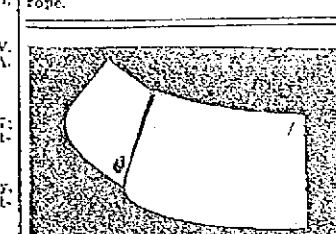

This "black list" is a great institution. It is about as dangerous to a real ball player as a feather duster is to an elephant. John King was once its ornament, but, as every one remembers, he removed himself quite easily. There was a lot of noise attendant on his reinstatement, but that was for advertising purposes.

Comparatively few men on the ineligible list are well known. Orvie Overall and Vic Willis of the Cub roster are perhaps the most prominent. Overall could come back if he wanted to, and Willis has simply decided to quit baseball.

One of the peculiar members of the ineligible league is George Slick, who belongs to Pittsburgh. This is Branch Rickey's star twirler at Michigan, who signed a Columbus contract in a fit of absent-mindedness and never reported. Consequently by remaining in good standing in the A. A. U. he has been in bad standing in organized baseball ever since he entered it, if he can be said to have entered at all.

Flicker Jones is a White Sox ineligible, but since he is in good standing in baseball as president of the Northwestern league his status is somewhat odd.

Swiss Riflemen Not Coming
The Swiss riflemen have decided not to come to the United States for the next September at Camp Perry, Ohio, in connection with the centennial celebration of the Perry victory on Lake Erie. The reason given for this unfavorable decision is that no provision has been made for their expenses as is usual at similar tournaments in Europe.

To the discord with the cover up fighters! They have seen their day. Some time they may arrive again, but that time will when conditions undergo a change, as they have a way of doing.

Melodrama, once the popular vogue, is burlesqued now, and people laugh. It is the same with the youths who make a living by covering their fists with their arms and walk into the confronting ring knowing their jaws and their stomachs were not endangered by the act. So good night to Phil Knight, Leach Cross, Howard Morrow, Frankie Burns of Oakland, Ad Wolgast, Patsy Kline and a dozen others who are exponents of this style.

Wolgast will be in demand for a considerable period, barring knockouts, because he has just lost his championship and still is an attraction. The rest, many of whom imitated him and made a living by covering their fists with their arms and walk into the confronting ring knowing their jaws and their stomachs were not endangered by the act. So good night to Phil Knight, Leach Cross, Howard Morrow, Frankie Burns of Oakland, Ad Wolgast, Patsy Kline and a dozen others who are exponents of this style.

All the titlists of today are clean cut, free hitting, chance taking men of the boxing type. Coulton, Kilbane, Ritchie, McCarthy—they all stand up straight and hit from the shoulder, blocking, slipping or catching opposing punches. Instead of taking them on the elbows and breaking the hitter's hands.

It's all right to cover up when the cannons are shooting at you as fast as you can't count the shots, but a great many of the battlers of the past three or four years have gone to extremes about shell fighting, keeping bridged up and bowed down in practically every round of a fight.

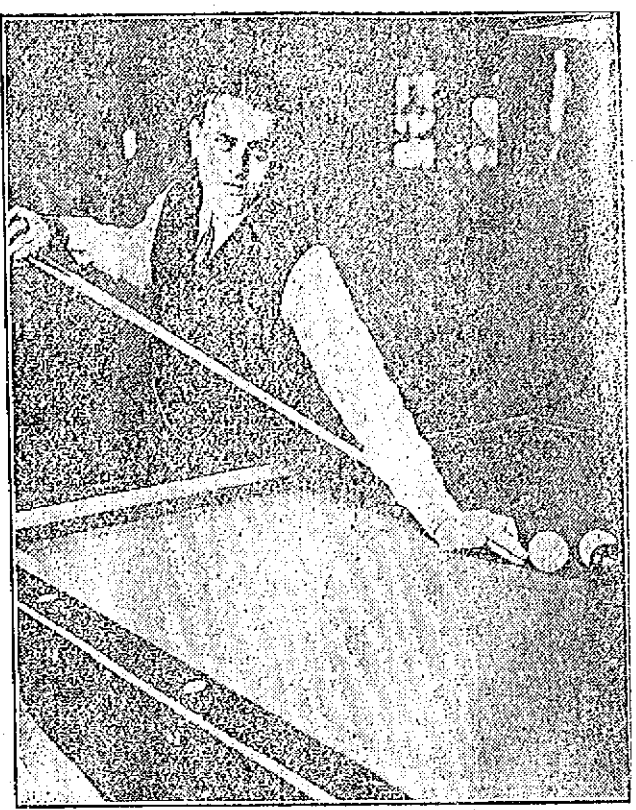

McGovern started the rushing, bora-in style in this country, but he rarely encircled his chin with an arm. He was too busy hitting. Nelson was the same way, but Bat stopped many a lick with his forearms. Wolgast was pronounced a cover fighter, and so successful was he at it that he was universally copied with the result that there are many scullers like him in the ring at present.

With the advent of the other kind of champions sports can look for a resumption of clean fighting.

Larger Quantities and Smaller Prices Than Ever Before

In the Great Sale of Aluminum Ware, Enamel Ware, Glass Ware, Silver Ware, Cut Glass, Willow Ware, etc., that opens tomorrow at Bon Marche.

Larceny of \$200,000 Charged
BOSTON, Feb. 12.—Stephen R. Dow, the broker, was placed on trial in the superior court today charged with the larceny of more than \$200,000. Dow is alleged to have fraudulently obtained the money from the Franklin Mining Co. and the Algonquin Mining Co., of which he was president at one time. He was formerly head of the brokerage firm of Stephen R. Dow & Co. of this city.

GEORGE SLOSSON SAYS THAT
WILLIE HOPPE IS ALL IN

WILLIE HOPPE

It's hard to reconcile the youth and apparent physical freshness of Willie Hoppe, once the greatest cue artist in the world, with the persistent reports that he will never be himself again—that is, never the invincible player he once was.

Many experts bring word that the blond youth—he's only twenty-four or twenty-five years of age now—is afflicted with a nervousness that is painful to his watchers and confusing to himself. This is hard to believe, in view of the fact that Hoppe not only won the recent championship tournament from the pick of the world, but also made some excellent averages in the course of accomplishing it.

Slosson Says He's a Wreck

However, so good an authority as George Slosson, a veteran of several decades and himself a contestant in the recent tournament, declares that Hoppe has an apparently permanent trouble that will prevent his ever regaining the beautiful stroke and confidence that once inspired himself and his friends.

Willie Hoppe, says Slosson, "still plays mechanically good billiards. But it is absolutely without confidence. He flinches with his cue until he himself and the spectators are thoroughly nervous. He starts to shoot, draws back, walks around and looks at the layout from another angle, then aims again, flinching back and forth until the mere physical strain of shooting is fully tripled in his case. Add the mental strain, and you can see the difference between the Hoppe of today and the Hoppe of five years ago. Then Willie swung into all his shots with confidence and certainty. He knew instantly what he wanted to do, and he was always right. If he missed it was due to such accidents as prevent any one from being perfect."

Will Never Come Back

Sutton, Peterson and others who have seen Hoppe play believe that he has "broken" and will never come back. However, Willie should not worry. Even "broken" as they seem to insist he is, he's still good enough to beat the world. And that's about all the glory it's possible to win down here.

SEARCHING FOR BODIES

Scene of Battle at Mucklow, Va., Scoured

CHARLESTON, W. Va., Feb. 12.—Treading steep paths and plunging into the dense underbrush covering the mountains around Mucklow, where mine guards and striking miners battled early in the week, signals of militia-men today sought for the dead and wounded. Military officers believed that many more men than have been reported were shot down during the fighting and were hurried away to the remote sections of the hill country by their friends to escape arrest.

The military under Adjutant General Elliott is in complete control of the

strike zone today and martial law is being rigidly enforced.

Many arrests have been made and the prisoners moved to Paint Creek, where the military commission will sit for the trial of the men.

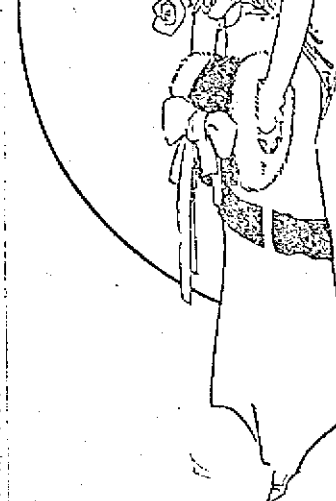

The signal corps was working to restore wire communication with Mucklow.

Over 1200 Aluminum Cooking Utensils

At about half the price asked by agents, go on sale tomorrow at Bon Marche.

Students Go on War Ships

CAMBRIDGE, Feb. 12.—A plan, proposed by President Lowell of Harvard and sanctioned by the navy department, by which college students may spend their summer vacations aboard United States battleships and secure training in the ways of naval war was explained to a mass meeting of Harvard students last night by Capt. C. Marsh, U. S. N.

VALENTINE'S DAY.

"Who Invented St. Valentine's Day?"

MAY MEET MCGOORTY
McCloskey Expects a Match Soon

Match Soon

Blunk McCloskey, the Philadelphia middleweight who thinks he can defeat Eddie McGoorty and the rest of the American contenders for the middleweight championship, will be given the chance to show just what he can do in a 12-round bout against Joe Thomas at the Lowell A. C. Friday night. Since coming to the middleweight title, McCloskey has secured in several important matches, the most of which have been decided in Paris and England. Blunk is a greatly improved boxer since he left here some six years ago and according to his record and clippings which he brought all the way from Paris with him, the French folk looked up to him as champion of the class. In the matches which he has taken part since arriving home the Quakerite has disappointed himself on no small measure of a disappointed skill. He defeated Willie K. O'Brien, the Buffalo sensation, in a ten-round bout and afterwards won the popular award over Philadelphia's Jack McCarron, the \$50,000 boxer of which so much has been heard about. Assuming that McCloskey has done all this on his own, he will be meeting a far different style of boxer than a great many of the rest. Thomas probably never enjoyed better health and boxing skill than he does at the present writing and his legion of followers are willing to wager any amount that he will carry home the win. The contenders are showing a keen interest in the match. The other bouts are also of a classy order.

2 MAN BOWLING LEAGUE

Opened at the Crescent Alleys Last Night

The Crescent Two-Man Bowling League commenced last night with an entry list of twelve teams. Two teams were bowled last night and the schedule as arranged at the meeting Monday night will keep the teams busy for the remainder of the winter. The score of the games and the schedule are as follows:

TEAM NINE				
Jewett	93	90	93	275
Kennedy	96	91	113	300
Totals	189	181	205	575

TEAM TEN				
McCarthy	88	105	82	275
Mason	83	93	76	252
Totals	171	198	158	527

TEAM FIVE				
Bernardini	94	92	102	288
Flanders	88	93	87	273
Totals	182	185	189	556

TEAM SIX				
Beauregard	85	93	102	280
Kilpatrick	73	85	87	245
Totals	158	178	189	525

Team 1—H. Perrin and Panton.
Team 2—J. Mahan and Campbell.
Team 3—McElroy and W. Mahan.
Team 4—J. Lebrun and A. Whitelock.
Team 5—E. Bernardina and P. Flanders.

Team 6—O. Beauregard and Kilpatrick.
Team 7—D. Roarke and Craig.
Team 8—P. Conannon and Maloney.

Team 9—W. Jewett and Kennedy.

THE LOWELL DENTAL ASSOCIATION

Met in Regular Session
Yesterday at the New
American Hotel

DR. A. S. McLEOD,
President.

The regular bi-monthly meeting of the members of the Lowell Dental Association was held last evening at the New American hotel and interesting remarks were delivered by Dr. Harold DeWitt Cross of the board of trustees of the Forsyth dental infirmary, of Boston; Dr. H. Piper of Somerville, and Dr. C. M. Prater of Malden.

The meeting was presided over by the president, Dr. A. S. McLeod, and two new members, Dr. F. E. Twitchell and Dr. Leroy S. Darling, were initiated.

At the close of the business meeting luncheon was enjoyed and this was followed by an interesting lecture by Dr. Harold DeWitt Cross, who spoke on the scope and equipment of the infirmary of which he is a trustee. He said it will be equipped with 84 dental chairs, each with excellent lighting arrangements, and there is provision for a second row of 43 chairs, making over 100 in all. The instruments, of which there will be two or three hundred sets, will be used for but one operation and then will be laid aside and sterilized after the work of the day is done. In this way all chance of infection through the instruments will be practically done away with. The operators, and the patients as well, will be provided with clothes to slip on over their ordinary clothes, and everything possible will be done to make the operations as aseptic as possible. In general equipment, the building will contain, besides the large operating room for the dental work, a small operating room for minor operations on the throat and nose, and a ward for patients undergoing these operations; laboratories, dressing rooms, supply rooms and practically everything else to make it one of the best dental infirmaries in the world. The permanent staff of the infirmary will consist of about 20 paid men, and the

remainder will be made up of dental students.

Dr. Piper of Somerville was the next speaker and he gave an interesting talk on the experience of that city with a free dental clinic. He said the city gave an appropriation of \$1000 out of which from \$500 to \$600 was paid to a young graduate in dentistry for his services and a woman was hired to assist as a nurse.

Dr. Prater of Malden gave a brief explanation of the dental nurses' bill which is soon to be brought before the legislature, explaining its importance to the profession and what it is hoped may be accomplished should it pass.

U. S. TROOPS RUSH TO MEXICO

Continued

intervention by the United States," he said. "I do not think the time has come when we are called on to interfere. If we once take the step we cannot take it back."

ZAPATISTA LEADER ENTERED CAPITAL WITH 300 OF HIS FOLLOWERS

MEXICO CITY, Feb. 12.—Alfonso Granda, one of the Zapatista leaders, entered the capital last night with 300 of his followers who are harassing the federal troops at various points.

SHELL TORE HOLE THROUGH IRON SHUTTER OF CABLE OFFICE

MEXICO CITY, Feb. 12.—Shortly before 9 o'clock a shell tore a hole through the iron shutter protecting the cable office and fell inside. Porter's hotel and the American club, in both of which scores of American visitors and residents are gathered, are in direct line of fire. Another heavy shell struck a building in front of the cable office at about 10 o'clock, ripping away a corner of the structure.

The fire at the Mutual Life Ins. Co. building has been extinguished, but much damage has been caused to it by shells.

REBELS UNDER DIAZ BEGAN ADVANCE ON NATIONAL PALACE

MEXICO CITY, Feb. 12.—The rebels under Felix Diaz began an advance on the national palace at a quarter to nine. The rebels seemingly are employing heavy cannon than they did yesterday. They directed their fire toward the national palace and on to the higher buildings in the center of the business district, on many of which federal machine guns are mounted and federal riflemen are posted.

The contending federal and rebel forces occupied this morning approximately the same positions as at the beginning of the fighting yesterday. Felix Diaz, the rebel leader, appeared to be prepared to offer resistance whenever the commander of the government troops saw fit to resume hostilities.

An effort made by the federalists to isolate the rebels from their water supply was ineffective on account of the number of artesian wells in that portion of the city occupied by the rebels.

According to reports from the rebels Felix Diaz utilized the night hours in further fortifying the positions he had taken up and which even yesterday had proved strong enough to withstand the attacks of the government troops.

In many parts of the city the electric wires had been cut by bullets and this resulted by almost complete darkness. Thousands of residents took advantage of this to escape from the zone of greatest danger.

This evening began in the early hours of the night as soon as the people realized that fighting had definitely ceased for the time being. The lawless elements, taking advantage of the absence of police control, committed many robberies during the night. Many occupied the hours of darkness

RIOTING BROKE OUT IN CHIHUAHUA CITY LAST NIGHT

EL PASO, Texas, Feb. 12.—Rioting broke out in Mexico last night in Chihuahua City, the rioters shouting "Vivas" for Felix Diaz's revolution, say passengers who arrived here early today from the city of Chihuahua. It was not learned whether the federal garrison had revolted.

PREPARATIONS TO MOVE 200 JAHINES FROM ATLANTIC FLEET TO MEXICO

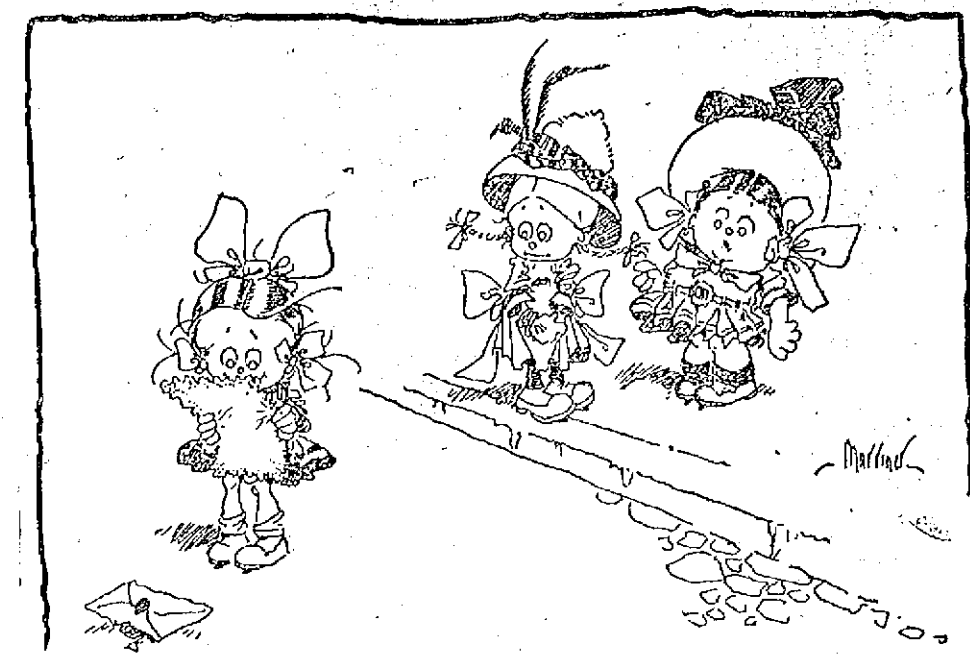

WASHINGTON, Feb. 12.—Preparations have been made to move approximately 200 jahines from the ships of the Atlantic fleet and the Guantánamo naval station to Vera Cruz to be held in readiness there for landing, should it be necessary to relieve the foreign legations in Mexico City.

DOCTOR INJURED DURING FIGHTING IN MEXICO NOT KNOWN IN LINCOLN

LINCOLN, Neb., Feb. 12.—The name of Dr. J. R. McCroskey, wounded during the fighting in Mexico City does not appear in the Lincoln directory and members of the medical fraternity in the city are unable to recall him. Lincoln dentists believe a dentist of that name was located here for a short time but their recollection is that he moved to some smaller town in the state.

SENSATIONAL ESCAPE OF CONSUL GENERAL SHANKLIN AND HIS STAFF

MEXICO CITY, Feb. 12.—The escape of Consul General Shanklin and his staff from the American consulate building during the seven hour battle between the federal troops and the rebels in the streets of Mexico City yesterday was a sensational event.

ENVY.
The Jealous One—Huh! Jes' look at her kissin' and gloopin' over that valentine, an' ever'body knows she spent her own money fer it an' mailed it to herself.

FEDERAL TROOPS REOPENED THE FIGHTING IN MEXICO CITY TODAY

MEXICO CITY, Feb. 12.—The federal troops reopened the fighting on the streets of this city at 6:30 this morning with a light artillery bombardment. The action soon became general, all the artillery on both sides being brought into play. The cannon fire was augmented by sweeping salvos from the machine guns, while the infantry came into action with volleys and individual shooting.

AMUSEMENT NOTES

Lowell Opera House

"A Woman's Way," as presented by the Longman Players at the opera house, was the medium of a delightful two hours and a half of enjoyment both afternoon and evening yesterday and it may be said that Mr. Longman and the very able and able company that he has assembled are fast becoming locally popular. Seldom if ever has the initial performance of a stock company been given with the smoothness and finish that has marked those of the first days here of the Longman Players. The company is in the sense of the word a "stock company," a company of many capable actors whose individual and collective work remind one of the days of the famous Boston Museum company, the home of many famous artists. "A Woman's Way" with its delightful satire and crisp dialogue is proving a most pleasing performance as presented at the hands of this company. The settings are both sumptuous and correct and the performance is a most pleasing one. The company with many that have been seen here at a much higher price of admission. Performances will be given every afternoon of the week of the present week. Next week the company will be seen in a complete production of "The Man from Home." Seats for all performances are now on sale. The subscription list is open. The matinee prices are 10c, 20c and 30c, and the evening prices, 20c, 30c and 50c.

Keith's Theatre

See Bert Fitzgerald, George Richards and Rush Ling Toy, all front-lined at the Keith theatre this week. The three don't appear in one act, but if they did it would be one of the purest humors. Fitzgerald is the champion long distance non-comedian of vaudeville; Richards is pretty near the blue ribbon comedian, and Rush Ling Toy has won the yellow peacock feather for his wit and his wit and his wit. The three are banjoists of no mean ability, and Reissner and Gores are a happy mixture of fun and dancing. La Diada, the posing Venus who has appeared on the stage here, and Louie and Allen are a pair of youngsters who have a merry time, and Jean Ward is a sweet singer. Good seats may be secured for all performances. The box office is number 25.

Merrimack Square Theatre

Despite the cold weather on last Monday afternoon there was one of the largest audiences of the season to witness the bill given at the Merrimack Square theatre this week. It was pronounced A1 by every one and slaps of applause have been the rule. The Temple Players head the list, presenting "The Gypsy," and are seen in what is declared by many to be one of the best of their out-puts. Of course most every week this same thing is said and for the simple reason that every week, the pieces seem to get better and better. There are also other acts and photo plays which in combination make an afternoon or evening's entertainment worth going out of your way to enjoy.

The Playhouse

The wonderfully clever manner in which the Drama Players are presenting Alexander Dumas' noted French play, "Camille," at the Playhouse this week is much to be commended. A comment among the many theatregoers of the city. Nothing in the line of stock offerings has ever been so artistically presented as this week's production. Miss Jackson as "Camille" plays the role to the point of perfection, while Mr. J. Anthony Smythe, who is much to be commended for his part of "Armand Duval," the lover, in which he has appeared before, is making a deep impression by his decidedly clever interpretation of the part. The other characters are especially well done, and add not a little to the general satisfaction which the piece is giving. Next week Mrs. Warren's Profession will be presented.

The Casino

There can be no question as to the benefit of roller skating. Daily at the Casino on Thorndike hill, men, women and children enjoy seasons on the rollers, and they find it healthful as well as pleasurable. Roller skating in a well ventilated rink, of course, is not to be considered. Day in and day out, the Casino never varies. Its standard has remained the same from its inception.

A Rare Treat Tonight

Everybody who wants to know something about Japan is invited to the hall of the People's club, Runcie building, Merrimack square, where tonight at 8 o'clock Mrs. Warren will be presenting a series of "Impressions of Japan." The hundred colored stereoscopic views

MANY INJURED IN RIOT

Sabres Drawn in Osaka, Japan—New Premier

TOKIO, Feb. 12.—Count Gombel Yamamoto, definitely accepted the Japanese premiership today and immediately overtook the duties of his office.

Rioting of an extremely violent nature occurred last night at Osaka and in charges by the police with drawn sabres, many people were injured. The cause of the outbreak was the breaking up of two meetings by the police. The gatherings were attended by large holiday crowds who were celebrating the anniversary of the Japanese constitution. They were greatly incensed at the action of the authorities and many of them proceeded to demolish or to attempt to set fire to offices of the bureaucratic newspapers. Others painted the streets of the city attacking and destroying the residences of the bureaucratic members of the diet. A large force of police reserves was called out and attacked the crowd which offered a fierce resistance. The rioting continued until the early hours of this morning.

FIFTY-ONE MEN IN JAIL

Charged With Rioting, Dynamiting and Shooting

CHARLESTON, W. Va., Feb. 12.—Conditions in Paint and Cabin Creeks, Kanawha county, were quiet last night. Troops are scattered over the territory and it is not believed that rioting will occur as long as the militia is present.

Fifty-one men, forty one of whom are held at Paint Creek Junction, and 10 in the county jail in this city, are awaiting trial by the military commission.

The men are charged with rioting, shooting to kill, attempting to dynamite trains, or carrying firearms. The military commission will sit Thursday.

Failure to establish communication into the strike zone prevented details of the mine trouble reaching Charleston today. The militia worked during the day to connect up telegraph and telephone wires, and were so occupied late last night. It is hoped that definite word of the mine riot at Mucklow will be at hand tomorrow.

The death list of 16 has not been changed. At least two score are known to be injured, some of them fatally. A majority of the dead, it is said, will be buried tomorrow in isolated mountain towns.

Rioting in strike territory came to an end last night with the arrival of the first militia companies. The soldiers spread out over the trouble zone and soon brought order. Details were sent into the mountains looking for bodies of victims that may have perished last night. Results of this investigation are not yet known.

Excepting attempts to wreck trains on the Chesapeake & Ohio railroad with dynamite today there have been no other developments.

HELD MEETING

Lowell Social Service League Met Yesterday in Order to Raise Funds for the Carrying on of Its Work

A meeting of the Lowell Social service league was held yesterday at the Y. M. C. A., to consider means for the securing of funds for carrying on the work of the league. John Jacob Rogers was in charge of the meeting.

The object of the league, as set forth at the meeting, was to act as a non-sectarian agency for the betterment of social conditions in this city and to prevent the duplication of aid by charitable organizations by maintaining a central bureau where all cases of charitable relief may be investigated and reported upon to the organization from which the aid is asked. This work is to be by a competent secretary and assistants and a card index will be kept on all applications for relief and the result of the bureau's investigations. This service will be free to all charitable organizations needing it and who apply for it.

J. Harry Gardner of the Old Lowell Nat'l bank, treasurer of the league, reported that already a sum of \$500 had been given, and plans were made for a canvass of the city in behalf of funds for the work. P. F. Sullivan and Hon. F. A. Fisher were made supervisors of the personal appeal movement.

Suffragettes Entertained

ELIZABETH, N. J., Feb. 12.—The suffragette army was two miles near Washington when it made its first stop at Elizabeth about noon. The marchers were met by local sympathizers at the Ellis club and entertained at luncheon. The weather was ideal for tramp, but ice and snow made slippery roads. This afternoon the army will push on to Metuchen.

No Chance for Senator in N. H.

CONCORD, N. H., Feb. 12.—Henry P. Hollis, democrat, again backed seven votes when the New Hampshire legislature had finished voting for a United States senator today.

PREVENT BLINDNESS

Nickel's Worth of Boracic Acid Would Have Saved the Sight of Babies, Reports Kansas Physician

TOPEKA, Kan., Feb. 12.—A nickel's worth of boracic acid would have saved the sight of nine out of every 10 babies in Kansas who became blind after birth, declares Dr. S. J. Crum, secretary of the state board of health, yesterday, after completing an extensive investigation of blindness in Kansas children.

In one neighborhood he found that out of 16 babies, 14 were blind before they were a month old.

"The blindness of every one of these could have been prevented," said Dr. Crum. "It is a crime not far behind murder."

A bill pending in the Kansas legislature provides that if the eyes of a baby become red or swollen or there is a discharge the proper medicine for the child's relief must be immediately administered under penalty of a \$100 fine and six months' imprisonment. Health officers, physicians and nurses are held responsible for the law's enforcement.

France-Venezuelan Protocol Signed

CARACAS, Ven., Feb. 12.—The protocol for settling the differences between France and Venezuela was signed here yesterday by Jose Andara, Venezuelan minister for foreign affairs and Baron D'Archil, the French commissioner.

If you want help at home or in your business, try The Sun "Want" column.

25 CENT "DANDERINE" FOR FALLING HAIR AND DANDRUFF—GROWS HAIR

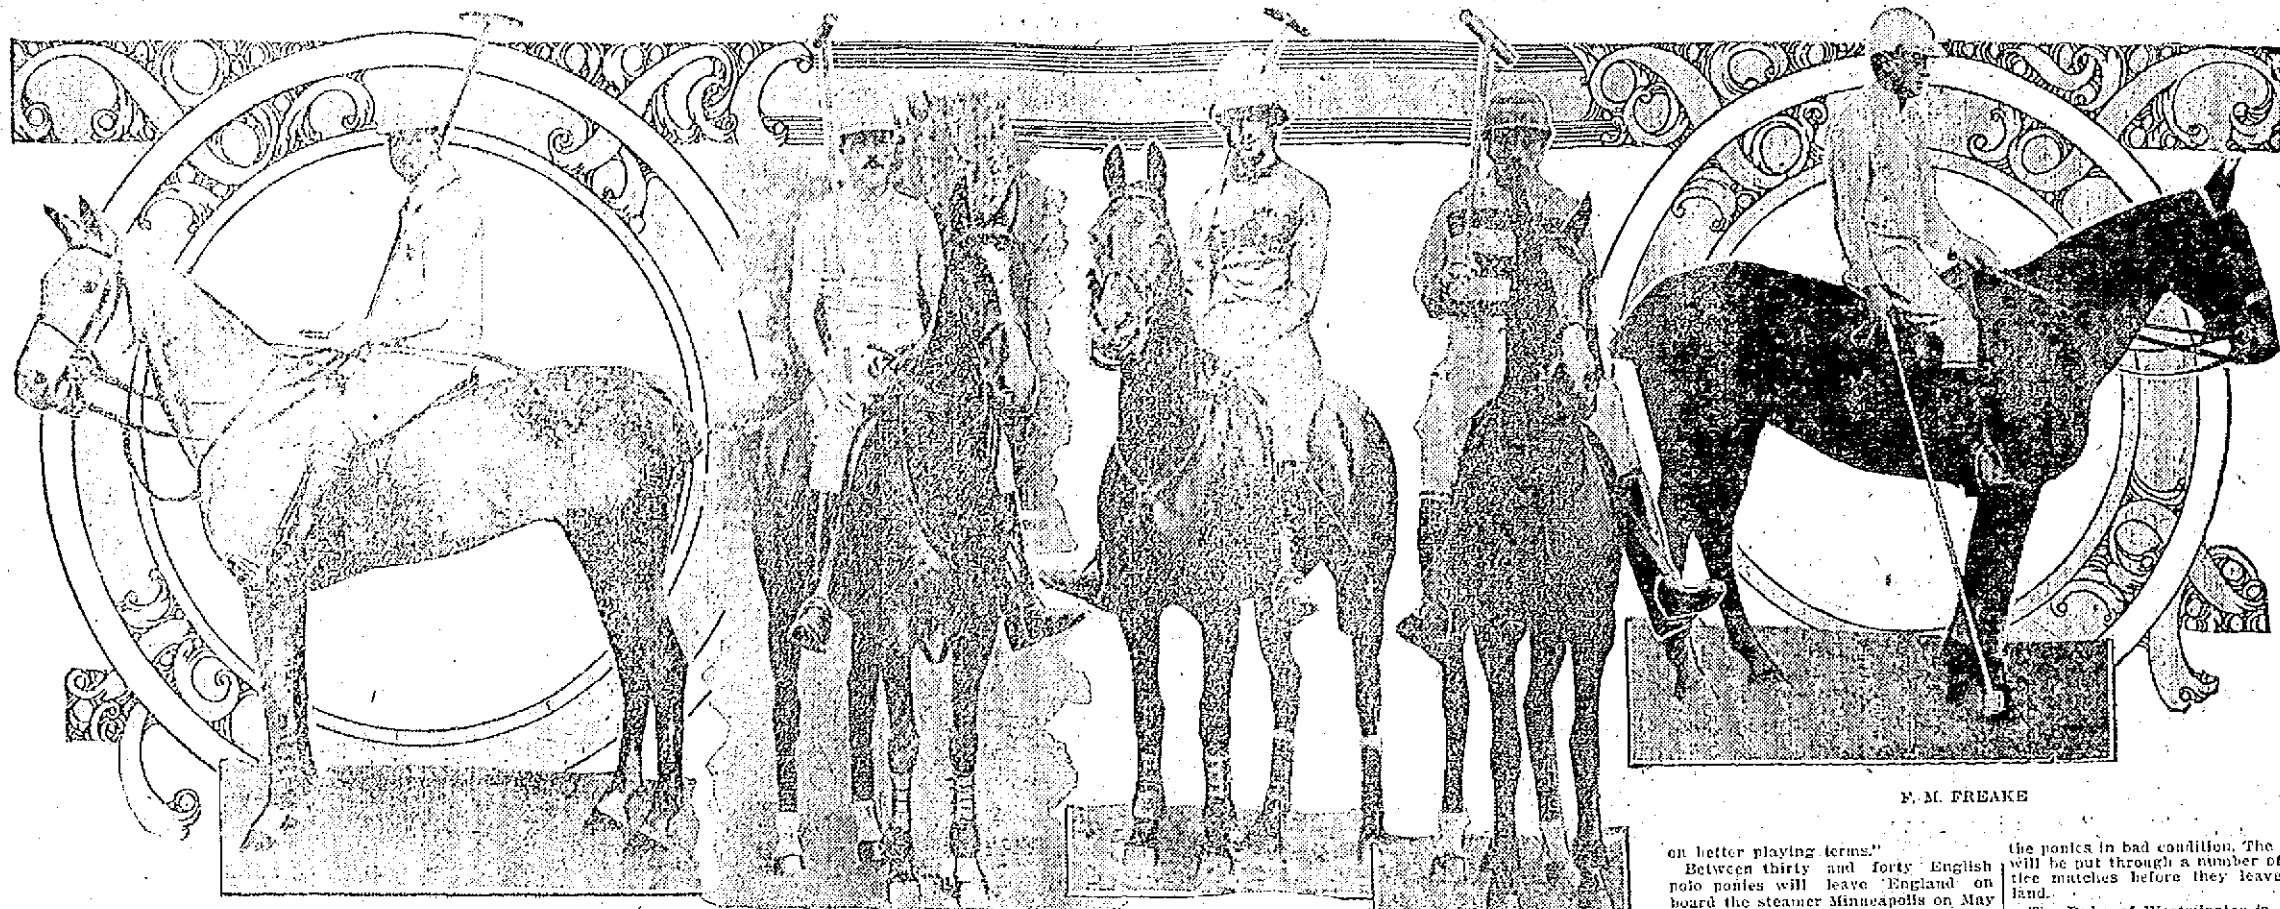

DON'T PAY 50 CENTS FOR WORTHLESS HAIR TONICS—USE OLD, RELIABLE, HARMLESS "DANDERINE"—GET RESULTS

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp, or dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast.

A little Danderine tonight—now—anytime—will surely save your hair. Get a 25 cent bottle of Knowledge!

Danderine from any drug store or toilet counter, and after the first application you will say it was the best investment you ever made. Your hair will immediately take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

England Will Send Her Best Team After the International Polo Cup Now Held by America—A Great Deal of Interest is Being Manifested in the Meet

CAPTAIN W. S. BUCKMASTER

CAPTAIN G. BELLVILLE

CAPTAIN LESLIE H. G. CHICHESTER

CAPTAIN R. G. RITSON

F. M. FREAKER

Although polo is not much played around Lowell, yet considerable interest will be taken in the sport to be made by England next summer, to bring back from America the international polo cup, which was first carried from London in 1905 and successfully defended at Meadowbrook, N. Y., in 1911.

England will be represented by the grandest collection of high class ponies ever got together on the other side, and if she is defeated this time

it will not be because any trouble or expense has been spared in securing the best mounts procurable. And now what of the men who are to endeavor to clinch this well organized effort for the glory of British polo? No formal official announcement as to the players who will go to New York has yet been made by Major Egerton Green, the manager of the Hurlingham club, but it may be stated on his authority that, according to present arrangements, six players will

make the journey. They comprise the following: Captain George Bellville, W. S. Buckmaster, Captain Leslie Chichester, F. M. Freaker, Captain R. G. Ritson and Lord Wodehouse.

There is general delight in polo circles that the team will be led by Mr. Buckmaster, still the greatest master of them all, in spite of the fact that he declares that he soon must be making room for some of the young men.

Captain E. D. Miller, formerly of the

Seventeenth Lancers, arrived in New York recently to make final arrangements for the international polo championship games to be played on the grounds of the Meadowbrook club, at Westbury, N. Y., on June 19 and 24 next.

When asked what chance he thought the English team had of lifting the international polo cup this year, Captain Miller said:

"We hope for the best. We have a good team this year, if not better,

than that which played here two years ago. Of course we know the American team is a hard nut to crack. There are many things upon which success depends, but if our men and ponies are in good condition I think we shall stand a good chance.

"We learned a great deal the last time we were here, and liked your game so much that we have adopted it in England. We have now abolished the off-side rule and play the free game, and I think this will put us

on better playing terms."

Between thirty and forty English polo ponies will leave England on board the steamer Minneapolis on May 3 and arrive in New York May 12. These ponies are mostly English, but include a few Irish ponies. The probability of some Australian ponies being included is being considered, according to Captain Miller.

Five of the ponies coming over took part in the last international games. They are Energy, Machine, Pretty Boy, Tiger and Nulme. Captain Miller said he did not know the age of these animals, but thought they must have been in the game for the past ten years at least.

The ponies will scarcely have been here a month when the first game will be called. This has been found necessary from the experience gained two years ago, when it was found that the ponies in bad condition. The ponies will be put through a number of practice matches before they leave England.

The Duke of Westminster is financing the whole affair for the Britons. He is buying all the ponies which Captain Miller has been collecting for him during the past two years. It was at first proposed that they should be brought over early in the winter in order that they could be fully acclimated by the time the games were played, but this scheme was abandoned on account of the expense.

W. S. Buckmaster, captain of the English team, will have the power of selecting the team to represent England out of the six men who come over. "The probability is," said Captain Miller, "that he will not make his final choice until just before the first game." All six men are members of the Hurlingham club.

Birthday of Father of His Country Comes This Month—How the Day Can be Observed by the Young and Old

The father of his country has a birthday this month, and it behooves every good American to observe it fittingly. There are many delightful little children's affairs being planned in honor of George Washington's natal day this year, and these functions may be easily carried out with little expense or trouble.

As the edible part of the party is the most interesting to the youngsters, great care should be taken to make the table attractive, not, in passing, let me say that it is better to seat the children at one large board than to have the good things served from the buffet. Little tots are not always sure of their table manners, and many fatal accidents to pretty frocks are brought about by the nudge of an elbow or a playful prank of some kind while the ice cream is being passed to little guests seated in chairs about the room.

Nothing elaborate in the way of table appointments should be attempted. A white damask cloth should cover the table, on which may be placed a border of red, white and blue candy stripes, and there may be other things running the length of the top. The candlesticks may be twisted with the three colors in canebrie or tulle paper, which is also quite appropriate for the tablecloth decorations.

Paper napkins are not desirable unless one is obliged to employ them as

illustration would be just the thing.

The small guests would be delighted to have their ice cream served in cherry trimmed baskets like the one pictured, and the cocked hat and many little boxes put up in patriotic tricolor paper would charm the juvenile heart when filled with small candies.

Tall colonial glass candlesticks with red, white and blue shades and in dressing the table and shed an attractive soft light about the room, which may be lighted with candles or electric light bulbs, the latter covered with fluted bell covers of crepe paper like the one shown among the illustrations.

One hostess of the 22d is going to serve balls of vanilla ice piled up like cannon balls with a tiny silk flag stuck in each one. She is also going

to cut a large sheet of layer cake into rounds by using a biscuit cutter, and each round will be frosted all about with chocolate icing. These cakes are to be served with the ice cream, together with appropriate hot and cold dishes.

To make this dainty confection mix and sift two cupsful of flour and a half cupful of brown sugar, add half a cupful of butter, the yolks of two eggs, and then work with the hands until smooth. Toss on a slightly floured board, roll to one-third of an inch in thickness and cut into hatchet shapes, using a cardboard pattern and a sharp knife if the thumb nail hasn't time to make you a cutter. Place a candied cherry on each tomahawk and brush over with the yolk of an egg slightly beaten with a teaspoonful of water. Put on a cookie pan and bake in a

QUAINT COSTUME FOR SMALL HOSTESS

slow oven until delicately brown. Flag cake is another patriotic sweet which is made from a good vanilla cake, batter cooked in three layers, one of which is spread with red, another blue and the third white icing. Over the white top being dot tiny blue stars. These colorings may be obtained at the drug store and are harmless.

Children are pleased with these fancy cakes, and it takes only a little extra time to make them, and surely the occasion warrants a bit of an effort. A head-dress Washington party is another good idea for children, for it admits of all sorts of original notions being carried out and the tiny tots or girls with powdered tresses piled high on their heads in curls and tufts are only a little more attractive than the boys are with their powdered locks.

GENERAL ALARM SOUNDED

Disastrous Fire Broke Out in Chicago

CHICAGO, Feb. 12.—A fire added by a brisk wind and the fact that the water supply was below requirements broke out at noon yesterday at E. 60th street and Washington avenue. The flames destroyed the Ingraham flats, a world's fair year building of 60 apartments. Nearly 100 persons fled from this place, many of them down fire escapes or ladders raised by firemen. It is rumored that one woman had perished in the flames.

The fire leaped across the street and spread to other houses. When the home of Arthur Cody, a block and a half away, took fire a general alarm was turned in.

Students from the University of Chicago assisted in the saving of a large amount of personal property. Smoke and heat drove 30 families from the Dickerson apartments, a four-story structure, at 1403-09 East 60th street. Several times flames broke out in the Chicago Motor Cycle club's building at 411 East Sixteenth street, but each time the blaze was extinguished. The fire started in the Ingraham flats by an overturned stove.

LAWRENCE EX-ALDERMEN

Want Five Extra Days' Pay For Over-time Spent in Office—Matter Referred to City Solicitor. The following story from Lawrence

will interest some Lowell politicians:

To determine the legality of the claim of Ex-Aldermen O'Brien and Maloney to \$34.25 for five days' service as members of the municipal council this year, Commissioner Bradbury introduced in order at the council meeting last night. The matter was referred to the city solicitor.

The two ex-members of last year's government believe they are entitled to five days' salary for having served as directors of departments up to the first Monday in January, the 5th, when their successors, Bradbury and Todd, were inducted into office. The ex-commissioners interpret the section of the charter relating to a salary of \$2500 a year, to mean that that salary was for services up to January 1. There seems to be a difference of opinion in regard to the question.

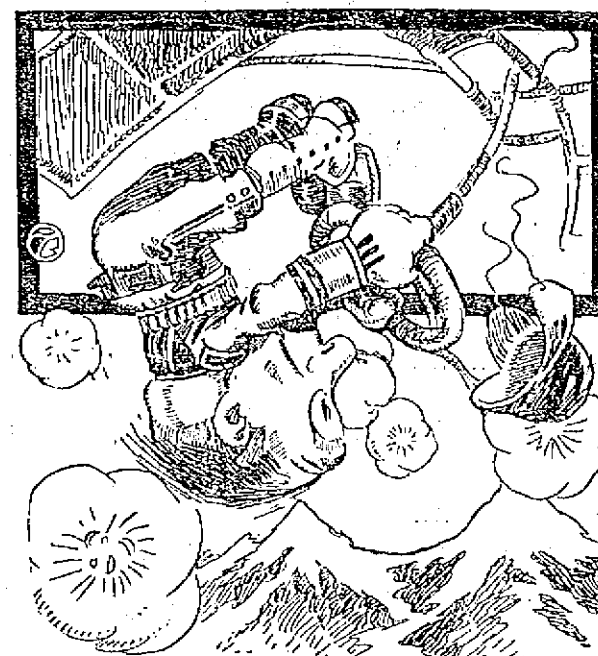

The city council, as the committee on accounts, considered the matter last Monday. The question, in addition to that as to whether the claims are legitimate or not, is whether the \$34.25 should be deducted from the salary of Aldermen Todd and Bradbury or whether, if legal, a special appropriation should be made to meet the \$34.25.

Chairman Todd believes that the charter provision intended to mean that, since Ex-Aldermen O'Brien and Maloney were not inaugurated until the first Monday of January in 1912, they were entitled to only \$2500 for the year, expiring the first Monday of January, 1913.

FUNERALS

KONDRAD—The funeral of Charles Kondrad took place yesterday from his home, 3 Parson's court. High mass of requiem was celebrated at 7 o'clock at the Polish Catholic church in High street, the pastor officiating. Burial was in St. Joseph's cemetery. Funeral arrangements were in charge of undertaker Joseph Albert.

THE SUN'S DAILY PICTURE PUZZLE

THE AEROPLANE

Yes, the aeroplane seems destined for an important place in future war. The nations with most of these air cruisers will be, of course, the ultimate losers.

Find another answer. ANSWER TO YESTERDAY'S PUZZLE. Upper left corner down in bush.

DESPERATE ARTILLERY BATTLE

LOCAL MERCHANT TO WED CLERK

Frank E. Nelson, of This City to Marry Miss Grace P. Richardson of Manchester

Frank E. Nelson of this city is to marry Miss Grace P. Richardson of Manchester at 9 o'clock tomorrow morning at a strictly private wedding to be held at the home of Pastor Burton B. Lockhart of the Franklin Street Congregational church, Manchester, and the couple will start at once for the west on their honeymoon.

Mr. Nelson is the millionaire owner of a chain of stores located in many New England cities and Miss Richardson was for 17 years his bookkeeper in the Manchester, N. H. store.

Frank E. Nelson is a widower, 31 years old. He is president of the F. E. Nelson Company, Inc., which conducts a large number of New England stores. He lives at 31 Clark road, this city.

Miss Richardson is 44 years of age and a business woman of ability. In the Manchester store, during 17 years, she worked up to the position of head

bookkeeper and as such, came often into business contact with the company president during his visits to his Manchester property.

Miss Richardson when questioned said that it was all true, but begged that as little publicity as possible be given to the wedding.

"I know how to work and work hard and I hope that I shall never forget the art of working even under the changed conditions," Mr. Nelson is a splendid employer and man. He is a man of business rather than of society. We had hoped that the wedding would be so quietly conducted as to attract little or no attention until we had embarked on our wedding trip. We shall go to New York, then to the Pacific. I believe that the journey will occupy three months. Returning, we shall undoubtedly live in Lowell.

NEW PARCEL POST SUB STATIONS

Postmaster Joseph Legare has given authority to three sub-stations to handle parcel post packages, and he says that others will be named later. The sub-stations appointed today to do parcel post service are as follows: Station No. 1, Dows' drug store, corner of Merrimack and Central streets. Station No. 4, Ray P. Webster's drug store, 415 Bridge street. Station No. 8, Leeds' ticket agency, Merrimack square.

MOBILE BILL HEARING

To be Held in Boston
Tomorrow Morning

A hearing in regard to the repeal of the Mobile bill relative to fraternal organizations is to be held before the insurance committee of the legislature at the state house at ten o'clock tomorrow morning.

DEATHS

RITCHOTTE—Mrs. Maxine Ritchotte, aged 77 years, 3 months and 2 days, died last night at her home, 82 Elm street. She is survived by a husband, three sons, Arthur, Maxine and Ralph Ritchotte; a sister, Mrs. Elizabeth Ritchotte and a brother, Joseph Cadran.

THEFT OF BICYCLE

Is Complaint Against John Geroux Who Was Arrested This Afternoon—Property Was Recovered

John Geroux, who resides in Middlesex street, was arrested early this afternoon on a complaint charging him with the larceny of a bicycle, the property of Arthur F. Bernier, of 44 Fletcher street. The bicycle, according to the story told at the police station, was taken from a barn at the address given above and was later pawned. Officers Walsh and McLoughry arrested Geroux in Merrimack street this afternoon. He gave his age as 28. The bicycle has been recovered.

NEW SEN U.S. FLAG

The First in Lowell Showing the Forty-Elbit Stars Representing All the States

Today the American flag waved from the flag staff of the new Sub building in honor of Lincoln's birthday. It was the first flag in Lowell bearing the 48 stars under the new arrangement representing the newly admitted states.

THE FEDERALS AND REBELS CONVERT

MEXICO CITY INTO BATTLEFIELD

United States Troops Ordered to Prepare for "Expeditionary Service"—

Rebels Break Open Prison

PLANS FOR CONFERENCE OF LEADERS OF REBELS AND REPRESENTATIVES

MEXICO CITY, Feb. 12.—Plans for a conference between the leaders of the rebels and representatives of the government were taken into discussion at the national palace at noon.

REPORTED THAT TAFT MIGHT CONSULT WILSON ON MEXICAN TROUBLE

PRINCETON, N. J., Feb. 12.—President-elect Wilson remained in his study today in the midst of his correspondence. He planned to be at work all day and asked the correspondents to excuse him from their regular morning talk. Word was sent to him, however, asking if he had received any communication from President Taft with regard to the Mexican situation. The governor replied that he had not heard from Mr. Taft or anyone else on the subject. It had been reported that President Taft might consult Mr. Wilson as to the course to pursue, inasmuch as the fulfillment of any attitude assumed by the government now must rest with the new administration.

AM. AMBASSADOR AND GERMAN MINISTER TO DEMAND THAT BATTLE CEASE

MEXICO CITY, Feb. 12.—American Ambassador Wilson and the German minister have gone to the national palace to demand from President Madero that the battle cease.

FIRING ORDERED STOPPED BY MADERO—CAPITAL MAY BE MOVED

MEXICO CITY, Feb. 12.—An unconfirmed report spread at one o'clock that President Madero had ordered suspension of firing, as he dreaded foreign interference, but although there was a slight lull, the firing never entirely ceased.

President Madero says he will not yield in any case, but if Diaz persists in the bombardment he will move the capital to San Luis Potosi or some other point.

FAMOUS PRISON THROWN OPEN AND 5000 CRIMINALS RELEASED

MEXICO CITY, Feb. 12.—The Belen, the famous old city prison, has been thrown open by the rebels and from 2000 to 3000 desperate criminals let loose.

FIRST BRIGADE ORDERED TO PREPARE FOR "EXPEDITIONARY SERVICE"

WASHINGTON, Feb. 12.—The first brigade of the first division of the army, about 2000 strong, has been ordered prepared for "expeditionary service." It is composed of the third infantry at Madison, barracks and Oswego, the Fifth Infantry at Plattsburg and the

RECEIVED 435 ELECTORAL VOTES

Congress Declared Woodrow Wilson Elected President of the United States

WASHINGTON, Feb. 12.—Congress today declared Woodrow Wilson elected president of the United States and Thomas R. Marshall elected vice-president. The electoral vote certificates opened in the presence of the house and senate sitting together showed that Mr. Wilson and Mr. Marshall received 435 electoral votes; that Theodore Roosevelt for president received 88 votes, and that William H. Taft for president and Nicholas Murray Butler for vice-president received eight votes.

The honor of presiding over the joint convention fell to Senator Bacon as presiding officer of the senate. The chair at the left provided a place for Speaker Clark and house members arranged to vacate the first four rows of seats at the right of the speaker's desk to make room for the senators. The program provided that the senate committee carrying the electoral vote should be met at the door of the house by Doorkeeper Joseph J. Slonott and announced, the members of the house standing to receive the visitors. The electoral vote, borne by the two pages, was required to be delivered direct to the speaker's desk, where the presiding officer took charge of it opened the certificates as if any objection had been filed to any states vote and handed the formal certificates to tellers for counting.

The total vote as ascertained by the tellers constituted the official total of the Wilson and Marshall electoral vote. The official proclamation by Senator Bacon, prescribed in form by the rules governing today's proceedings was as follows:

This announcement of the state of the vote by the president of the senate shall be deemed a sufficient declaration of the persons elected president and vice president of the United States for the term beginning March 4, 1913, and shall be entered, together with a list of the votes on the journals of the two houses.

29th infantry at Fort Niagara, all in New York state.

This organization has just been brought into existence by part of the scheme in the army reorganization and its responsiveness to the call of the foreign service may be regarded as a first practical test of the value of the new system.

The first brigade will entrain for Newport News, Va., only in the event that the preparatory orders issued this morning are followed by others, putting the troops in motion. With 24 hours after such an order it is expected the most distant organizations within the brigade will arrive at Newport News.

UNITED STATES MAKES PLANS FOR QUICK MOVEMENT OF TROOPS

WASHINGTON, Feb. 12.—Immediately after the White House conference last night's Mexican conference, Major-General Wood went directly to the war department, where he remained at his desk until nearly daylight, working out details for the quick movement of troops should the occasion arise. These troops probably will be mobilized at Galveston, Tex., being prepared to embark as soon as the transports had reached that point from Newport News, Va.

The two additional battleships which are to go to Mexico as decided on at the midnight White House conference, between President Taft, Secretary Knox, Stimson and Meyer and officers of the army and navy will bring the total number of American men of war in Vera Cruz harbor up to three. The dreadnaught Virginia already is steaming to Tampico and the Georgia already is on her way to Vera Cruz. These will make a total of four American battleships on the gulf coast of Mexico.

On the Pacific side the Colorado and South Dakota are already under orders for Mexican ports and other ships may follow them at any moment.

Army Transports to Mexico

Early today the quartermaster general's department report completed its arrangements for sending two army transports from Newport News with an expeditionary force of troops. Whether other steps are to be taken probably will be determined by today's developments and dispatches from Mexico. There will be no less than two rear admirals in Mexican waters ready to direct the movements of the ships speeding to both coasts. On the west side Rear Admiral Sutherland, the armored cruiser Colorado is now well off the coast of lower California and should arrive at Acapulco by Friday. On the gulf coast Rear Admiral Cameron McR. Winslow is on his flagship Virginia.

It is expected that Winslow's force will be augmented by the Illinois and New Jersey or perhaps the Rhode Island of the third division of the Atlantic fleet.

Unless there should be fresh demonstrations in Mexico outside the capital which appear to threaten foreign interests—for the American naval commanders are expected to look after Europeans and Asiatics as well as Americans—the force now under way probably will be regarded as sufficient to meet present needs. As was pointed out in the White House statement last night there is nothing the naval force can do at this juncture, except afford refuge to foreigners and maintain order in the coast towns where non-combatants safely gather should the new revolution spread.

"Sleeping on Their Arms"

While preparatory orders have been issued to army officers in charge of the military organizations scattered from northern New York to Georgia which, on paper, form the expeditionary force—a flying wedge—to affect an entrance to any country with which the United States might become involved in hostilities the effect of these orders will be not to put them "sleeping on their arms" but to put them "on their feet" for the signal to take train or ship for the south. The big army transports at Newport News will be ready to sail by tomorrow morning at the latest. They would take some of the regular troops from Fort Monroe, Baltimore and Fort My-

ers near this city, should it be decided that the crisis in Mexico had assumed such proportions as to demand the despatch of a military force to reinforce the naval contingent already under way. All these measures are merely precautionary because all officials here from President Taft down see as yet no ground for intervention. Fighting in the heart of Mexico City endangering thousands of lives is looked upon with apprehension; but army men and students of international law declare this condition may be justifiable if the Madero government finds it necessary to fight for its existence. Although Ambassador Wilson was joined yesterday by the entire diplomatic body in the city of Mexico in his protest against the conduct of hostilities in the streets, it is said here that the only immediate step that can be taken in the interest of safety of the foreign element would be the issuance of an appeal by Mr. Wilson and the other diplomatic representatives to citizens of various powers to withdraw from the city, where they would be under the protection of the warships. The military commanders on both sides undoubtedly would interpose no obstacle to the departure of the foreign population and would give them safe conduct to the coast.

OPPOSES INTERVENTION OF THE UNITED STATES IN MEXICO

WASHINGTON, Feb. 12.—Declaration against immediate intervention in Mexico was made today by Senator Cullum, chairman of the senate committee on foreign relations.

"I trust there will be no immediate (Continued to page eight.)

Taft at Philadelphia

WASHINGTON, Feb. 12.—President Taft, accompanied by every member of his cabinet except Secretaries Knox, Stimson and Fisher, left here at 3 p. m. on the Pennsylvania railroad for Philadelphia, where tonight they will attend the fiftieth anniversary dinner of the Union league club.

FINE LECTURE HEARD

On Fundamental Conceptions of Education

BY FREDERICK H. HAMILTON,
EX-PRES. OF TUFTSPowers of Observation, Comparison
and Expression Must Be Developed
—Moral Nature Also Important

"Some Fundamental Conceptions of Education" was the subject of a very fine lecture by Frederick H. Hamilton, D. D., formerly president of Tufts college, at the Unitarian church last night.

"Education in the United States," said Dr. Hamilton, "is a word to conjure with. Whoever we want something done, we say we must have a campaign of education. Whenever any difficulty in our affairs presents itself, we immediately say that this matter must be governed by education."

"We are all very much interested in the subject of education, and we are all criticizing just at present. All sorts of bills, books and otherwise, are introduced in the legislature in the alleged interest of education."

"It is by their fruits that educational systems are to be judged, and if we are to judge the educational system of the United States by its fruits and not view it through the microscope of the critics, we must believe that it is a good system. Nevertheless, times change, and we must change with them."

"If we are to improve our system we must bear in mind, whatever specific end we have in view, the developing of three powers. First, the power of observation. There are very few persons going through the world really seeing things. The uneducated man sees very little of what he looks at; and he cannot become an educated man until he acquires the power of observation."

"Next, we must develop in the power of comparison. Most of our intellectual operations are based upon the power of comparison. We must learn to differentiate. We are apt to lose sight of that, to content ourselves with memory exercises and the acquisition of facts, without any comparison of those facts with the great world of facts in which they lie. What is the use of giving a boy a lot of tasks that he does not think about? What future is there for a boy who is simply a 'book'?" A hand may be very useful, but a brain is much more useful.

"A third power that we want to develop, is the power of expression. Expression means a good deal more than making speeches or writing newspaper articles. It means anything and everything that puts into concrete form that which we call thought."

"One of the most serious mistakes that we make, is the mistake of supposing that the teaching of expression is the business of but two departments—English and drawing. Why do we confine our teaching of expression to those things that deal technically with expression? It is not half so important that a boy should be taught to write an English theme correctly, as it is that he should be taught to write correctly about anything he has occasion to write about. We want the boy to be able to express his thought; and we do not want him limited to one form of expression."

"The value of vocational education comes not in its being a short cut to the shop, but simply in that it turns Tommy Jones into the shop with the habit of observing, thinking about, and expressing mechanical things."

"We do not make doctors in the medical schools. The doctor has to have his hospital training. We do not make lawyers in the law school. The Institute of Technology does not make it possible for him to become an engineer, by building on the foundation laid in the school. So it is not so much a matter of the curriculum, after all."

"The development of the moral nature is by no means to be neglected. A man who is simply a thinking machine is liable to be dangerous to a community. There is nothing intrinsic to education itself, that is going to make a man better. It is the development of the moral sense, which must make the developed Tommy Jones a blessing."

"There are only two reasons why the study of Latin and Greek should continue in the schools: First, because we expect that the boy will gain intellectual power by it. If you want intellectual power, teach him so that he will get intellectual power. Remember that you are not going to make a Latin professor of him. You are going to use that his element as a means of teaching him accurate observation, careful thinking, accurate expression. Exactly the same purpose vivifies the study of history; and so on, all through the curriculum."

Extradition for Wrenn

CONCORD, N. H., Feb. 12.—Orville C. Wrenn, salivator of Cheshire county, has secured from Gov. H. H. Wrenn the right of the state of New Hampshire for the extradition of John H. Wrenn, now under arrest in Halifax, N. S., on a charge of the murder of James Stewart Hamilton, a railroad construction foreman in Hinsdale on the night of Feb. 2, and has come to Washington to present the papers to the state department, the negotiations of which will concern the negotiations with the British authorities for the return of the prisoner.

Properly Regulated Bouts

SPRINGFIELD, Ill., Feb. 12.—Properly regulated boxing exhibitions were yesterday given the stamp of approval by Governor Danes. His statement concerning such a measure, regarding the right of the sport to be held in the state, will be a bill if the desired safeguards are provided.

A bill strengthening boxing matches has been introduced in the senate and referred to the committee on license and race matters. The bill will be introduced in the house as soon as committee is appointed.

I would favor a bill providing for properly regulated boxing, said the governor. "I should want the bill to contain provisions which would prevent fake fights and guard against brutality. The New York act, I understand, is very satisfactory. I would favor a bill which would provide for the proper regulation of boxing matches."

SURE TO PLEASE

Candy? Only those that have "made good," those that are positively known, are made in clean, sanitary factories, are sold over our counters. They are Russell's, Hayler's, Samson's, Quality, Lowrey's, Schmitt's, Belle, Mead, Scott, Vester's, and La Reine, in solid packages, ranging in price from 10c to 15c. Howard's drugstore, 155 Central street, (25c spent for Howard's Pine Balm is an investment worth while.)

CONTAGIOUS HOSPITAL

Site For One Not Yet Selected

COMMISSION HELD MEETING YESTERDAY AFTERNOON

And Put the Matter Up to the Municipal Council—Dr. McCarty Says the Commission No Longer Exists

"To be or not to be—that is the question," said Dr. J. E. Lamoureux at a meeting of the contagious hospital commission yesterday afternoon, the words suggested themselves to the doctor because of a remark made by another member of the commission, Dr. James J. McCarty, to the effect that

DR. J. E. LAMOREUX, Who Says Contagious Hospital Commission Does Not Exist

the contagious hospital commission no longer exists. Dr. McCarty read from the ordinance creating the commission and from the new charter and pointed out inconsistencies. He thought it would be well for the commission to have the city collector's opinion in the matter before any further business was transacted. "I think that as a commission we are non-existent and I would like to find out about it," said Dr. McCarty.

The meeting was held in Mayor O'Donnell's office and was called at 5 o'clock. Dr. J. E. Lamoureux, secretary, read a number of letters, some of which were addressed to himself and some to the mayor, and having to do with suitable lots of land for a contagious hospital.

The members of the contagious hospital commission are Dr. G. Forrester Martin, chairman; Dr. Joseph E. Lamoureux, secretary; Dr. James J. McCarty, John W. Robinson and Mayor O'Donnell. All the members were present yesterday excepting Mr. Robin-

son. Dr. McCarty was the only member to consider himself non-existent as a member of the commission.

Various Sites

Dr. Lamoureux read the letters relative to available property and in the very early stages of the meeting it was voted not to consider any property outside of the city limits.

John Keefe, in a letter, stated that he had a small lot on Christian hill, for which he asked five cents a square foot. D. K. Williams submitted a recital of the splendid farm overlooking the "dip" in Tyngsboro, just across the Lowell line. Charles M. Potter offered the Dr. Pillsbury estate on the Lowell road, a continuation of East Merrimack street. The price asked was \$20,000. W. W. Lovejoy referred to the property at the corner of Broadway and Wilder street and George A. Phil offered the Old Middlesex tavern, in Middlesex village, with adjoining land, for the sum of \$6500. A lot owned by Albert E. Kattell, at the corner of Bachman street and Lakeview avenue was submitted for consideration. Mrs. Mary Fay referred in her communication to a four and one-half acre lot in Dewey street in the Highlands, for which \$4000 is asked. This property has a house on it.

Dr. Martin was not in favor of spending any money on old buildings. He was in favor of buying land for future development. If land was to be bought at all, Dr. Martin and Lamoureux are still in favor of the site first selected by them at the Chelmsford street hospital grounds, between the hospital and the street. Dr. McCarty is in favor of another lot at the Chelmsford street hospital grounds beyond the railroad tracks. Other members of the commission are opposed to this site.

Dr. Martin asked Mayor O'Donnell if he had heard that the presence of a contagious hospital in the children's cottage at the Chelmsford street hospital had proved a menace to the patients in the other hospital. Mayor O'Donnell said he had heard of no danger attaching to the proximity of the contagious hospital. "I think you have given the city an object lesson," said Dr. Martin. "Your temporary contagious hospital was right under the very eyes of the other hospital and nothing unfavorable has occurred."

In reply to a question by Dr. McCarty, Mayor O'Donnell said that scarlet fever and diphtheria were being treated at the children's cottage. "That is not what I object to," said Dr. McCarty, "and in justice to me," he continued, "you will remember I said that so far as these diseases were concerned it would be all right to build the hospital in the city woods. But the hospital that we propose to erect is intended to take care of tuberculosis and that's where the hitch comes. I still maintain that a hospital of this nature should be away from and independent of other hospitals."

Mayor O'Donnell spoke of W. T. S. Bartlett's land in Varnum avenue, but old Chase estate consisting of about 20 acres. The mayor said he thought the land was well suited for a contagious hospital. The mayor said he was willing to vote for any site favored by a majority of the commission. "I hold no brief for any one," said the mayor. "The city will have to conduct its own hospital; it cannot be run in conjunction with any other institution," said the mayor.

Dr. Lamoureux said: "Forty-two persons succeeded in reversing the opinion of a city government, two years ago. Forty-two persons held out against something which was for the 100,000 and more inhabitants of this city. If 42 people so minded can stop the hospital being erected on the best available site in this city, what guarantee is there that 42 others will not immediately fly into a rage, with a hit-

BABY A SIGHT WITH ECZEMA

Mother Thought He Couldn't Be Worse. Resinol Acted Like a Charm.

NEWARK, N. J., Sept. 6, 1912.—"I wish you could have seen my baby before I started to use Resinol Soap and Resinol Ointment, and see him now. He is now one year old, and the eczema started when he was about a month old. I was ashamed to let anyone see him. His little head was a sight. I thought he would never have any hair on his head at all. I used remedies for about five months.

"Then I thought I would try Resinol Soap and Ointment. I thought the child couldn't be any worse. I got the samples all right, and I tell you they acted like a charm. I used Resinol Soap and Resinol Ointment for about two months; I saw a change from the first application. Now he is as pretty as a picture, and his hair has come in beautiful and curly." (Signed) Mrs. M. Whiteley, 797 Henderson street.

Is your little one suffering from any such distressing trouble? Then how can you fail to profit by Mrs. Whiteley's experience? Even the most terrible, stubborn case, Resinol brought prompt relief. It is ready to do as much for you. Resinol Ointment and Soap are sold by all druggists, or you can try them free by writing for samples to Dept. S-T, Resinol Chem. Co., Baltimore, Md.

the prodigious, over another site? I can see no hope so long as people are of that mind. I will agree on any reasonable proposition."

Mayor O'Donnell: "I will bring the matter to the attention of the municipal council at the next meeting."

At this time Dr. McCarty said he seriously believed that the contagious hospital commission does not exist. The adoption of the charter amendment had destroyed the commission, he believed. He wanted the council to vote to ask the collector to render an opinion. The council didn't so vote.

Dr. Martin said he had read the charter and thought that the section which referred to the site in front of the Chelmsford street hospital. The commission voted to look over the property of Mrs. Fay in Dewey street.

The meeting finally adjourned subject to the call of the chair.

GIVEN \$1 GAS

Attleboro Gets Reduction of 10 Cents—State Commission's Decision Goes in to Effect March 1

ATTLEBORO, Feb. 12.—Attleboro is to have \$1 gas. Notice was sent here yesterday by the state gas and electric light commission, that on and after March 1 the price charged by the Attleboro gas company shall be one dollar per thousand feet. This is a reduction of 10 cents on the net price.

About two years ago the selectmen of Attleboro decided that the price of gas was too high in this town. The Attleboro gas company was petitioned for a lower rate and after a time the price was lowered from \$1.20 to \$1.10. This was not satisfactory to the selectmen, who believed that the town should have \$1 gas. The gas company refused to lower the rate and the matter was taken up with the state gas commissioners. Hearings were held and the decision came today.

TO FILL BENCH

Judge DeCourcy Reserved the Petition of the Railroad Holding Company—Claims Amount to \$77,137.18

BOSTON, Feb. 12.—Judge DeCourcy, in the supreme court yesterday, reserved for the full court the petition of the Boston and Maine railroad holding company against the commonwealth of Massachusetts for an abatement of its franchise or excise tax for the year 1912 amounting to \$77,137.12, which the company claims was \$77,137.12 in excess of what the tax commission had apportioned to it.

The company claims the commissioner had no right to assess its entire holdings.

DR. CLAXTON'S TALK TO TEACHERS

U. S. Commr. of Education at High School Hall—Points Out Defects in School System

United States Commissioner Claxton says it is unfair to keep a teacher in one grade all the time and injurious to the children to change so often to new teachers who do not understand them. He favors the idea of having pupils remain with the same teacher until departmental work becomes a necessity.

The local Teachers' Association of which Miss Kennedy of the Varnum school is president, enjoyed a rare treat in the lecture of Dr. Philander P. Claxton, U. S. commissioner of education, at the high school hall yesterday afternoon.

Dr. Claxton did not take up any one subject for general treatment, but rather discussed several aspects and phases of educational work, pointing out defects and suggesting remedies.

One of the most important things he said was that pupils should remain under the same teacher until it is necessary to start departmental work or at least well into the grammar school course.

In the course of his remarks Dr. Claxton pointed out certain defects which are so called that to remedy them completely, the whole system would have to be changed.

"Years ago," said the speaker, "we heard much about education being development, growth. We do not use the term so much now, but it is just as important as ever. Education is, in a very large and important part, itself, development, growth. Insofar as it is so, it must be the development, the growth of the individual child—not of the average child, or of any other child. We know that there are certain characteristics, powers, capabilities, that the child is born with, and we must respect them. We are understanding, with Froebel, that

you cannot make of a child born with one set of capacities, a man that will succeed under conditions requiring an entirely different set. I am not sure but we are going to need another Rousseau to teach us that we cannot build a great social structure without the right kind of individuals. Let us not forget that the greatness of this age began with the calling of the people back to the importance of the individual. Let me repeat, that insofar as education is development, growth, it must be the development, the growth of the individual child.

"And so the teacher, in order to do her work as it should be done, must understand the child. The more that can be known of the family, the life history, for generations back, the better because the more certainly you will be able to find out what is in the child."

"Elemental education, at least, is not something to be imported from the ends of the earth. It is not something you can do up in a pellet and jam down a child's throat. I have heard people exhort children to get an education. It is not something that can be put into a package and given to a child. Like religion, it is a condition, a state of mind. Other things being equal, that teacher will succeed best who knows most in detail, the pre-school life of the child—its own experiences, and not the common experiences of the average child."

There must also, he said, be a very close correlation between the school experiences, and the rest of the child's life. Illustrating the effect of the lack of this correlation, he told a story of a "perfect" geography lesson, in which a teacher took especial pride, on an occasion when he visited her school. It was a description of the city of Moscow, and it told of the burnished gold domes and towering spires. By putting a few questions he learned that the children knew very little about "domes," or about "burnished gold," though there were many domes in their own city. A "lowering spire," a little chap defined as "one of those men who go around seeing things." Such was the "perfect lesson."

Dr. Claxton believes the daily school sessions should be shortened, and the lessons taught in school supplemented by practical application outside of school, under the direction of the teacher.

He treated humorously the idea of city girls teaching in the country schools, knowing nothing of the life of the community, so that they cannot project themselves into it. In Switzerland, a teacher is selected for his special adaptation to the community in which he is to teach, and he is hired for life. If a teacher does change more than twice during life, he gets a bad reputation; there is something the matter with him. The solution of the problem in this country is the consolidation of schools, and the building of teachers' homes, with land attached, the teacher living on it, and cultivating the land as a model farm for that community; the teacher to be hired for life or during good behavior.

Also, he said, 90 per cent of the grade teachers are teaching where they never taught before. A teacher is put into the first grade and kept there "until the first-grade smile becomes a grin and won't come off." He mentioned one school that promotes from teacher to teacher four times a year. "It is unjust and unfair to a teacher to keep her in one grade like a squirrel in a cage, without any opportunity to follow out her work and see what she can do."

The argument is made, he said, that changing personality is desirable—that the children will exhaust the personality of a teacher, if she is kept on from

grade to grade. "If there is anything in that," he said, "the parents ought to change too. Husbands and wives should alternate in getting divorces. What the child needs in school is not an ever-changing personality, but a guide along the high-road of life." The lecture was highly enjoyed. Dr. Claxton interspersed his discourse with many illustrations drawn from his wide experience in educational work.

PUT OUT BY SOCIALISTS

Brockton Man Favored Commission Gov't

BROCKTON, Feb. 12.—Joseph D. Poltras, considered the "biggest" man in the Socialist party in this section of the state, stands expelled from the party because of his agitation in favor of a commission form of government for this city.

Mr. Poltras has been the socialist candidate for mayor for the past three years, and has succeeded in welding the party together better than any man since the days of ex-Mayor Chas. H. Coulter, who, too, was expelled from the party.

Mr. Poltras has been barred from attending further meetings of the party, but he says as he has violated no rule of the organization, he will continue to attend meetings, even if put out. He also states that he believes the people desire a change of municipal government, he will continue to act as a member of the committee selected to draft a tentative charter.

OLIVE Tablets

OIL the Bowels

A Physician's Substitute for Dangerous Calomel

When you feel that your liver and bowels need help take Dr. Edwards' Olive Tablets. Substitute for Calomel. Calomel is effective, but dangerous—causing bad after-effects. Olive Tablets are especially made to take the place of Calomel. Dr. Edwards for years has been Calomel's foe. He saw its dangers and its disadvantages in 17 years' practice, treating patients for all kinds of liver and bowel complaints. In his efforts to do without Calomel he developed his now famous little olive-all-colored tablets. Olive Tablets are mild but effective. Safe and sure. Pleasant to take but unfailing in results.

Olive Tablets oil the bowels just enough to start Nature's own action, and they tone up the liver at the same time. They are made from a pure combination of vegetable compounds mixed with olive oil.

If you want to regain that feeling of joyous buoyancy and clear thought take Dr. Edwards' Olive Tablets. They work like a vacation. 10 and 25 cents per box.

"Every little Olive Tablet has a movement all its own."

MEMORIAL TO SCOTT AND CREW

Who Perished in Antarctic to be Erected in London—Terra Nova Arrived in Port

been put forward that Roald Amundsen's letter to King Haakon of Norway, which was recovered by Captain Scott on his way to the South pole and which returned to him on his way back but instead brought the news of his and his companions' heroic death, arrived in this port this afternoon.

Terra Nova Reached Port
CHRISTCHURCH, N. Z., Feb. 12.—The Terra Nova, the vessel which took Captain Robert F. Scott to the Antarctic on his way to the South pole and which returned to him on his way back but instead brought the news of his and his companions' heroic death, arrived in this port this afternoon.

Amundsen Thawed Scott
NEW YORK, Feb. 12.—Capt. Roald Amundsen, and Capt. Robert Scott passed each other in the Antarctic zone during Christmas week of 1911. Amundsen, jubilant in his victory, was speeding away from the pole, with good fortune attending each day's journey. Scott, still hopeful, was forging stubbornly toward his goal, passing from the 86th to the 87th parallel and fixing his records and supplies so that the last detachment of his party might leave under the guidance of Lieut. Evans while he made ready for the final dash.

PAPE'S! BREAKS A COLD AT ONCE.

First Dose of Pape's Cold Compound Ends Grippe Misery—Tastes Nice—No Quinine

Yours are sure and Grippe and break on the most severe cold either in head, chest, back, stomach or limbs, by taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

It promptly relieves the most miserable headache, coldness, sneezing, sore throat, mucous catarrhal discharges, running of the nose, soreness, stiffness and rheumatic twinges.

Take this wonderful Compound as directed, without interference with your usual duties and with the knowledge that there is nothing else in the world which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist can supply—accept no substitute—contains no quinine belongs in every home. Tastes nice.

3 PER CENT. OF SALARY

Postmaster Camp Asked to Contribute to Fund

WASHINGTON, Feb. 12.—Gordon Campbell of Little Rock, treasurer of the republican state committee of Arkansas, told the Clapp campaign fund investigating committee today that he knew nothing of the charge by Thos. J. Clapp, former postmaster at Beebe, Ark., of being removed from office because he refused to contribute to the 1912 campaign fund and declared he had never sent any information to the postoffice department concerning Camp's refusal to contribute.

Campbell pointed out that the postoffice inspectors' report against Camp, on the strength of which the latter's resignation was demanded, was signed before he began soliciting funds.

Treasurer Campbell told the committee he had solicited contributions from other postmasters in Arkansas in 1911, all the letters he sent out being similar to those sent to Camp.

"How was \$25 fixed upon as the amount for Mr. Camp to contribute?" asked Senator Clapp.

"We thought there was no reason why he should not pay us about three per cent. of his salary," said Mr. Campbell.

"Was the amount to be contributed specified in all cases?" he was asked.

"In most cases it was."

50TH BIRTHDAY

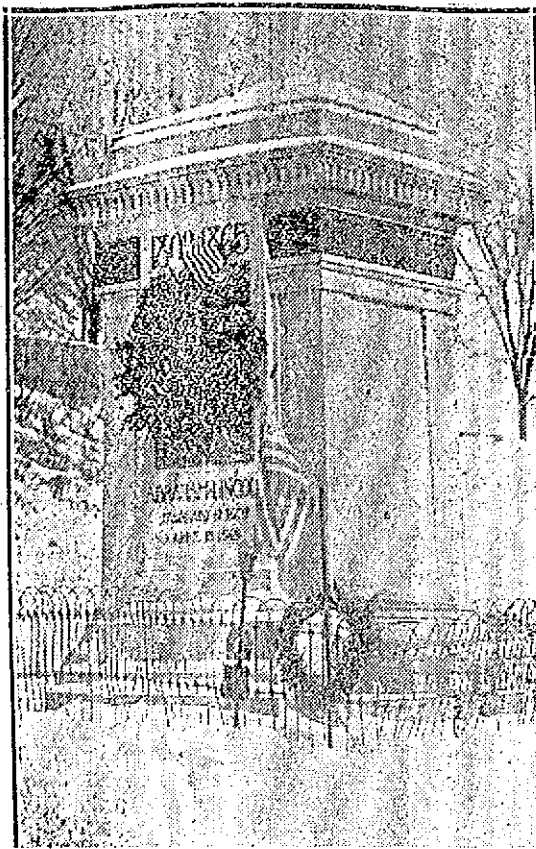

Mrs. Stephen Heiple of Fisher Street Honored by Relatives and Friends—Many Present from Out-of-Town

The friends of Mrs. Stephen Heiple of 14 Fisher street surprised her last evening on the occasion of her 50th birthday anniversary. There were friends from Lynn, Haverhill and Westbury. There were piano solos by Mrs. Pitts, daughter of Mrs. Heiple. Refreshments were served and the gathering was a very happy one.

EXERCISES IN HONOR OF LINCOLN

THE LINCOLN MEMORIAL PAID FOR BY SCHOOL CHILDREN

Held in Local Schools Today—Lincoln Monument Beautifully Decorated

In accordance with the proclamation issued by Gov. Foss, in which he recommends the observance of the day by the people with appropriate exercises, Lincoln day is today being observed in a fitting manner in this city. On every public and large building of the city the American flag floats in the breeze, and the Lincoln monument at Lincoln square, erected by the school children, is appropriately decorated with flags and flowers.

The governor, in his proclamation, says exercises should be held and the day properly observed in order to perpetuate in the commonwealth the memory of the public service and private virtues of Abraham Lincoln. The following is from the proclamation:

"I earnestly recommend to the young people of Massachusetts the high ideals which animated the great president through his public service; his complete freedom from selfishness and self-interest; his deep understanding of human nature; his broad sympathies and his unflinching devotion to the public good."

Copies of the proclamation were sent to all the grammar schools, and in a number of them it was read today before all the pupils.

At the Lincoln and Varnum schools special programs were carried out, while in the other grammar and parochial schools informal programs were held, each teacher having prepared her numbers.

At the Lincoln school the children with a number of parents and friends gathered in the school hall at 2:30 o'clock this afternoon and the following program was recited:

Salute to the Flag
Star Spangled Banner
School children
Reading of Lincoln day proclamation, Samuel Babagan
Recitation, "Flag Goes By," Marjorie Arnold
Piano selection, Roscoe Kerwin
Mildred Denvers
Recitation, "Barbara Friesthies Ride," Marjorie Arnold
Declaration, "The Character of Lincoln," Rose Cohen
Recitation, "Our Country," Tibbe Rosenfield
Reading, "Lincoln's Gettysburg Address," Pearl Leadbetter
"America," School children

The hall was beautifully decorated for the occasion, and the exercises proved most pleasing and interesting. Miss Ella Prescott accompanied on the piano.

Varnum School
Teachers at the Varnum school arranged individual programs for each class and those were rendered this forenoon. This afternoon at 2:30 o'clock the pupils all gathered in the large assembly hall and there listened to patriotic singing by the scholars, and a very interesting address on "Abraham Lincoln" was delivered by Rev. C. E. Newcomb, pastor of the First Congregational church. The exercises closed with the singing of "America" by the entire gathering.

Edson School

The following program was given at the Edson school:

Singing, Keller's American Hymn, Class 1913
Reading, The Story of Abraham Lincoln's Life, selections, Girls
Singing, "The Battle Hymn of the Republic," Class
Recitation, Selections from Lincoln's Second Inaugural Address, Class
Reading, Selections from James Russell Lowell's "Abraham Lincoln," Boys
Piano solo, Julia McPhee
Recitation, "The Gettysburg Address," Class
Singing, The Red, White and Blue, Class
Recitation, "Commencement Ode," Class
Piano solo, "The Fragrant Rose," Bernice Knight
Singing, "America," Class

St. Michael's School

The Lincoln day program, which was most successfully given at St. Michael's school, was as follows:

"The Day We Celebrate" chorus, school; "Character of Lincoln," Eighth and ninth grade boys; "Mantle of the Honor of the Flag," chorus, eighth and ninth grades; "Let Us Be Like Him," recitation, sixth and seventh grade boys; "Flag of Our Fatherland," chorus, sixth and seventh grade girls; quotations from Lincoln's writings, fifth grade; "Take Off Your Hat to the

THOUSANDS HAVE KIDNEY TROUBLE AND DON'T KNOW IT

Weak and unhealthy kidneys are probably responsible for more sickness and suffering than any other disease, therefore, when through neglect or other causes, kidney trouble is permitted to continue, serious results are sure to follow.

Your other organs may need attention—but your kidneys most, because they do most and should have attention first.

If you feel that your kidneys are the cause of your sickness or run down condition commence taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because as soon as your kidneys begin to improve they will help all the other organs to health.

Prevalency of Kidney Disease.

Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient or physicians, who usually content themselves with doctoring the effects, while the original disease constantly undermines the system.

A Trial Will Convince Anyone

The mild and immediate effect of Swamp-Root, the great kidney, liver and bladder remedy, is soon realized. It stands the highest for its remarkable results in the most distressing cases.

Symptoms of Kidney Trouble

Swamp-Root is not recommended for everything, but if you are obliged to pass your water frequently night and day, smarting or irritating in passing, bloodshot or sediment in the urine, headache, backache, lame back, dizziness, poor digestion, sleeplessness, nervousness, heart disturbance due to bad kidney trouble, skin eruptions from bad blood, neuralgia, rheumatism, lumbago, blotting, irritability, wornout feeling, lack of ambition, may be loss of flesh, sallow complexion, or Bright's disease may be stealing upon you, which is the worst form of kidney trouble.

Swamp-Root is Pleasant to Take

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at all drug stores.

Sample Bottle Sent Free

EDITORIAL NOTICE—To prove the wonderful merits of Swamp-Root you may have a sample bottle and a book of valuable information, both sent absolutely free by mail. The book contains many of the thousands of letters received from men and women who found Swamp-Root to be just the remedy they needed. The value and success of Swamp-Root is so well known that our readers are advised to send for a sample bottle. Address Dr. Kilmer & Co., Binghamton, N. Y. Be sure to say you read this generous offer in The Lowell Sun. The genuineness of this offer is guaranteed.

CARRYING A REVOLVER

More Threats Against Life of Whitman

NEW YORK, February 12.—Renewed threats against the life of District Attorney Whitman because of his activity against police grafters have caused him, as a matter of protection, to carry a revolver. Permission to go armed has been granted both to him and to an assistant, J. H. Groch.

The threats against the prosecutor's life were numerous during the trial of Lieut. Becker and the gunmen, but Mr. Whitman regarded them lightly at the time and attributed most of the epithets to cranks.

During the present graft investigation, however, it is understood that

Ailing Skin

Eczema, Psoriasis, Dandruff, Pimples, skin troubles of any kind—WASH THEM AWAY WITH

CHRISTIANS MASSACRED

Turks Ravage Population of Buyuk, Chekmedje

SOFIA, Bulgaria, Feb. 12.—It is reported here today that the Turkish troops drove the whole male Christian population of Buyuk Chekmedje into the schoolhouse there, and then massacred them. Subsequently they killed all the Christian women and children with the exception of the young girls, whom they carried off on board ship. There was no fighting yesterday either in the Gallipoli peninsula or at the Thracian line. The bombardment of Adrianople, however, continues.

Repeal of the Free Passage Provisions

WASHINGTON, Feb. 12.—Repeal of the free passage provisions of the Panama canal act as "the wisest and best way out of a very embarrassing and injurious situation" was urged by Senator Root today before the senate committee on inter-oceanic canals in support of his bill for a repeal of the provision which exempts American coastwise shipping from the payment of tolls.

Never Buy "Seconds" When You Can Get First Quality

Choosing tens of all kinds at about one-half price at the Great Bon Marche Annual Sale that opens tomorrow.

Federation of Women's Clubs

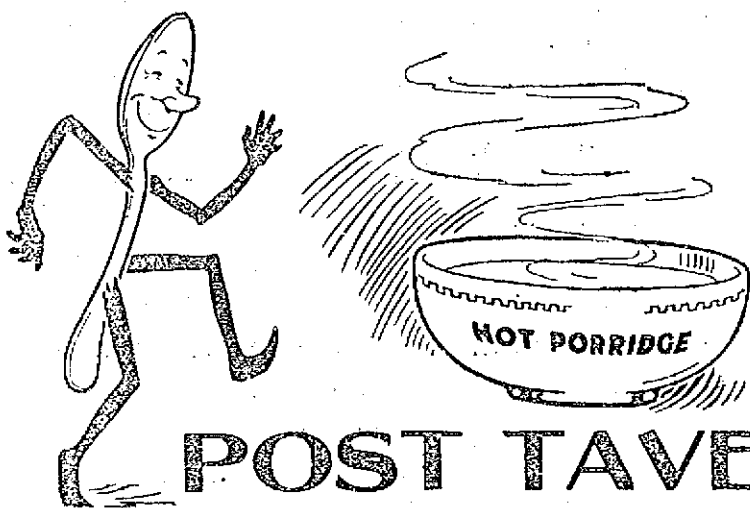

BOSTON, Feb. 12.—The mid winter meeting of the state federation of women's clubs brought to the Arlington street church today the largest gathering of the kind ever assembled in the city.

HOUSE RAISES AGE LIMIT

Favors the Protection of
Children Under 18

BOSTON, Feb. 12.—The lower branch of the state legislature held its longest session of the year yesterday afternoon. It was near 5 before the branch adjourned. A couple of roll-calls followed rather warm debate on several measures. William H. Lewis, assistant United States attorney general, will today give an address on Lincoln at about 3 in the house chamber.

After the debate the house yesterday sustained two adverse committee reports and overturned one. By a vote of 110 to 95 the house substituted for the adverse report of the committee on public service the bill providing that applicants for civil service examination shall not be questioned relative to conviction for any crime prior to their reaching the age of 18.

An act passed two years ago over the governor's veto provided that this prohibition should apply up to the age of 16. This year a move was made to raise the age to 18. The committee reported against the measure, but yesterday the house defeated the adverse report.

Representative Edward E. McGrath of Boston made a fight to have substituted for the adverse report of the committee on mercantile affairs his bill providing that all moving picture films shown in Massachusetts shall be censored by the chief of the district police. At present the chief must censor all shown on Sundays. The house was against substitution, however, and Representative McGrath's motion was defeated on a roll-call, 77 to 103.

A motion by Representative Burdick of Adams to substitute for the adverse report of the committee on mercantile affairs his bill to prohibit the use of substitutes for leather in the making of shoes was defeated on a voice vote.

The lower branch, without division, suspended all rules to admit for consideration today the Changing Cox resolutions congratulating the Irish people on the passage of the home rule bill. It is not expected that there will be any debate on the resolutions and that the same will be sent to the senate for concurrence this afternoon.

The house reconsidered its action of Monday whereby it referred to the next general court the bill to place superintendents of fire alarms and wires under the civil service. This was done on motion of Representative Robinson of Chelsea, who then offered in place of the general bill turned down on Monday, a special bill applying only to the city of Chelsea and carrying a referendum to the voters of that city. This special bill was accepted and ordered to a third reading.

The committee on municipal finance reported the bill authorizing the city of New Bedford to borrow \$100,000 for sewer purposes and the city of Taunton \$150,000 for highway purposes. A bill to increase the salary of E. Gerry Brown, state supervisor of loan agencies, from \$2500 to \$3500 was reported by the committee on public service.

TO HOSPITAL ON SLED

Girl Was Injured in Coast-
ing Accident

BOSTON, Feb. 12.—Caught up in the arms of the riders on the "double-runner" which had run her down on Lawrence street hill in Everett last night and broken her leg, Helen Deeland, a 14-year-old girl, was tenderly placed on the huge racer, and, with a score of willing hands dragging at the rope, pulled to the Whidden hospital at the top of the hill for treatment. Doctors were in readiness when the double-runner reached the hospital and within 15 minutes of the accident the child was on the operating table.

Helped with a large number of her playmates was taking advantage of the coasting on Lawrence street last night. She had just coasted down and was walking up the steep incline to enjoy another slide when an immense double-runner bore down upon her. The riders shrieked a warning for her to get out of the way. Terrified by the racer's onward rush, the child seemed unable to move and remained directly in its path. The man steering the double could not avert it from its course and it struck her.

Cries of horror went up from the spectators lined on the sidewalks enjoying the fun. The child was dragged along for several yards before the coaster came to a stop. A score of persons rushed forth to lift it from her. Among them was Dr. Melvin H. Nichols. He saw at a glance the left leg had been broken, and that the girl was suffering from severe lacerations.

DIVORCED, WEBS AGAIN

Samuel Warren Lamson, of Boston
Lost No Time at Reno—On His Way
Here With His Bride

RENO, Nev., Feb. 12.—Eager to be freed from marital bonds which held him to one woman that he might immediately be able to marry another, Samuel Warren Lamson of Boston has just cleared in a double event here.

Coming to Reno last summer, he in due time filed an action for divorce against his wife, Fannie L. Lamson, their home being corner of Francis street and Brookline avenue, Boston. His case came to trial after securing personal service of summons upon her at the above address and on Tuesday last he secured his decree.

Hardly had the ink dried upon the court document when Lamson applied for a marriage license to wed Mrs. Emma L. Edwards, aged 36, giving her address as Oakland, Calif. The wedding ceremony was performed by a local justice in the presence of two witnesses and they are now journeying to Boston.

His testimony at the divorce trial disclosed that he was originally married in Boston Jan. 14, 1896. He charged that his wife scolded and abused him and cast slurs upon his parents. She made no opposition to the suit.

TALKS TO CREDIT MEN

Lieut. Gov. Walsh Thinks It Is a
Handicap to Be a College Man in
Government

BOSTON, Feb. 12.—"It is in a way a handicap to be a college man in government, because a college man is apt to forget the point of view of the great masses of people," said Lieut. Gov. David I. Walsh, speaking last evening at the banquet of the Boston Credit Men's association at Young's op

Humanitarianism in Government.

He urged that it is the duty of every business man to consider more than his own private interests and to recognize that this is the age in which the government must look after the interests of her less fortunate citizens.

On motion of W. Q. Wales the association passed a resolution to go on record against the Bourne plan for changing County square and favoring the plan favored by the Boston Art club for retaining the triangle in the center and erecting a fountain.

Leroy D. Peavey discussed "Mercantile Losses Due to Bad Accounts." Rev. J. Stanley Burke of the South Congregational church, Brockton, spoke on "The Faith of a Credit Man," and Vice Pres. A. H. Decatur described the growth and the work of the Credit

Men's association. Pres. George C.

Morton presided.
Among those present were George M. Graves, George H. Leach, Walter C. Mitchell, John R. Ablesley, William D. Harvey, L. W. Farmer, W. F. Burdette, J. J. Burke, H. H. Noyes, Marshall Cutting, S. C. Burgoyne, J. C. Souther, H. B. Nickerson, F. L. Mason, E. L. Rich, W. F. Spinney, R. P. Tracy, Charles E. Adams, W. E. Thayer, F. D.

SOCIALIST LEADER KILLED

Franz Schummeier Assassinated in
Vienna by Paul Kunschak—Re-
venge Reported Motive

VIENNA, Feb. 12.—Franz Schummeier, a member of the lower house of the Austrian parliament and a socialist leader, was assassinated last night by the Christian socialist and labor leader Paul Kunschak.

Kunschak followed Schummeier from a political meeting to the Northwest-erna railway station, where he shot him. The motive is said to have been revenge.

QUIZZED BY GRAND JURY

"Big Bill's" Counsel Wit-
ness at Session

BOSTON, Feb. 12.—Daniel H. Cook, ley, one of the counsel for "Big Bill" Kellher in the court proceedings which convicted him of complicity in robbing the National City bank of Cambridge, was the principal witness before the grand jury of Suffolk county yesterday in the investigation which the district attorney is conducting in his attempt to determine who was responsible for the original grand jury records of the affair being made public.

Several other witnesses were called, about of them well known attorneys about Boston and one morning newspaper reporter, but it was to the counsel for the defense that Mr. Follietter paid his most strenuous attention.

Bank Directors Called
Walter F. Earl and David F. Barker,

two of the directors of the defunct bank, were called. Among the attorneys summoned were Roland C. Sherman, Harvey H. Pratt and William Shea.

There has been much speculation as to the outcome of the jury deliberations, since it became known that it would take up the declaration of Kellher, that a transcript of the evidence of George W. Coleman, before the Suffolk grand jury, came into his possession or knowledge immediately upon his return from New York and previous to his arrest.

MEXICO

Mexico seems to be governed by plot and counter-plot. For years revolution after revolution has taken place, sometimes of an unimportant nature, and again, as in the present instance, resulting in a complete change of government. Madero, the fugitive president, succeeded old General Diaz, the "iron man" of Mexico, whom he deposed. Now the people and the army have turned against Madero, with the result that General Diaz, nephew of the called president, has taken the capital city and is there besieged by the government forces. A week ago this Diaz was a prisoner sentenced to be shot and in expectation of death; today he bids fair to be Mexico's next president.

If peace were to follow this perpetual discontent and all the rebel uprisings, the revolution would justify itself. When people are constantly clamoring for change, and when the very soldiers are ready to turn against the government, it is a symptom of a great weakness on the part of the people or lack of justice on the part of those in power. When, however, these revolutions are followed by counter revolutions and when the old discontent still goes on, it is a proof that the rebel activity is not superficial but is the result of a deep-seated wrong which no mere change in the chief executive can remedy. The deposed Diaz claimed that the trouble in Mexico is because of the fickleness of the people. Zapata, on the contrary, one of the most violent and successful leaders of the lawless natives, claims that the Mexican lands do not belong to the people, but are owned by a few wealthy families or by foreigners. This Zapata upheld Madero in the last great revolution on the promise of having this condition remedied. On Madero's failure to keep that promise, or inability to comply with it, Zapata fostered resentment against him with the result shown by recent events. If the younger Diaz is now elected president, it will be interesting to see how long he can keep peace.

Beyond protecting the lives and interests of Americans in Mexico, the United States has but little interest in the uprisings. At the last revolution, however, President Taft sent troops to the Texas border, to be ready for action if the revolutionists menaced American rights. Without doubt the same course will be pursued now if found necessary. Even though comparative quiet should follow the revolution it will be many years before lawlessness and discontent, resulting from the unsettled political conditions, will cease in Mexico.

THE KAISER ON FAITH

At Berlin university a few days ago the Kaiser gave an impromptu speech in which he called on the students to study history and see how a weakening of religion on the part of a nation has always been followed by national disaster. He referred particularly to the Prussians, whom, he declared, had lost their faith in God in 1806 and consequently were oppressed, but when they regained their faith fought and won the war of liberation. He warned the students against believing in tangible things only and placing difficulties in the way of religion. He urged them not to forget the faith of their fathers but to remember that their prosperity is the proof of God's guidance. He concluded by saying "We Germans fear God and nothing else in the world."

It is very unusual to hear such sentiments coming from the lips of rulers. They have a peculiar significance at this time when government and religion are being daily assailed by agitators all over the world. They show that the Kaiser believes that religion and patriotism go hand in hand, and that the sacrifice or neglect of the one is disastrous to the other. If materialism is not speedily checked not only the Kaiser but the rulers of all nations will find it necessary to urge an awakening of the national conscience as a necessary factor of temporal progress.

TEACHERS' PENSIONS

There will be a hearing before the legislative committee on education at the state house next Friday evening, Feb. 14th, regarding a bill in favor of pensioning Massachusetts teachers, women at the age of 60, and men who have reached 65.

There is a growing sentiment against the system of pensioning, because of the fact that it may tend to recklessness in money matters with consequent improvidence. But aside from this general objection to the system, while pensions are given for public duty we doubt if any class better deserves them than those whose lives are given over to the training of the young.

The life of a woman school teacher is in particular a life of sacrifice. She forgoes the ties of home and family and gives her life to the education of the families of others. Her remuneration does not compensate her for her

sacrifice. In her old age she is often dependent in a measure on strangers. It is but fitting that then she should receive enough to make her independent, and brighten the closing years of a life spent in one of the noblest of all occupations—the education of youth.

LINCOLN DAY

As the years go by, the name, the services and the sacrifices of the martyred president become more and more appreciated by the people of this republic. The appropriation by congress of \$2,000,000 for a memorial building at the national capital shows the spirit of the nation and it is cordially approved by the people everywhere. The name of Lincoln will go down through the ages as an inspiration to patriotism and unselfish devotion to the cause of human freedom.

President Lowell of Harvard is said to be developing a plan by which college students of that institution may receive training for the navy on one of the regular battleships, for two months during the summer vacation. A mass meeting of students is to be held to discuss the idea and the students are asked to suggest means by which such a plan may be furthered. There is, or ought to be, a strong patriotic feeling in all our universities. Such a plan would do much to foster and encourage this spirit, and it might at the same time be of great benefit physically and mentally to the students themselves. Of course such a course would be entirely optional.

President-elect Wilson has embodied his ideas of government in a book, "The New Freedom," which will be published on Feb. 17th. In it he embodies the views given in his campaign speeches. It is a new departure for a president to thus give to the public his beliefs and intentions on the eve of his inauguration, and it is a further proof of the idealism that marks him out as a man apart. Inasmuch as one of his books written years ago drew criticism upon him during his campaign, he has probably written this to give to the world his present views of the burning issues of the hour.

Seen and Heard

An optimist is a man who has mining stock to sell. A pessimist is the gentleman who has bought it.

Mr. Wilson is not making any noise putting the cabinet together, but there will be plenty of hammering heard after he has completed it.

Many other amateurs would readily admit that they were professionals, if they could connect with a job paying \$1000 a year.

On the stage virtue invariably triumphs over vice. And it succeeds in doing so about half the time in real life.

From a cursory reading of the crime news one would hardly think that there are only 10 commandments to be broken.

That long hat pin agitation has not yet aroused any discussion in Lowell, but there is no need of it, because the Lowell girls are sensible and only wear short hats.

A doctor says that the only good rat is a dead one. All women in favor of the rat, say "Aye." The "Aye" have it. And, of course, that the dead rat in question is repusing in the ash barrel.

We don't understand why anyone except the woman the coal man and the small boy with the sled should be complaining about the warm weather yet, seeing that they are all out of the house and here the same people will find fault with the cold spell too.

The latest idea in Lowell is to have your pictures drawn on your wall paper, and thus save the expense of framing. One of the large wall paper stores is showing a pair of gray trousers with a row of pretty girls sketched in to form a frieze.

I did not know the sky could be so very soft. I did not know the land and sea could spread so far before my view. Until I learned one cloudless day. To banish lust from my heart, to put my foolish doubt away. And bid my envy to depart.

—Kiser.

Better a pavement made of good intentions than a pavement of all. Some girls are given away in marriage and some throw themselves away.

There are more brands of easiness than there are brands of religion.

Many a good man's reputation has been fatally bitten by the political bug. It takes more than a farthing overcoat to protect a would-be actor from the frost.

If a man's backbone is weak he will never occupy a front seat in the hall of fame.

A man has no use for a woman who attempts to convince him that he is wrong and succeeds in doing it.

Pictorial love is something like perpetual motion—a beautiful theory that nobody even has been able to work out. —New Orleans Pleasure.

Roses Rejoice

The garden where the roses bloomed a few short months ago is now a garden of ice. And drifted deep with snow. The thorn bushes, gorgeous then with glowing blossoms, are now stiffly folded root and branch in shrouds of frozen white.

But all along the windy west, Behind the dusky places, With pink and crimson radiance The winter sunset shines. The light of every evening gleam, The glowing sky discloses For us within its glory lies The heaven of the roses.

—Minnie Irving, in N. Y. American.

EDITORIAL COMMENT

Memorials to Dead Congressmen. Brockton Enterprise: The best eulogy that is likely to be paid to a dead congressman is uttered in his own district if he has been a good able and honest public servant. To the mass of those at Washington a congressman is merely a dweller in the place—a dweller of recognized ability as a rule, but ranking no higher than the city's business and professional men; and so when a day is set apart for eulogizing him Washington and other official Washington may pay little heed. And it hurts the family and friends of the dead to realize this fact, just as it gives them a melancholy pleasure at home when the congressman's town and district turn out to do him the honor which is granted a good man by neighbors and friends who really mourn him. Why not have

a well written and worthy eulogy printed in the Congressional Record, and leave other official recognition of the passing to the people who can make it mean something?

Police Graft. Johnstown Democrat: Waldo announces that he is going to rid New York of grafting politicians. Keep them for a government. Why spread the contagion? No telling where they will go if you drive them out. Besides, New York is accustomed to the grafting cop and, like Eva Tanguay, does not care.

Captain Scott

Providence Tribune: "The destruction of Captain Scott and the members of his expedition adds to the enormous number of lives that have been sacrificed in extending the boundaries of human knowledge since man first became the sentient animal. On the whole the sacrifice has unquestionably been worth making, though in specific cases, as in the one today brought to the world's notice, it is not always possible to see the gain."

The Tribune evidently is a believer in the Darwinian theory.

Swift Justice

Springfield Union: It is seldom that justice moves as swiftly as in the case of the former president of an Oklahoma bank who was arrested on Thursday for a government fraud. He was on his way to the federal penitentiary at Fort Leavenworth to serve the five years' sentence imposed upon him. The incident, however, shows that the courts can be trusted to deal with the big rascals as well as the smaller ones.

Turkish War

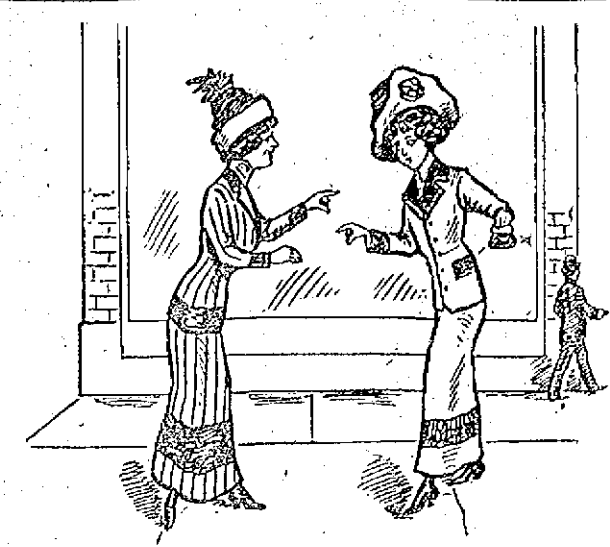

Boston Herald: At the Dardanelles, one end of the Balkan army and the other by the Greek navy, the Turk is driven to his last ditch. He is now fighting in the straits of Turkey. His defeat on the western heights that dominate the straits might bring about his banishment to Asia. And that is what the Balkan states desire. All Europe appears to be with them in the wish to settle the troublesome eastern question by the extinction of Turkey in Europe.

San Francisco Exposition

Foster's Daily Democrat: As recently stated, San Francisco won the Panama canal exposition largely through a promise that it would not ask the government to spend any money for the show. Nobody believed the promise would be kept and hence it is not surprising that a bill is pending in the house to appropriate \$2,000,000 for a government building in support of the bill and its incidental graft have probably made action impossible at this session, but the proposition will be up again in the new congress. And the chance will be on the measure will be voted. The United States has invited other nations to exhibit at the show and it can't very well stay away itself. That is the argument advanced by the advocates of the appropriation and it is more than likely to prevail.

Uniform Building Laws

Fall River Herald: There is a bill providing for uniformity in building laws before the legislature. It ought to pass. Its purpose is to investigate the regulations now in force throughout the state relative to the construction, alteration and maintenance of buildings with a view to arriving at a basis for a law which will be the same in all cities in Massachusetts. As a prominent architect, speaking in support of the bill, told the committee on mercantile affairs to which the measure has been referred: "The most carefully constructed and safest building in Lawrence today would be condemned as a condemnation hazard if it were in Boston." Such a condition is illogical.

ALICE AND MAY

Say, May, I think I'll become a suffragist. Honest and true, Alice? I'm so glad. What made you change your mind so suddenly?

I don't read about that woman who said beauty will follow the ballot?

I read something about it, but, to tell the truth, I thought it was kind of silly.

I wish you'd read a book on suffrage that I have. It was written by Mrs. —

I know I'm not a bit polite, May, but I rather read Robert Chambers' latest. It's no use trying to convert me to the cause. Let's talk about something else.

But at least you could read the book, Alice.

I don't want to. By the way, did you see that Judge Pickman is going to resign from the park commission?

Yes, it's too bad. But, about that suffrage book.

He's always taken such an interest in Shedd Park. I wouldn't read the book if you gave it to me, May, so I don't read it. It seems a shame for him to resign, but I don't blame him, when there isn't any money to do anything towards improving the park.

I suppose if you won't read it, I can't make you, but —

If it would be fine if there were tennis courts in the park, wouldn't it, May?

Oh, it would be great, for next spring and summer, I wish they could have some. I shouldn't think it would cost so much.

No, and just think of the advantages. When the Lowell girls went on their vacations to summer hotels, they could play tennis with the nice youths there, instead of having to sit on the piazza and watch other girls who can play, monopolize the youths. I'm sure the park commission never thought of that. We'll have to suggest it to them.

Of course the park is dandy for skating.

Yes, but it ought to be used for lots of other things, too, May. Have you read about all the things they're going to do in the Boston parks next summer?

Yes. The city of Lowell ought to follow that example.

Just think of having a merry-go-round in Shedd park—reduced rates to the inhabitants of Lowell—a rides and a merry-go-round, with a duck pond, and a merry-go-round, with a duck pond, and a merry-go-round, with a duck pond.

going round and round. The park would be a mighty popular place.

I say that they want to have grand opera and plays in an out-of-door theatre in Boston, too.

I doubt if that would attract people in summer. If the shows were free, a crowd would go at first, to see what they were like, but I don't believe Kith's or the Playhouse would have much.

But just think, Alice, of having an opportunity to hear grand opera—even in an open-air theatre. It would be wonderful!

I don't know about that, May. Of course people who really love music would enjoy it, but there are lots of folks who go to grand opera because they like to see society women "dressed up" in their party gowns. Grand opera would need a gorgeous setting, and it would be out of place in an open-air theatre. I think a moving picture show would be a better attraction.

I would please more people, anyway, Alice. Or the city might run a moving picture and vaudeville show combined, with some of the street department vocalists as musical soloists.

That's enough talent in the city to run a first-class show. Even if there isn't enough money, there's plenty of time to build an open-air theatre in Shedd park, and it could be opened on Fourth of July with a grand celebration. But what do you think about the cows, May?

What are you talking about, Alice? What cows?

Why, the municipal herd of cows that is going to be kept in one of the Boston parks next summer, so that people who go there can buy fresh milk.

That sounds almost like a fairy tale. It's too good to be true, Alice.

Think of the pleasant times in store for us next summer, May. If the park commission follows our advice, we can go out to Shedd Park every Sunday afternoon, with our brothers; have all the merry-go-round rides we want, although we'll probably be dizzy after the third, that is, we would rather have fresh milk than ice cream horns. We can have all we can drink.

I wonder if we'll have to milk the cows ourselves, or will there be municipal milkmaids—and then there will be a select Sunday concert and —

But what's the story? I'm afraid it is only a fairy tale, May.

There's no money available and Judge Pickman is tired of the monotonous music of the lawn mower!

NEW NICKEL IS HELD UP

Treasury Department Postpones Its Circulation to Consider Protests of Slot Machine Interests.

WASHINGTON, Feb. 12.—Circulation of the proposed new nickel, scheduled for Feb. 15, was postponed indefinitely yesterday by the treasury department because of the protests of slot machine interests.

Manufacturers vigorously complained that just as they had perfected chewing gum and other slot machines to refuse counterfeit nickels and "slugs" designed for fraud, the government was about to place in circulation a five-cent piece, the design of which would practically nullify their inventions. Slot officials agreed to delay circulation to consider the protests.

Thine Claims \$7,000,000.

NEW YORK, Feb. 12.—Yesterday was the last day for filing claims for damages against the owners of the Titanic. Four hundred claims, aggregating \$7,000,000, have been put in. The largest of these is for \$200,000, made by Harold Osby, for the death of his father, E. C. Osby, of Providence.

FACE ITCHED AND BURNED

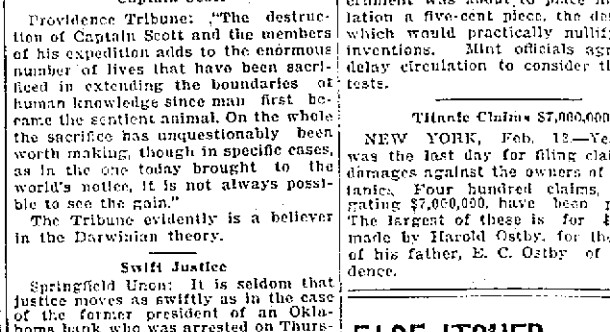

With Eczema, Red and Scaly, Scratched and Made Sores. Face Covered With Scabs and Blood. Completely Cured by Cuticura Soap and Cuticura Ointment.

10 Fountain St., Orange, Mass.—"My daughter was suffering from a rash on her face. At first I thought it was covered by her hair, but when I saw it was so bad, I was forced to look at it. Her face looked red and scaly, and she scratched and made sores. I was distressed for this thing. Her face was covered with scabs and blood where she scratched. I was obliged to have her wear mittens when she went to bed.

"I tried a number of different remedies, but those did not prove beneficial. After about three weeks Cuticura Soap and Ointment were recommended to me. I tried Cuticura Soap and Ointment and they afforded relief almost immediately. I bathed the face with Cuticura Soap and applied the Cuticura Ointment at least at night and in the morning. I continued the treatment for two months, when she was completely cured and she has never since been troubled with the disease." (Signed) Mrs. F. L. Lamb, Oct. 7, 1912.

A single cake of Cuticura Soap (35c.) and box of Cuticura Ointment (65c.) are often sufficient when all else has failed. Cuticura Soap and Ointment are sold by druggists and dealers everywhere. Liberal sample of each mailed free, with 25¢ skin book. Address: "Cuticura, Dept. T, Boston."

45 Men who share and shampoo with Cuticura Soap will find it best for skin and scalp.

FACE ITCHED AND BURNED

Overseers of Poor's Office Criticized Before Manchester, N. H., Legislative Delegation.

MANCHESTER, N. H., Feb. 12.—Gentle hints of a coming change of both the past and present administrations of the office of overseer of the poor were made last night at a public hearing of the Manchester legislative delegation in the city hall.

It was voted to exempt the infant asylum of Our Lady of Perpetual Help from taxation.

A compromise was effected when the salary of overseer of the poor was fixed at \$1250 to \$1500, instead of \$250 to \$500 as provided in Senator Joy's bill.

NEARLY 100 STRIKE.

Union Millers and Coremakers at One Worcester and One Milbury Plant to Remain Out.

WORCESTER, Feb. 12.—Union millers and coremakers in the Rice, Barton & Fales Company plant of this city and the Milbury Flouring Company plant of Milbury, struck last night and say they will remain away from both shops until the demands for an increase in wages and a uniform working day are granted.

There are nearly 100 millers and coremakers employed at the two factories.

The Worcester and Milbury plants are the only ones refusing to grant the

THREE FIREMEN INJURED

One Badly Burned, Others Cut With Axes

BOSTON, Feb. 12.—A horse was rescued from the flames, a fireman was burned about the face and hands and two others were cut with axes as a fire that broke out in Knapp's stable, 664 Adams street, Dorchester, at 5 o'clock yesterday afternoon.

The firemen injured were Joseph M. May, Engine 48, cut on the foot with an axe chopping burning debris.

Edward G. Chamberlain, driver for Chief Maurice Heffernan, burned in rescuing a horse.

All were treated at the fire from the department's medicine chest and continued at work.

The rescue of the horse was spectacular. When the crew of Engine 48 drew up at the stable, flames were leaping out, but had not reached the stall where the horse was kicking at the timbers.

Chamberlain, knowing the horse was in the place, through his familiarity with the stable, ran in and soon emerged with the animal. He was alone soon, for the horse's flanks were singed and he himself received bad burns.

Engine 48's crew attacked the fire and Engine 20 from Neponset prevented the spread of the flames to the house.

The stable is a 2½-story wooden affair, is owned and occupied by Edward L. Knapp. The cause of the fire is unknown. The damage is estimated at \$500.

BEAT POLICE SLEUTHS

Colored Porter at North Station, Boston, Noticed "Jack" Wren on His Journey to Chester.

BOSTON, Feb. 12.—Milton Snowden, a young colored porter at the North station, was the first to take notice of "Jack" Wren, when the latter was being sought in connection with the murder of J. Stewart Hamilton at this date, N. H., last Wednesday night.

When "Jack" Wren of Brattleboro, Vt., who is charged with the murder of Hamilton, slipped past the police of two states and reached Chester, N. S., apparently unobserved, Snowden sized him up as he passed through the North station and notified the Boston police. This was long before there was any definite knowledge of Wren's whereabouts.

To a reporter Snowden said yesterday: "I came to work after reading the evening and morning papers fully convinced that the traveler was none other than Jack Wren, and I called Holman Officer at the station and told him my story in detail. The officer at once called Station 1 on the telephone and the news was sent to headquarters."

"A Vermont officer the next day, as well as others, were watching a glazed bag in the inward baggage room and waiting to have somebody claim it, in hopes of catching the suspect, but after I explained them how the traveler the previous day had been delivered to the inward baggage room, they began to see the light. The bag they were watching belonged to a minister named Dow of Brattleboro."

"You see, they knew that Wren had bought a shiny bag in Brattleboro before leaving and thought he would check it through with his trunk, and in this they were right."

"I was suspicious of Wren from the moment he said he wanted to send his trunk by express, for you don't hear of a second-class passenger doing such things as that once in a lifetime, as it cost \$5 or \$6 to send the trunk through in that manner. Wren, as I remember him, looked worried, for his eyes were red, and he looked as though he had had very little sleep the night before. His wife appeared to be cheerful and happy and did not display the least bit of nervousness."

ADVERTISED FOR WIFE

James M. Hall of Steubenville, Ohio, to Wed Miss Cora Dykeman of Pittsfield.

PITTSFIELD, Feb. 12.—James Monroe Hall of Steubenville, O., a widower, giving his occupation as a manufacturer, advertised in the matrimonial paper about a year ago for a wife, and Saturday he will marry Miss Cora Dykeman, formerly of Great Barrington, who is employed at housework in the home of William S. Noble, at 225 East street. The ceremony will take place at the home of the bride's sister, Mrs. Morgan, 510 Penn street.

Mr. Hall, who arrived here last Sunday, took out a marriage license last night. He gives his age as 33 and Miss Dykeman as 48. Miss Dykeman has made her home here for 11 years. She said yesterday she answered Mr. Hall's advertisement for a wife and she met him for the first time at the home of a relative.

HINES MISMANAGEMENT

Overseers of Poor's Office Criticized Before Manchester, N. H., Legislative Delegation.

MANCHESTER, N. H., Feb. 12.—Gentle hints of a coming change of both the past and present administrations of the office of overseer of the poor were made last night at a public hearing of the Manchester legislative delegation in the city hall.

BASEBALL AND
FIELD SPORTS

THE SUN SPORTING PAGE

BOXING, GOLF
AND ATHLETICS

Live Bits of Sport

Willie Kolchak, the Finnish long distance sensation, is certainly cleaning up for the American contenders. By beating Billy Quest he has proved himself the greatest distance runner in the world's professional ranks. His brother Hannes is some runner also as the world record in the five mile event goes to show. These two brothers are training together over in New York and expect to show better than ever during the coming outdoor season. Hannes has already unseated Donaghy's record which was thought unbeatable.

The high school and the Textile school will play the first game of hockey this afternoon that was ever played between the two schools. The team from the high school looks the stronger on paper as individual players, but what the two teams will do as a unit remains to be seen.

The Yale rowing management has shown very good judgment in deciding to keep an American shell as well as an English one in her navy. The English style is a much lighter boat than that built by American manufacturers, but is consequently harder to handle, especially in rough water. The American built shell is managed with a minimum of care and is equipped with a heavy center rigging which tends to throw the weight in the center of the boat and lessen the wind pressure. Both shells will be tried out by Yale this year and the boat that proves the more satisfactory will be used in the big races.

Abel Klavat has passed his highest mark for this season and Norman T. Jones has just hit his stride. These two men are probably, with John Paul Jones, the greatest hitters in the world today. Jones has not run as yet this winter, but will compete in the Columbia university games on Saturday night. Jones is running anchor man for the Cornell two-mile relay team and his performance will be watched with much interest.

John O'Reilly, the old Holy Cross athlete and present athletic head at Dorchester high, was the starter at the track meet to the amazement of the other night. While O'Reilly is good, I don't see where anyone could acknowledge him the equal of Matt McManis. Matt always gives an athlete who is waiting for the starting gun the greatest confidence. He will never start a race until he sees that each man is set and the only kinks that are ever registered against his starting are those that would be puffed. John O'Reilly told me that it made him nervous to start a race, but it never seems to bother Matt any.

The wedding in our city of a big league pitcher calls attention to the fact that there are an unusually large number of ball players being married this winter. There are no less than 14 pitchers who have joined the ranks of the benedictines in the last three weeks.

PRESENT DAY PITCHERS

Changes Make Comparison Difficult

There is no satisfactory way of comparing the present day pitchers with those of fifteen or twenty years ago, because of the material changes that have been made in the pitching rules since those days.

Before 1891 the pitching distance was much shorter. There was less strain on the pitcher's arm. There is no question as to the latter fact, for there are men who have "pitched" at both distances and who know that the amount of physical exertion was not so great at the short distance. In addition to that pitchers in the old days were allowed the freedom of a box from which they could pitch at any angle. They were allowed to take a skip and a jump if they felt like it. Once there was a pitcher who was dubbed "Jumping Jack" Jones because of his agility in the pitcher's box.

So far as effectiveness of delivery is concerned the writer is inclined to believe, after some years of observation, that the new rule is really a benefit to the pitchers. It calls for harder work, because it is manifest that a pitcher takes more endurance to pitch a ball continuously for a long distance than for a short distance, but time has proved that a curve ball in the hands of a skillful pitcher is more effective over the present distance from the pitcher's plate to the batter's box.

And, by the way, the occasional reference to the pitcher's box is but the honest old heritage of the term, which was accurate when the pitcher's box actually existed, marked on the field in whitewash.

There were pitchers in those days who changed their position in the box with almost every batter who walked to the plate, and there were very few who did not pitch from two corners and sometimes three corners of the box to the same batter. The pitcher's box was seven feet long, four feet wide and fifty feet from the plate.

It is perhaps fortunate for baseball that no one club can boast of two pitchers of the Johnson-Walk type. Two such pitchers with any sort of backing up would come pretty near to making a runaway race with any of the first division teams in either league. But were it not for the fact that a club, once it starts a player, holds him for its lifetime such a state of affairs might be possible. If the players were free agents, at the end of every season the highest bidder would get the stars, and it stands to reason that in a club at a city where it has a population of millions to draw from would be in a position to outbid the smaller cities in the circuit.

7-22-24
10c CIGAR

2-20-10c cigar 7-22-24 weekly. By far the largest selling brand of 10c cigars in the world. Factory, Manchester, N. H.

Whether this fact will increase the attendance of gowned spectators at the ball games or not is yet to be decided.

Young Teschner, who has just established several new records at Exeter is one of the most likely looking schoolboy sprinters that the East has seen in recent years. This boy is very versatile running every distance in the same style from the short dash up to six hundred yards. Teschner is a Lawrence boy and has run here on several occasions although his performances in Lowell were mediocre. The Lawrence boy's running in the 400 yards at the L. A. A. games last Saturday brought attention from all of the college trainers. If he does not overtrain himself, and pull a tendon this schoolboy should make a name for himself in college athletics.

Charlie Carter will go to Andover Academy in the fall. Carter has been associated with practically every branch of sport since entering the high school. He played an end on the football team and he is probably as good as the average one on the larger prep school teams. With good coaching in the hurdles "Speed" ought to catch on to the track team at Andover as well. His progress down here will be watched with the keenest interest as Carter is one of the most popular boys among his fellows that the school has ever turned out.

The following item appeared in the sporting column of a Boston paper this morning:

I don't think your paper has given accurately the girls' record for basketball at 25 baskets. In the Lowell High v. Melrose High girls game at Lowell, Feb. 4, 1902, Miss Ruth M. Bailey of Lowell threw 33 baskets, 65 points of the 83. Also on Jan. 28, 1905, Miss Bailey threw 40 baskets in three 12-minute periods of a game with Belmont High. Carl D. Burit, then and now a teacher in the Lowell High school, was the coach of the Lowell team. This may interest you if you care for accuracy.

This is rather putting it up to Mr. Burit to either prove or disprove the exact number of baskets that the Lowell girl caged in a game. Records are scarce enough to keep in our own city if we deserve them, and the signed initials tell us nothing of their authenticity. Mr. Burit was coach of the team and ought to know Miss Bailey's best performance.

They talk about football not being a game for small men but just take a look at the men playing big league ball today. There are very few big leaguers who are not big men. The average height and weight. The modern baseball player figure that a big man can stand the game better and outlast the smaller player. The average baseball is an business and the club owner is perfectly justified in receiving the greatest possible return for his money even though some play he be discriminated against on account of their deficiency in size.

LEAGUE GAMES ROLLED

Many Close Matches on Alleys Last Night

The Heinz-Cartridge, Baraca, T. M. C. I. and the Manchester Unity bowling leagues were all in full swing on the local alleys last night. Most of the games were close or furnished some spectacular features of interest to the fans. Brown of the Trinitarian Congregational team, Baraca league, put up the highest total of 312. Arnold of the Ajax rollers, Heinz-Cartridge league, was the next in order with a three-string total of 306. McGovern's Pets beat Sullivan's Pets by two pins in a game in which the latter played the summaries of the various games follow:

BARRY, WORLD'S CHAMPION SCULLER
MAPS OUT STRENUOUS CAMPAIGN

LONDON, Feb. 12.—Ernest Barry, the world's champion professional sculler, has mapped out a strenuous campaign for the coming season. The great oarsman intends to meet all the cracks who have been anxious to try their skill against him. His first match will be with Harry Pearce of Australia on the Thames next July. After this race he will give Dick Armit of New Zealand, the man from whom he won the title, a chance to win back his honors. Several good offers have been made to Barry to visit America and tackle some of the stars on the other side of the Atlantic, and it is more than likely he will accept some of them.

BASEBALL BLACK LIST THE COVER UP FIGHTERS

Eleven Clubs That Have Are Few and Far Between These Days

Detroit is one of the five clubs in the big leagues that have no ineligible players on their lists. Eleven clubs—all the teams in the National league and New York, Chicago and St. Louis in the American league—have one or more players who are on the "black list."

This "black list" is a great institution. It is about as dangerous to a real ball player as a feather duster is to an elephant. John Kling was once its ornament, but, as every one remembers, he removed himself quite easily. There was a lot of noise attendant on his reinstatement, but that was for advertising purposes.

Comparatively few men on the ineligible list are well known. Orin Overull and Vic Willis of the Cub roster are perhaps the most prominent. Overall could come back if he wanted to, and Willis has simply decided to quit baseball.

One of the peculiar members of the ineligible league is George Sisler, who belongs to Pittsburgh. This is Branch Rickey's star twirler at Camp Perry, Ohio. Rickey signed a Columbus contract in a fit of absent-mindedness and never reported. Consequently by remaining in good standing in the A. A. U. he has been in bad standing in organized baseball ever since he entered it. If he can be said to have entered it at all.

Fielder Jones is a White Sox ineligible, but since he is in good standing in baseball as president of the Northwestern league his status is somewhat odd.

Swiss Rifleman Not Coming
The Swiss rifleman have decided not to come to the United States for the International rifle contests to be held next September at Camp Perry, Ohio. In connection with the controversy over Eric, the reason given for this unfavorable decision is that no provision has been made for their expenses as is usual at similar tournaments in Europe.

That top square point avoids collar spreading. It's the patented "Lock-that-locks"—found only in LION Collars. Insist on the distinct LION features. Buy from the LION dealer. 2 for 25c.

Larger Quantities and Smaller Prices Than Ever Before

Larceny of \$200,000 Charged
BOSTON, Feb. 12.—Stephen R. Dow, the broker, was placed on trial in the superior court today charged with the larceny of more than \$200,000. Dow is alleged to have fraudulently obtained the money from the Franklin Mining Co. and the Algonquin Mining Co., of which he was president at one time. He was formerly head of the brokerage firm of Stephen R. Dow & Co. of this city.

GEORGE SLOSSON SAYS THAT
WILLIE HOPPE IS ALL IN

It's hard to reconcile the youth and apparent physical freshness of Willie Hoppe, once the greatest cue artist in the world, with the persistent reports that he will never be himself again—that is, never the invincible player he once was.

Many experts bring word that the blond youth—he's only twenty-four or twenty-five years of age now—is afflicted with a nervousness that is painful to his watchers and confusing to himself. This is hard to believe in view of the fact that Hoppe not only won the recent championship tournament from the pick of the world, but also made some excellent averages in the course of accomplishing it.

Slosson Says He's a Wreck
However, so good an authority as George Slosson, a veteran of several decades and himself a contestant in the recent tournament, declares that Hoppe has an apparently permanent trouble that will prevent his ever regaining the beautiful stroke and confidence that once inspired himself and his friends.

Will Never Come Back
Sutton, Peterson and others who have seen Hoppe play believe that he has "broken" and will never come back.

However, Willie should not worry. Even "broken" as they seem to insist he is, he's still good enough to beat the world. And that's about all the glory it's possible to win down here.

SEARCHING FOR BODIES

Scene of Battle at Mucklow, Va., Scoured

CHARLESTON, W. Va., Feb. 12.—Tracing steep paths and plunging into the dense underbrush covering the mountains around Mucklow, where mine guards and striking miners battled early in the week, squads of militiamen today sought for the dead and wounded. Military officers believed that many more men than have been reported were shot down during the fighting and were buried away to the remote section of the hill country by their friends to escape arrest.

The military under Adjutant General Elliott is in complete control of the strike zone today and martial law is being rigidly enforced.

Many arrests have been made and the prisoners moved to Paint Creek, where the military commission will sit for the trial of the men.

The signal corps was working to restore wire communication with Mucklow.

Over 1800 Aluminum Cooking Utensils
At about half the price asked by agents, go on sale tomorrow at Bon Marche.

Students Go on War Ships
CAMBRIDGE, Feb. 12.—A plan, proposed by President Lowell of Harvard and sanctioned by the navy department, by which college students may spend their summer vacations aboard United States battleships and secure training in the ways of naval war was explained to a mass meeting of Harvard students last night by Capt. C. C. Marsh, U. S. N.

Basketball Notes
Manager Edward Quinn of the C. V. M. L. and Manager Cull of the South End basketball teams have completed arrangements for the big game to be held next Tuesday night in Mathew hall and it is expected that this game will prove to be one of the star sporting events of the season. The managers will meet on Sunday next to post a side bet.

Magnates of National League
NEW YORK, Feb. 12.—Magnates of the National league, meeting today to adopt the playing schedule for the coming season were confronted with unexpected opposition to the plan to allow the Brooklyn club to open the new Ebbetts field on April 1, one day ahead of the opening games in other cities. The New York club is said to oppose an early opening in Brooklyn and President Lynch has already voiced an objection. The American league has given its consent to an early opening for Brooklyn as that would prevent a conflicting date with the New York Americans and the Washingtons in this city. Gary Hermann says that Cincinnati and five other clubs will favor the Ebbetts plan for an early opening. Managers Finker of Cincinnati, Evers of Chicago and Stallings of Boston are looking about to make advantageous trades.

MAY MEET MCGOORTY

McCloskey Expects a Match Soon

Blunk McCloskey, the Philadelphia middleweight who thinks he can defeat Eddie McGoorty and the rest of the American contenders for the middleweight championship, will be given the chance to show just what he can do in a 12-round bout against Joe Thomas at the Lowell A. C. Friday night. Since appearing to the middleweight title contest, McCloskey has figured in several important matches, the most of which have been decided in Paris and England. Blunk is a greatly improved boxer since he left here some six years ago and according to his record and clippings which he brought all the way from Paris with him, the French folks looked up to him as a champion of the class. In the matches which he has taken part since arriving home the Quakerite has disposed himself in no small measure of his improved skill. He defeated Willie K. O. Brennan, the Buffalo sensation, in a ten-round bout and afterwards won the popular award over Philadelphia Jack McCarron, the \$50,000 boxer of which so much has been heard about. Assuming that McCloskey has done all this while in fact Joe Thomas at the Lowell A. C. he will be meeting a far different style of boxer than a great many of the rest. Thomas probably never met a better boxer and a better skill than he does at the present writing and his legion of followers are willing to wager any amount that he will carry home the belt. The managers are showing a keen interest in the match. The other bouts are also of a classy order.

2 MAN BOWLING LEAGUE

Opened at the Crescent Alleys Last Night

The Crescent Two-Man Bowling league commenced its season's roll last night with an entry list of twelve teams. Two games were bowled last night and the schedule as arranged at the meeting Monday night will keep the teams busy for the remainder of the winter. The score of the games and the schedule are as follows:

TEAM NINE

Jewett 93 90 93 275
Kennedy 96 91 113 300
Totals 189 181 205 575

TEAM TEN

McCarthy 83 108 83 275
Nason 88 93 76 252
Totals 171 198 158 527

TEAM FIVE

Bernardini 94 92 102 288
Flanders 88 93 87 273
Totals 182 185 189 550

TEAM SIX

Beauregard 86 93 102 281
Kilpatrick 75 85 87 250
Totals 161 178 189 531

Team 1—H. Perrin and Panton.
Team 2—J. Mahan and Campbell.
Team 3—McElroy and W. Mahan.
Team 4—J. Stetson and Whitelock.
Team 5—E. Bernardina and P. Flanders.

Team 6—O. Beauregard and Kilpatrick.
Team 7—D. Roark and Craig.
Team 8—P. Concanon and Maloney.
Team 9—W. Jewett and Kennedy.
Team 10—W. McCarthy and Nason.
Team 11—J. Stetson and Whitelock.
Team 12—E. Carpenter and Warren.

The schedule is as follows:
Thursday, Feb. 13—Teams 7 vs. 8, 9 vs. 10, 11 vs. 12.
Tuesday, Feb. 18—Teams 10 vs. 11, 12 vs. 1, 2 vs. 3.
Thursday, Feb. 20—Teams 8 vs. 9, 11 vs. 12, 1 vs. 2.
Tuesday, Feb. 25—Teams 6 vs. 7, 10 vs. 11, 12 vs. 1.
Thursday, Feb. 27—Teams 1 vs. 2, 3 vs. 4, 5 vs. 6.
Tuesday, March 4—Teams 3 vs. 4, 5 vs. 6, 7 vs. 8.
Thursday, March 6—Teams 8 vs. 10, 11 vs. 12, 1 vs. 2.
Tuesday, March 11—Teams 1 vs. 4, 2 vs. 5, 3 vs. 6.
Thursday, March 13—Teams 7 vs. 10, 11 vs. 12, 1 vs. 2.
Tuesday, March 18—Teams 2 vs. 6, 3 vs. 11, 5 vs. 12.
Thursday, March 20—Teams 4 vs. 9, 10 vs. 11, 12 vs. 1.
Tuesday, March 25—Teams 1 vs. 6, 4 vs. 8, 5 vs. 9.
Thursday, March 27—Teams 2 vs. 10, 11 vs. 12, 1 vs. 3.
Tuesday, April 1—Teams 2 vs. 7, 3 vs. 8, 5 vs. 9.
Thursday, April 3—Teams 5 vs. 11, 1 vs. 4, 2 vs. 12.
Tuesday, April 8—Teams 5 vs. 12, 2 vs. 8, 3 vs. 9.
Thursday, April 10—Teams 4 vs. 10, 6 vs. 11, 1 vs. 7.
Tuesday, April 15—Teams 3 vs. 10, 4 vs. 7, 1 vs. 12.
Thursday, April 17—Teams 6 vs. 2, 2 vs. 11, 3 vs. 12.
Tuesday, April 22—Teams 1 vs. 8, 2 vs. 9, 4 vs. 11.
Thursday, April 24—Teams 5 vs. 10, 6 vs. 10, 3 vs. 7.

THE LOWELL DENTAL ASSOCIATION

Met in Regular Session
Yesterday at the New
American Hotel

The regular bi-monthly meeting of the members of the Lowell Dental Association was held last evening at the New American hotel and interesting remarks were delivered by Dr. Harold DeWitt Cross of the board of trustees of the Forsyth dental hospital, of Boston; Dr. H. Piper of Somerville, and Dr. C. M. Proctor of Malden.

The meeting was presided over by the president, Dr. A. S. McLeod, and two new members, Dr. F. E. Twitchell and Dr. Leroy S. Darling were initiated.

At the close of the business meeting luncheon was enjoyed and this was followed by an interesting lecture by Dr. Harold DeWitt Cross, who spoke on the scope and equipment of the infirmary of which he is a trustee. He said it will be equipped with 64 dental chairs, each with excellent lighting arrangements, and there is provision for a second row of 44 chairs, making over 100 in all. The instruments, of which there will be two or three hundred sets, will be used for but one operation and then will be laid aside and sterilized after the work of the day is done. In this way all chance of infection through the instruments will be practically done away with. The operators, and the patients as well, will be provided with clothes to slip on over their ordinary clothes, and everything possible will be done to make the operation as aseptic as possible. In general equipment, the building will contain, besides the large operating room for the dental work, a smaller operating room for minor operations on the throat and nose, and a ward for patients undergoing these operations; laboratories, dressing rooms, supply rooms and practically everything else to make it one of the best dental infirmaries in the world. The permanent staff of the infirmary will consist of about 20 paid men, and the

DR. A. S. McLEOD,
President.

remainder will be made up of dental students.

Dr. Piper of Somerville was the next speaker and he gave an interesting talk on the experience of that city with a free dental clinic. He said the city gave an appropriation of \$1000 out of which from \$500 to \$600 was paid to a young graduate in dentistry for his services and a woman was hired to assist as a nurse.

Dr. Proctor of Malden gave a brief explanation of the dental nurses' bill which is soon to be brought before the legislature, explaining its importance to the profession and what it is hoped may be accomplished should it pass.

U. S. TROOPS RUSH TO MEXICO

Continued
intervention by the United States," he said. "I do not think the time has come when we are called on to interfere. If we once take the step we cannot take it back."

ZAPATA LEADER ENTERED CAPITAL WITH 300 OF HIS FOLLOWERS

MEXICO CITY, Feb. 12.—Alfonso Grandia, one of the Zapatista leaders, entered the capital last night with 300 of his followers who are harassing the federal troops at various points.

SHOOTING THROUGH IRON SHUTTER OF CABLE OFFICE

MEXICO CITY, Feb. 12.—Shortly before 9 o'clock a shell tore a hole through the iron shutter protecting the cable office, and fell inside. Porter's hotel and the American club, in both of which scores of American visitors and residents are gathered, are in direct line of fire. Another heavy shell struck a building in front of the cable office at about 10 o'clock, ripping away a corner of the structure.

REBELS UNDER DIAZ BEGAN ADVANCE ON NATIONAL PALACE

MEXICO CITY, Feb. 12.—The rebels under Felix Diaz began an advance on the national palace at an early hour this morning. The rebels seemingly are employing heavier cannon than they did yesterday. They directed their fire toward the national palace and on to the higher buildings in the center of the business district, on many of which federal machine guns are mounted.

The continuing federal and rebel forces occupied this morning approximately the same positions as at the beginning of the fighting yesterday. Felix Diaz, the rebel leader, appeared to be prepared to offer resistance whenever the commander of the government troops saw fit to resume hostilities.

An effort made by the federalists to isolate the rebels from their water supply was ineffective on account of the number of artesian wells in that portion of the city occupied by the rebels.

According to reports from the rebel lines Felix Diaz utilized the night hours in further fortifying the positions he had taken up and which even yesterday had proved strong enough to withstand the attacks of the government troops.

In many parts of the city the electric wires had been cut by bullets and this resulted by almost complete darkness. Thousands of residents took advantage of this to escape from the zone of greatest danger.

This exodus began in the early hours of the night as soon as the people realized that fighting had definitely ceased for the time being. The lawless elements, taking advantage of the absence of police control, committed many robberies during the night. Many occupied the hours of darkness

AMUSEMENT NOTES

Lowell Opera House

"A Woman's Way" as presented by the Longman Players at the Opera House, was the medium of again affording a delightful two hours and a half of enjoyment both afternoon and evening yesterday and it may be said that Mr. Longman and the very able company of players that he has assembled are fast becoming locally popular. Seldom if ever has a company been given with the smoothness and finish that has marked those of the first days here of the Longman Players. The company is a company of many capable actors whose individual and collective work remind one of the days of the famous Boston Museum company, the home of many famous artists. "A Woman's Way" with its delightful satire and crisp dialogue is presented at the hands of this company. The settings are both sumptuous and correct and the production is at a much higher price of admission. Performances are now on sale and the subscription list is open. The matinee prices are 10c, 20c and 30c, and the evening prices, 20c, 30c and 50c.

Lowell Social Service League Met Yesterday in Order to Raise Funds for the Carrying on of Its Work

A meeting of the Lowell Social Service League was held yesterday at the Y. M. C. A., to consider means for the securing of funds for carrying on the work of the league. John Jacob Rogers was in charge of the meeting.

MANY INJURED IN RIOT

Sabres Drawn in Osaka, Japan--New Premier

TOKIO, Feb. 12.—Count Gombel Yamamoto, definitely accepted the Japanese premiership today and immediately overlooked the duties of his office.

Rioting of an extremely violent nature occurred last night at Osaka and in charges by the police with drawn sabres, many people were injured.

The cause of the outbreak was the breaking up of two meetings by the police. The gatherings were attended by large holiday crowds who were celebrating the anniversary of the Japanese constitution. They were greatly incensed at the action of the authorities and many of them proceeded to demolish or to attempt to set fire to offices of the bureaucratic newspapers.

Others paraded the streets of the city attacking and destroying the residences of the bureaucratic members of the diet. A large force of police reserves was called out and attacked the crowd which offered a fierce resistance. The rioting continued until the early hours of this morning.

Sabres Drawn in Osaka, Japan--New Premier

TOKIO, Feb. 12.—Count Gombel Yamamoto, definitely accepted the Japanese premiership today and immediately overlooked the duties of his office.

Rioting of an extremely violent nature occurred last night at Osaka and in charges by the police with drawn sabres, many people were injured.

The cause of the outbreak was the breaking up of two meetings by the police. The gatherings were attended by large holiday crowds who were celebrating the anniversary of the Japanese constitution. They were greatly incensed at the action of the authorities and many of them proceeded to demolish or to attempt to set fire to offices of the bureaucratic newspapers.

Others paraded the streets of the city attacking and destroying the residences of the bureaucratic members of the diet. A large force of police reserves was called out and attacked the crowd which offered a fierce resistance. The rioting continued until the early hours of this morning.

FIFTY-ONE MEN IN JAIL

Charged With Rioting, Dynamiting and Shooting

CHARLESTON, W. Va., Feb. 12.—Conditions in Paint and Cabin Creeks, Kanawha county, were quiet last night. Troops are scattered over the territory and it is not believed that rioting will occur as long as the militia is present.

Fifty-one men, forty one of whom are held at Paint Creek Junction, and 10 in the county jail in this city, are awaiting trial by the military commission.

The men are charged with rioting, shooting to kill, attempting to dynamite trains, or carrying firearms. The military commission will sit Thursday.

Failure to establish communication into the strike zone prevented details of the mine trouble reaching Charleston today. The militia worked during the day to connect up telegraph and telephone wires, and were so occupied late last night. It is hoped that definite word of the mine riot at Mucklow will be at hand tomorrow.

The death list of 15 has not been changed. At least two more are known to be injured, some of them fatally. A majority of the dead, it is said, will be buried tomorrow in isolated mountain towns.

Rioting in strike territory came to an end last night with the arrival of the first militia companies. The soldiers spread out over the trouble zone and soon brought order. Details were sent into the mountains looking for bodies of victims that may have perished last night. Results of this investigation are not yet known.

Excepting attempts to wreck trains on the Chesapeake & Ohio railroad with dynamite today there have been no other developments.

MAN IS THE TREASURER

Of Family Says Judge

J. J. Dobler

MAN WHO GIVES WIFE ALL HIS SALARY IS NO MAN AT ALL.

Declared Judge—Man Who Receives \$21 a Week Must Give His Wife Eight Dollars Every Seven Days

BALTIMORE, Md., Feb. 12.—"A man who gives his wife all his salary is no man at all."

This was the declaration of Judge J. J. Dobler in the criminal court yesterday. Thomas Nichols had been arraigned for non-support and had promised to give his spouse all his salary each week.

"I don't want you to do that," said his honor. "A man who gives his wife all his salary is no man at all. The man is the treasurer of the fam-

ily and he should be the financial head in reality as well as theory. A man must take some pride in the fact that he is a man and the head of the family."

It was arranged for Nichols, who admitted he was making twenty-four washers a week, should give his wife eight bucks a week.

HIKE TO WASHINGTON

Suffragettes Start Today

From New York

NEW YORK, Feb. 12.—Votes for women. Votes for women. Washington, Wilson. This was the shrill feminine shriek that attracted crowds of early morning workers to the Hudson terminal in downtown New York today to watch the departure of the army of suffragettes who are going to march to Washington to take part in the women's suffrage pageant on March 3. Sixteen regulars who have promised to march the entire distance of 230 miles and some half a hundred sympathizers who planned to march at least for the first day mustered shortly before nine o'clock at the megaphone call of General Rosalie Jones, commander of the expedition and veteran of the recent "hike" to Albany. They left the city by the Hudson tube for Newark, N. J., where the actual start was to be made. Their schedule called for a stop at Elizabeth, N. J., at noon and Metuchen tonight.

PARDON OF C. F. KING

Petition Again Considered by Council

BOSTON, Feb. 12.—For the third time in three consecutive weeks members of the executive council today considered the petition for a pardon of Cardozo F. King, the former New York and Boston financier. Friends of King, who has served four years of a ten year sentence in state prison for defrauding his customers expressed the hope that a conditional pardon will be granted. It was announced shortly before the meeting that several members of the council were opposed to granting King a pardon of any kind. The pardon was asked for on the ground that further confinement would be fatal to the former broker who has been ill for more than a year.

GEN. MILES TO SPEAK

At Lincoln Day Rally in Philadelphia

PHILADELPHIA, Feb. 12.—Philadelphia will take a prominent part in commemorating the birthday of Abraham Lincoln today. President Taft and almost every member of his cabinet have accepted invitations for the 15th anniversary dinner of the Union League at which there will be more than 1000 diners. Members of the progressive party also will do honor to Lincoln's memory at a dinner given under the auspices of the Washington party. More than 700 acceptances have been received for this affair and prominent members of the party are expected to make addresses.

Gen. Nelson Miles will be the principal speaker at a Lincoln day rally under the auspices of the Sons of Veterans and numerous other dinners will be given in celebration of the emancipator's birth.

College Trainer a Big Asset
The value of a college trainer's services is beyond dispute. This was shown several years ago when Cornell presented Charlie Courtney, the clever rowing coach, with a house and later the same institution gave Jack Moakley, the trainer, a similar gift.

While both of them may seem great, the conferring on Keene Fitzpatrick of honorary memberships in the senior classes of Princeton is a tribute such as a trainer has seldom, if ever, enjoyed.

Nature's Own
Catarrh
Remedy

Balsamic Air that Heals Sore Membrane, Destroys Germs and Stops Morning Hawking and snuffles.

North's HYOMEI, the world's greatest catarrh remedy comes from the giant eucalyptus trees of inland Australia. People who live there never have catarrh or consumption because the air

they breathe is filled with the healing, germ destroying balsams these trees throw off. Right in your own home you can secure the benefit of the same antiseptic air by breathing HYOMEI. You can carry the inhaler in your pocket and breathe HYOMEI anywhere and cure catarrh, coughs and colds.

Complete Hyomei outfit \$1.00. Extra bottles if needed later 50 cents at druggists everywhere. Carter & Sherburne guarantee HYOMEI.

Dwyer & Co.

PAINTERS, DECORATORS AND PAPER HANGERS.

BRONCHIAL COUGHS

result from inflammation of the delicate bronchial tubes which clog with mucus—pneumonia easily follows.
SCOTT'S EMULSION works wonders in overcoming acute bronchitis; it stops the cough, checks the inflammation, and its curative, strengthening food-value distributes energy and power throughout the body.

Insist on SCOTT'S for Bronchitis.

Scott & Borne, Brooklyn, N. Y. 17-60

HELD REGULAR SESSION

The License Commission Made Definite Rulings

The regular weekly session of the license commission was held last night and considerable business was transacted by the body.
In regard to lost or destroyed licenses, the commission decided that when a license holder moves his place of business, he must procure his license or take out a new one and pay the same fee as he would in case he did not have a license previously to moving. In the past it has been the custom of the commission to grant a new license without extra charge to a man moving who has thrown aside or lost his first license.
In regard to the transfer of a license another discussion arose. The license is a personal privilege and not transferable and in spite of this fact it appears to have been considered otherwise by a certain class of license holders and several in disposing of their business have also sold the license, realizing a goodly sum in cash for the same. It is according to the ruling of the commission necessary for the purchaser of a license to get a new license and he cannot rightly purchase the license of the former owner. Each shopkeeper keep within the law and have a license in his own name, in order to conduct a place of business requiring a license.

At the meeting last night the following licenses were granted:

Common victuallers' licenses by William D. Crawford at 560 West 12th street, Apostolos Zouzas at 412 Market street, Arthur St. Onge at 647 Merrimack street and by Levinia A. Cooper at 820 Merrimack street.

A license to conduct and maintain two billiard and pool tables by Sothras Lambesis at 497 1/2 Market street, increase to 179 1/2 room, fruit, confectionery, etc., on the Lord's day, by Nellie Michael at 614 Middlesex street.

A license to transfer an intelligence office from 164 Andover street to 165 Andover street to Mrs. G. L. Robbins.

The following licenses were surrendered and ordered cancelled:
Common victuallers' licenses by William D. Crawford at 560 West 12th street, Apostolos Zouzas at 412 Market street, Arthur St. Onge at 647 Merrimack street and by Levinia A. Cooper at 820 Merrimack street.

THE MUNICIPAL COUNCIL

Failed to Elect Board of

Health Member

THREE BALLOTS TAKEN AND NO CHOICE

Hugh C. McDougal Re-elected Registrar of Voters—Belle-Isle Petition Called and Hearing Postponed

The municipal council at a belated meeting held yesterday afternoon balloted three times for a member of the board of health, but the balloting was of no avail. There was no choice. John Osgood's shadow continued to grow less and disappeared on the last ballot.

Hugh C. McDougal was re-elected registrar of voters. His election was unanimous.

The meeting scheduled for 2 o'clock did not materialize until 3:40, an elongated conference having been held in the mayor's office.

Leslie G. Hill, 246 Aiken avenue and Harry L. Stanley, 223 Moody street, were granted permission to keep, store and use gasoline.

Eugene Lajole was confirmed as a weigher of coal.

The Lowell Electric Light Corporation asked permission to attach its wires to poles of the Bay State street railway company in Tanner street. The petition was referred.

Mayor O'Donnell said he understood that persons interested in the Belle-Isle case, so-called, were on hand and he asked to hear from them. James Stuart Murphy representing Victor H. J. Belle-Isle, who wants to be reinstated as constable, appeared with relation to the hearing in the case.

The remonstrants to Mr. Belle-Isle's reinstatement as constable are J. P. Gately and Amedee Jean. Mr. Gately was not present and it was stated by Mr. Jean that Mr. Gately was sick. Mr. Jean said he had not received notice of the hearing until 1 o'clock and he asked for more time. He said he wanted time to summon witnesses and get his case in shape.

Mr. Murphy asked for an immediate hearing on the case. He said it was apparent that Mr. Gately was attempting to prevent Mr. Belle-Isle from obtaining the permit. Finally, and on motion of Alderman Barrett, it was voted to hold the hearing next Tuesday afternoon.

Alderman Donnelly moved that due notice be given through the columns of a daily newspaper concerning the proposed new lighting contract. It was so voted.

Alderman Cummings moved that a ballot be taken for the office of registrar of voting to fill the position soon to be made vacant by the expiration of the term of Hugh C. McDougal. Mr. Barrett seconded the motion. Mr. McDougal was unanimously re-elected.

Mayor O'Donnell suggested that a ballot be taken for a member of the board of health. This was done. The result was:

Mr. Barrett—John A. Osgood.
Mr. Brown—John A. Osgood.
Mr. Cummings—Dr. Matthew P. Mahoney.Mr. Donnelly—John E. Drury.
Mr. O'Donnell—John E. Drury.
There was no choice and, at the mayor's suggestion, another ballot was taken, as follows:Mr. Barrett—Francis B. McCarthy.
Mr. Brown—Dr. Matthew P. Mahoney.
Mr. Cummings—Dr. Matthew P. Mahoney.Mr. Donnelly—John E. Drury.
Mr. O'Donnell—John E. Drury.
There was no choice and, on motion of Mr. Barrett, the council adjourned.

A Year Ago Was Threatened With Unhappiness. Tells How She Made Her Hair Grow

Mrs. Esther Emery, now visiting friends in the city, is the fortunate possessor of a wonderfully beautiful hair, which, when lost, had been a source of much unhappiness.

Moreover it is of soft, silky and lustrous texture and in color a glorious glossy gold. Yet just one year ago she was threatened with baldness. Urged to tell how she had obtained this wonderful growth in so short a time, she said: "Had anyone told me such marvelous results could be accomplished so quickly, I positively would not have believed it. Twelve months ago my hair, which then reached barely to my shoulders, was falling out at an alarming rate, growing very thin, actually exposing the bald scalp in several spots. It was thin and lifeless in color, turning gray in patches, and very dry and brittle. My head was covered with dandruff and itched like mad all the time. I tried for a dozen different hair preparations but they were all the same and never did me a bit of good. One day I chanced to read in my home paper of a simple home prescription to make the hair grow that was recommended by a well known physician. It said that by taking ordinary Lavona de Menthol and mixing with Bay Rum and applying to the scalp with the fingers tips that new hair would grow very rapidly. I decided to try it and I had my druggist mix 2 oz. of Bay Rum and 1/2 dr. of Menthol Crystals. I started to use it at once and, lo! how quickly my hair did grow. In fact, my hair stopped falling, the itching ceased and the dandruff disappeared. Then I tried a little hair cream and my hair grew even faster. I have used it ever since and though nothing would ever stop them, they are growing yet and while, of course, I have used the treatment steadily and expect to continue it at least until my hair reaches the floor. I might have stopped and been perfectly satisfied at the end of three months. I think that any woman can get long, thick, beautiful hair by using this prescription as I have received it to several friends and all are delighted with the result. The prescription is very inexpensive and any druggist can fill it.

Those who use it should be careful not to get it on the face or where the hair is not desired.

MEET ME AT THE LOWELL INN

The best place in Lowell to get a good square meal

FRATERNAL GATHERINGS/HATPIN BILL PUT OVER

Several Well Attended Meetings Last Night

No Action in Senate Until Monday

The regular meeting of the United Spanish War Veterans was held in Memorial hall recently with large attendance and it was a most interesting session throughout. There were several reports of the activities of the various committees and during the evening considerable business of a routine nature was transacted.

Considerable time was spent in the discussion of a bill that is soon to come up at Washington; it is to grant pensions to widows and children of Spanish War Veterans and the veterans of this state are exerting every effort to have the bill passed. There are other similar acts pertaining to the soldiers' aid and relief.

Comrade Salmon, known to all as "father of the Spanish war veterans," said that he was a victim at this meeting and delivered an interesting address to the members regarding these bills which are now before the legislature. His words were interesting and instructive and were heard by those present with evident pleasure.

They stood in silence for a minute in memory of the sorrowful event of the sinking of the Maine and of those who perished in the disaster.

A bowling contest with Company G has been arranged to take place at the state armory on Saturday evening, March 1, starting promptly at eight o'clock.

At the next meeting, which will be held on Feb. 24, the camp inspection will take place. An entertainment will be given and refreshments served on this occasion and a general good time enjoyed by all.

Adlt. Scott is completing his card system of records of all the men who left Lowell for the Spanish war, including those who died, where buried, rank, and other details.

Division 11, A. O. H.
The members of Division 11, Ancient Order of Hibernians, gathered in regular business session last night in Hibernian hall and transacted important business. The division continues to grow and prosper and last night a number of candidates were received and referred to the committee.

The business of the evening was the election of the marshal for the parade in honor of St. Patrick's day and John Hendricks was selected to fill this office. John Kenney was elected to serve as adj. chief marshal. James McManmon on this occasion.

The arrangements for the parade were placed in charge of a committee appointed for the purpose.

The report read by the treasurer indicates financial prosperity of the division.

S. H. Hines Lodge
At the regular meeting of the members of S. H. Hines lodge last evening, there was a large attendance and several applications for membership were filed. Among those who were present were: Esley, Veritas hall, Branch street. The meeting was called to order at 8:15 o'clock, with Past Chief Templar Julius T. Adams, Jr., presiding. Considerable routine business was transacted. David Jones was elected financial secretary for the next quarter. There will be installation of officers at the next meeting, and all members are asked to be present.Greenhalge Council
The regular meeting of Greenhalge council No. 100, Loyal Association, was held last night. Their rooms in Old Fellowship hall, Branch street, Councillor Arthur D. Gilbert, presiding. One candidate was received into the order and the general routine of business was transacted.

Drive Headache Away

With Musterole

A headache remedy without the dangers of "household medicine." You run no risk when you use MUSTEROLE to relieve that headache and miserable feeling from cold or congestion. And it acts at once! MUSTEROLE is a clean, white ointment made with oil of mustard. You rub it on the forehead and temples. Better than a mustard plaster and does not blister. Used only externally, and in no way can affect stomach and heart, as some internal medicines do.

eSst for Sore Throat, Bronchitis, Croup, Stiff Neck, Asthma, Neuralgia, Congestion, Pleurisy, Rheumatism, Lumbago, all Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of the Chest (it prevents Pneumonia).

At your druggist's in 25c and 50c jars and a special large hospital size for \$2.50.

Accept no substitute. If your druggist cannot supply you, send 25c or 50c to the Musterole Company, Cleveland, Ohio, and we will mail you a jar, postage prepaid.

Mrs. F. R. Snyder, Brooklyn, New York says: "I have helped many times by Musterole when I have had severe headaches."

AN ENJOYABLE AFFAIR
Colonial Day Observed
at Y. W. C. A.

Yesterday was Colonial day at the Young Women's Christian association rooms, and the event was a most enjoyable affair for the large attendance that gathered there in the afternoon and evening. The decorations were handsome and consisted of the national colors, American flags and potted plants, which blanketed both sides of the stage, while the young women members who assisted on the various committees and at the booths were dressed in Colonial costumes.

The afternoon program included talks of a most interesting nature by Mrs. Edith Terry Bremer of Chicago, national secretary of the Y. W. C. A., and Mrs. John Thompson, a member of the northeastern field committee, which includes New England, New York and New Jersey.

Mrs. Bremer gave a most delightful talk on her work. Interimizing it with many interesting stories of her experiences and observations. She traced the history of immigration into this country back several generations and explained the various reasons which caused the influx of people into the United States. The speaker was generously applauded throughout her lecture.

In the evening the meeting was opened to men and many took advantage of the invitation to listen to interesting addresses by Mrs. Bremer and Mrs. Thompson. The pupils of the eighth and ninth grades of the Varum school under the personal direction of Mr. Frederick O. Blunt, assisted by Miss Daisy B. Macfarlane, presented the delightful cantata "Plymouth Rock." This part of the program was especially well received.

In the receiving line in the afternoon were Mrs. C. T. Upton, Mrs. Bremer, Mrs. Thompson and Mrs. Burton L. Wiggin.

The committee in charge of the afternoon consisted of Mrs. G. D. Farley, chairman, assisted by Mrs. J. M. Mason, Mrs. C. L. Cashin, Misses Margaret Archibald, Helen Barnes, Catherine Faulkner, Marion Farley, Thea H. Hinch, assisted by Mrs. J. F. French, Mrs. F. A. Bowen, Misses Eva and Mildred French, Mrs. S. A. Pickering, Mrs. Winnie Tilton, Mrs. David Donaldson, Mrs. W. A. Chase and others. Fees were served by Miss Ella Calderwood, Mrs. John Robertson and Mrs. E. J. Gilmore.

Those in charge last evening consisted of Miss Alvah Sturges, assisted by Misses Mildred French, Eva French, Margaret Stevenson, Lena McNamee, Harriet Walters, Edna Proctor, Gertrude Williamson, Mildred Caldon, Ethel Harris, Anna

Patenaude, Louise Boardman, Helen Badger and Hope Hathaway.

Master William Thompson as a miniature George Washington, and Miss Dorothy Farley as a dainty Martha Washington, acted as pages during the afternoon and evening. The event was highly enjoyed by all present.

BOY HANGED HIMSELF
Feared to Face Mother
After Losing Dime

PORTLAND, Me., Feb. 12.—His body hanging almost over the place where he kept his toys, Clarence J. Cadby, the 12-year-old son of George J. Cadby, was found dead in a noose of rope hanging from a nail in a room at his home on Federal street last night.

The little fellow having committed suicide because he feared to face his mother after losing a dime which she had given him when he went to the store. The little fellow had lost small sums twice before and been whipped for it, and last night the mother told him that if he lost the 10 cents he need not come back. Hoping with his pet dog on the way to the store, the boy dropped the money, and later his mother was found in the snow where he tried to dig it out. Returning home, he let his dog loose from his sled, and then taking off the rope he fastened it to the upper part of the picture and jumped, his neck being broken by the fall. The mother is in a serious condition as the result of the suicide.

THOMAS F. CARRICK
Nominated for Position of Tree Warden
by Democrat Town Committee—Annual caucus held last night

The Democrat town committee held its annual caucus last night in the home company's quarters in Sladen street. The only interest in the contest was in that of tree warden, the candidates being Thomas F. Carrick, the present incumbent and Albert Marshall. Mr. Carrick was the choice of the meeting by a majority of 35, the vote being 75 to 40.

The remainder of the ticket chosen was as follows: Town clerk, John W. Brennan; town treasurer, Nicholas Gallacher; selectmen, Martin J. Banks, Moses L. Dalgic, John Madden; assessors, Michael Wynton; constable and tax collector, George St. Ledger; road commissioners, Thomas Carroll; school committee, John Gillick, Charles H. Jones, Bernard Maguire; library trustees, Patrick Cassidy, Denis J. Morrow; cemetery commissioner, Frank Farrell.

Plan for Good Will and Giving and How it Works—Described by C. W. Williams

"A new method of undertaking the support of a growing city's charities, and a new way out of perplexing problems of philanthropy," are described by

C. W. Williams, assistant to the president of Oberlin college, in The Survey, The Federation for Charity and Philanthropy, launched by the Cleveland Chamber of Commerce, is to be composed of thirty trustees, ten elected by philanthropic organizations, ten elected by donors, and ten appointed by the president of the chamber.

"It was found that only 5,358 people, less than one per cent of Cleveland's

population, were providing the financial support for the city's philanthropies. Six were given forty-two per cent of all the money. The new plan, involving co-operative collection of charitable support, is expected to increase the number of givers and the total amount of their gifts. But at the same time the aim will be to establish even closer personal relations between the subscribers and the good work of Cleveland as a whole."

In discussing the advantage of the plan, he quotes Martin A. Marks, chairman of the committee of the chamber, which has been working five years to devise it, as saying:

"For the institution, the plan should mean a larger life because of more money, without that money being chased at the cost of the time of the

subscribers and the good work of Cleveland as a whole."

LEGAL NOTICES
COMMONWEALTH OF MASSACHUSETTS. State House, Boston, February 11, 1913. The Committee of Roads and Bridges will give a hearing to parties interested in proposed legislation as follows: House No. 1559, provide for a readjustment of the rates charged for the registration of automobiles. House No. 1560 relative to fees to be charged for motor and horse-drawn vehicles. House No. 1581, relative to signals to be used by automobiles. House No. 1592, relative to the operation of motor vehicles. House No. 1593, to provide for distributing public utilities and towns one-half of the money received from the licensing of motor vehicles. House No. 1594, relative to the penalties for the illegal operation of motor vehicles. House No. 1595, to require the prompt repair of accidents in which motor vehicles are involved, at room No. 425, State House, on Thursday, Feb. 13, 1913 at 10:30 o'clock a. m. Samuel I. Condit, Clerk of the House. H. Burdick, Clerk of the Committee.

LEGAL NOTICES
To the Honorable the Justices of the Superior Court within and for the County of Middlesex: Respectfully I hereby certify that I am a married woman, that I was lawfully married to Charles L. Trenholm, now of Three Rivers, Province of Quebec, Canada, at the town of Lowell, in said County, on the first day of December, A. D. 1908, and thereafter afterwards your libellant and the said Charles L. Trenholm lived together as man and wife, until the said Charles L. Trenholm, being wholly regardless of the same, at Lowell, on the first day of March, A. D. 1910, and upon divers other days, publicly, by word and abusive treatment of your libellant. Wherefore your libellant prays that a divorce from the bonds of matrimony may be decreed between your libellant and the said Charles L. Trenholm. No children. Dated this seventh day of January, A. D. 1913. ERMINE TRENHOLM.
